TABLE OF

APPROXIMATE DISTANCES

IN

VERMONT

To find distances between points listed in the table (as from Barre to Montpelier), find the first in alphabetical order (Barre) in the list and follow the vertical column to an intersection with the horizontal line from the second point (Montpelier) in the list (7 miles).

GREEN MOUNTAIN HORSE ASSOCIATION BRIDLE PATHS

The roads used for these so-called "Bridle Paths" are the dirt roads which run throughout the entire State, generally higher in the hills than the main motor roads. They are soft surfaced, shady, always beautiful and very seldom used by motor cars. At present there are over 1,000 miles of these roads marked, with stops arranged every ten to twenty miles for the riders' convenience for luncheon or over night.

One can generally count on the bridle paths being in good condition from May 1st to November 1st, and in some places for a longer season. The Association marks the routes with arrows, with the letters "G. Mt. H. A." or "Bridle Path" and issues a guide book giving the names of farm houses, inns and hotels where riders and horses will find comfortable quarters. Anyone may become a member of the Association upon payment of the dues of $2.00 a year. The guide book, maps and all necessary information as to condition of routes, expenses of a trip, rental of horses, lodgings, equipment, etc., will be supplied by the Green Mountain Horse Association, Rutland, Vermont.

The Publicity Service desires to be of help to all persons interested in Vermont and will gladly give information regarding hotels, boarding places, locations for summer homes, tours, recreational attractions and opportunities for hunting and fishing.

The following publications will be furnished: "Vermont Hunting and Fishing"; "Vermont Tours"; Directory of Hotels, Tourist Homes and Cabins; "Vermont Farms and Summer Homes for Sale"; "Cottages, Camps and Furnished Homes for Rent" with a list of boys' and girls' camps; folder, "Unspoiled Vermont" and "Pictorial Map of Green Mountain National Forest." Special requests for information not contained in the foregoing are welcomed and will be answered as fully as possible. Address inquiries to

Publicity Director
Vermont Development Commission
State House
Montpelier, Vermont

VISIT THE LONG TRAIL

From one end of Vermont to the other the Long Trail follows the sky-line of a two hundred mile mountain range, dipping into valleys, climbing over summits, passing through magnificent forests, sometimes skirting lakes. In all of the United States there is no foot-path like this. **You Can Visit the Trail or one of the Beautiful Summits in a Single Day's Trip from Various Convenient Points.**

On either side of the mountain range approach trails lead up to the Long Trail from nearby motor highways. In addition there are highways that cross the Trail itself.

HEALTH CONDITIONS IN VERMONT

All places offering lodging and meals must pass inspection by State Department of Public Health.

Vermont is justly known as a healthy state, and for years has maintained its position as a leader in the control of communicable diseases. Typhoid fever is almost unknown in this state, a result which has been accomplished by close supervision of the State Department of Public Health over all public water supplies, sewage disposal and other possible means of infection. Boys' and girls' camps are visited frequently by an experienced sanitary engineer, and camp owners make constant use of the facilities of the Department whenever sanitary or disease problems arise.

Besides the sanitary engineering division, the Department maintains active divisions of laboratory, communicable diseases, tuberculosis, infantile paralysis and public health nursing, all of which are at the service of tourists, campers and visitors, receiving attention either directly at the headquarters at Burlington, or through local health officers in the cities or towns.

INDEX AND POPULATION

Note: The letters and figures after names (as E-7) denote the square on the map in which the town is located, as indicated by the corresponding figures in the border.
Light face figures indicate population of the entire township. Black face figures indicate population of village only. Figures marked thus (*) are estimated for unincorporated villages. All others are latest U. S. Government Census figures.
Places marked thus † are not post office village points, but the names of townships, and will not be found on this map unless there is a village or post office bearing that name.
