Good morning Michelle,

Thank you so much for the certificate. I noticed that you checked the “no changes” box and did not fill out Part I. There are two preloaded changes (see highlight in image below) that I did email you about in October (see attached email). I can fill out part I for you for the Class 3 and Class 4 changes. I just want to be sure that the Selectboard is aware of these changes. Let me know.

Greetings from the VTrans Mapping Section,

Please find the 2026 Mileage Certificate for Craftsbury attached to this email.

This Certificate must be completed in order to determine your town's share of state aid for town highways for Fiscal Year 2027, and to ensure that your Town Highway Map remains current.

Please note that 19 V.S.A. § 305(c) states that as of 2015, all class 1, 2, 3, and 4 town highways and trails shall appear on the town highway maps.

Any changes in mileage or highway classification, such as additions, alterations, or discontinuances made by your selectboard this past year should be entered on this certificate. If there are changes that occurred before this past year that are not shown on the Town Highway Map, please let us know so we can update the maps.

In filling out the Mileage Certificate, it is important to:

- >> Enter mileage and classification changes on PART I and PART II of the Certificate.
- >> Provide supporting documentation sufficient for the Mapping Section to:
  - Map the change

- Verify the mileage
  - Demonstrate the change was made according to State statute by providing required documentation
- >> If you have no changes, you may simply check the box in PART II of the Certificate.  
>> The Town Clerk and Selectboard MUST sign PART III of the Certificate.

Good afternoon Michelle,

I wanted to inquire about some roads in Craftsbury for possible mileage changes in 2026 if you could forward these questions to the selectboard.

For TH-26 (Mountain Hill Rd) we updated the intersection with TH-53 (Common Loop) in our road data to reflect that it is a Y and not a T (see orange dot in image below). We will need to update the AOT mileage for the Class 3 section of this road from 0.14 miles to 0.17 miles, a change of +0.03 Class 3 miles. Before we do that, I noticed that there is a Class 4 section of TH-26 that may be maintained by the Town and that you may want to reclassify to Class 3 (see yellow highlight in image below). It looks like there is a turn-around where the red arrow is. Does the Town intend to reclassify this section or keep it as Class 4?

The other road we have a question about is TH-24 (Mastin Rd). Currently, we have a section of Class 3 road that is designated as Not up to Standards (NUTs) (see section noted in red in image below), but it looks like part of it has been fixed to meet Class 3 standards (see yellow highlight in image below). We can remove the NUTs designation for that small piece as long as we get confirmation that it is being maintained to Class 3 standards. For the rest of it, does the Town intend to bring that up to standards or reclassify it to Class 4/Legal Trail or discontinue it? Let us know what the intent is.

The third road I have a question about is TH-10 (Wylie Hill Rd) which also has a section that we need to designate as NUTs from just south of 1880 Wylie Hill Rd to just north of 2165 (see pink highlighted section in image below). If the Town intends to bring this up to Class 3 standards soon, let us know or if you intend to reclassify this section to Class 4 or Legal Trail that would tidy up the classification for the Town.

Thank you so much and let me know what the Town intends to do for these roads.

Best,

Pam
