§ 305. Measurement and inspection

(a) After reasonable notice to the selectboard, a representative of the agency may measure and inspect the class 1, 2, and 3 town highways in each town to verify the accuracy of the records on file with the agency. Upon request, the selectboard or their designee shall be permitted to accompany the representative of the agency during the measurement and inspection. The agency shall notify the town when any highway, or portion of a highway, does not meet the standards for its assigned class. If the town fails, within one year, to restore the highway or portion of the highway to the accepted standard, or to reclassify, or to discontinue, or develop an acceptable schedule for restoring to the accepted standards, the agency for purposes of apportionment under section 306 of this title shall deduct the affected mileage from that assigned to the town for the particular class of the road in question.

(b) Annually, on or before February 10, the selectboard shall file with the town clerk a sworn statement of the description and measurements of all class 1, 2, 3, and 4 town highways and trails then in existence, including any special designation such as a throughway or scenic highway. When class 1, 2, 3, or 4 town highways, trails, or unidentified corridors are accepted, discontinued, or reclassified, a copy of the proceedings shall be filed in the town clerk's office and a copy shall be forwarded to the agency.

(c) All class 1, 2, 3, and 4 town highways and trails shall appear on the town highway maps by July 1, 2015.

(d) At least 45 days prior to first including a town highway or trail that is not clearly observable by physical evidence of its use as a highway or trail and that is legally established prior to February 10, 2006 in the sworn statement required under subsection (b) of this section, the legislative body of the municipality shall provide written notice and an opportunity to be heard at a duly warned meeting of the legislative body to persons owning lands through which a highway or trail passes or abuts.

