INDEX AND POPULATION

Note: The letters and figures after names (as E-7) denote the square on the map in which the town is located, as indicated by the corresponding figures in the border.
Light face type indicates population of the entire township. Black face figures indicate population of village only. Figures marked thus (*) are estimated for unincorporated villages. All others are latest U. S. Government Census figures.
Places marked thus † are not post office village points, but the names of townships, and will not be found on this map unless there is a village or post office bearing that name.
