In accordance with the right of way agreement as obtained from F.C. Stewart, the State is to install a sleeve for the water pipe under the new highway and make the necessary water pipe connections, this work to be paid for as an extra work item except that any excavation will be paid for under the item of Trench Excavation.
The attention of the contractor is called to the spring right of Sta. 93+50 Rt. He shall take proper precaution to avoid damage to the spring as it is necessary that the flow from the spring be maintained during construction. The contractor will be held liable for all damage done by occasion of his construction, to the spring from the beginning of construction to the satisfactory completion of the project.