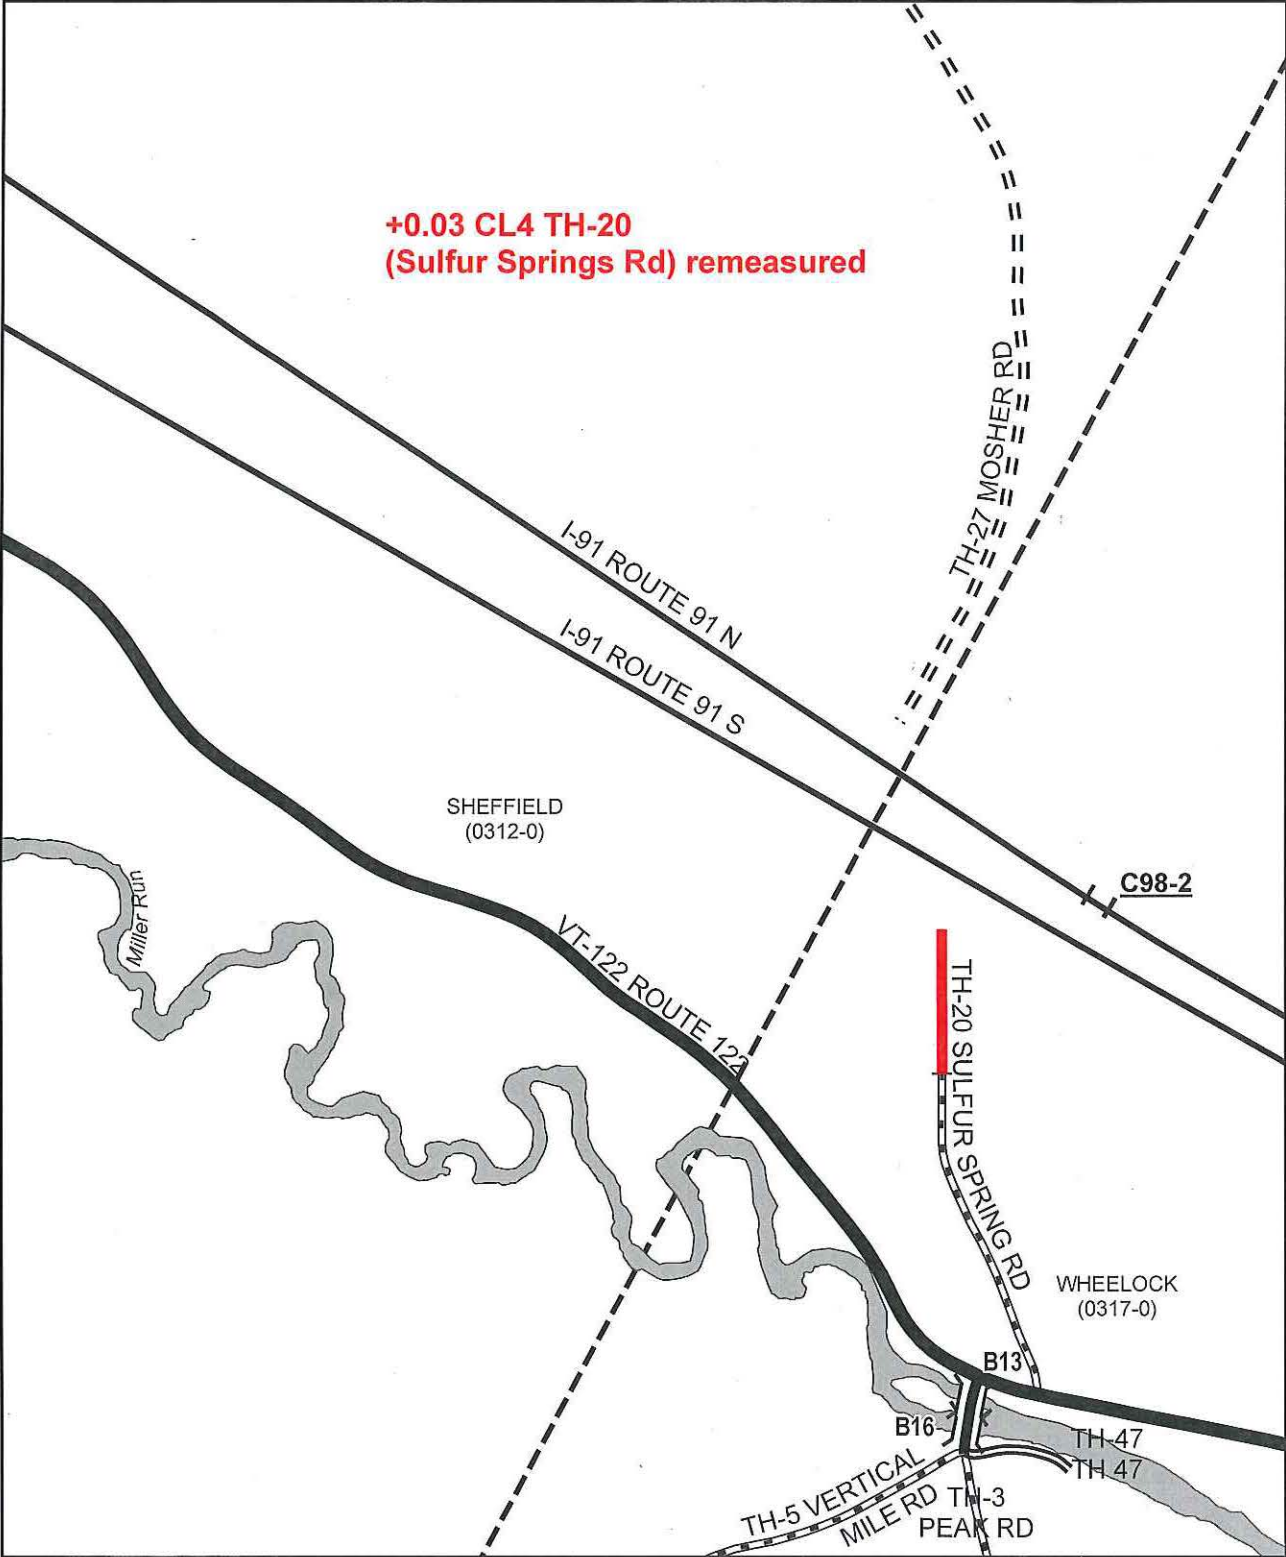

(e) The agency shall not accept any change in mileage until the records required to be filed in the town clerk's office by this section are received by the agency. A request by a municipality to the agency for a change in mileage shall include a description of the affected highway or trail, a copy of any surveys of the affected highway or trail, minutes of meetings at which the legislative body took action with respect to the changes, and a current town highway map with the requested deletions and additions sketched on it. A survey shall not be required for class 4 town highways that are legally established prior to February 10, 2006. All records filed with the agency are subject to verification in accordance with subsection (a) of this section.

(f) The selectboard of any town who are aggrieved by a finding of the agency concerning the measurement, description, or classification of a town highway may appeal to the transportation board by filing a notice of appeal with the executive secretary of the transportation board.

(g) The agency shall provide each town with a map of all of the highways in that town together with the mileage of each class 1, 2, 3, and 4 highway, as well as each trail, and such other information as the agency deems appropriate

Hi Doug,

We've received Wheelock's 2016 Certificate of Highway Mileage. I processed the Certificate with the change to TH-20 (Sulfur Spring Rd) added to it by me. The change is as described below and per our phone conversations. If you have any questions, please don't hesitate to contact me.

Hi Doug,

If the Selectboard agrees with the change to Sulfur Spring Rd as discussed below, the change can be added to the Mileage Certificate and written as:

+0.03 mi CL4 TH-20 (Sulfur Spring Rd) remeasured

There may still be questions about the exact location of the town line and parcel boundaries, but the differences are almost insignificant for mileages rounded to the nearest 0.01 mile. I aligned the Interstate plans with what appears to be a fence line indicating the State ROW at the end of the CL4 portion of Sulfur Spring Rd. Regardless, we're simply clarifying that the approximately 0.03 mile of CL4 highway south of I-91 that had been assigned to Sheffield is being reassigned to Wheelock.

Please let me know if you have any questions,

Kerry

Subject: Wheelock mileage adjustment to class 4 town highway #20

Selectboard Chair Amos,

The VTrans Mapping Section has historically shown the class 4 portion of TH-20 (Sulfur Spring Rd) extending into Sheffield (as Sheffield TH-46, formerly part of Sheffield TH-27 before the construction of I-91). With new information regarding location of the Sheffield-Wolcott town boundary, it has become apparent that the portion of this class 4 town highway south of I-91, that was believed to be in Sheffield, is actually in ^{Wheelock}Wolcott. It is therefore appropriate that the 0.03 mi removed from Sheffield TH-46 be added to ^{Wheelock}Wolcott TH-20. Please see the attached maps to see the updated linework for TH-20 (red and blue lines) superimposed on the original linework, imagery, parcel data, and a highway plan for I-91.

It is my understanding that Sheffield (cc'd) has discontinued TH-46 (with zero length) for clarity. Assuming that we can process the Sheffield change, we recommend that that 0.03 mi be added to ^{Wheelock}Wolcott class 4 TH-20 on the 2016 Certificate of Highway Mileage. Because this is a class 4 change, it will not affect funding from the State for class 3 town highways. Unless you have additional information that I am aware of, I will pre-load this change onto the 2016 Certificate before mailing it to you on January 2, 2016.

Please contact me if you have any questions,
