Persons wishing to comment, provide testimony or give evidence regarding the proposal may do so in person during the hearing, or by filing their comments, in writing, prior to the hearing.

Monday, November 13, 2023  
6: 00 pm at Bethel Town Offices (134 South Main Street) & via  
Zoom

Zoom Link Meeting ID: 820 1825 6136 Passcode: 608771 Phone# 1-646-558-8656

Present: Lindley Brainard, Dave Eddy, Denise Guilmette, Chris Jarvis, Gene Kraus, Therese Kirby and Julie Kraus.

Visitors: Thomas Brooks, Darlene Ballou, Ele Griffin, Kyle Cartwright, Jordon Garrow, Joe Hawley, Tiffany Tessier, Collin Johnson, Kristen Stearns, Adam Stearns, Ron Trask, Josh Wardell

6:04 pm: Chris Jarvis called the meeting to order. The agenda was modified to move "Public Comment" before the TRORC Program presentation. Lindley moved, Dave seconded, to approve the agenda as amended. So voted.

Public Comment

There was discussion about policing/traffic issues on Christian Hill Road. Cars are speeding, parking on private property, theft, property damage, etc. There is great concern especially as there are children in the neighborhood. Possible solutions were discussed including the available coverage by police.

6:45 pm: Kevin Geiger, TRORC. Re: USDOT Thriving Communities Regional Pilot Program

(See material in Packet) The Thriving Communities Pilot Program is funded through the Department of Transportation with a goal for three years to help towns develop solutions to regional issues. We are seeking a letter from Bethel supporting the grant proposal to the **USDOT** Thriving Communities Regional Pilot Program. If awarded, this grant would provide manpower to Bethel to help address transportation and flood resiliency issues. Lindley moved, Denise seconded, to authorize Therese to send a letter of support to TRORC for the USDOT grant proposal for the Thriving Communities Regional Pilot Program. So voted.

6:20 pm: Ele Griffin, Recreation Committee re: skateboard park

Kyle Cartwright stated the Recreation Committee would like to have a special event to celebrate the conclusion of the Skatepark project. The skatepark was recently vandalized with purple spray paint. The Selectboard supports a celebration of the work the Committee on this project but wants to wait until Chris Fors advises the project is complete as there are still some details to complete.

Samantha Godin's request to be appointed to the Planning Commission  
EC has approved the appointment.

Denise moved, Lindley seconded, to appoint Samantha Godin to a 3-year term on the Planning Commission. So voted.

Josh Wardell's request to be appointed to the Energy Committee  
Motion to appoint

Lindley moved, Denise seconded, to appoint Josh Wardell to the Energy Committee (no term). So voted.

Update of Pool Fees

Dietre Finney is requesting an increase for the pool fees. (See spreadsheet in the Packet).  
Denise moved, Lindley seconded, to approve the proposed pool fees for 2024. So voted.

Outdoor Cultivator Tier 1 Small Cultivator Cannabis License Renewal  
Cannabis Control Board

This action is required by State law. There has not been any violation of any zoning regulation and the Town Office has received no complaints or comments on this license renewal. Previous a license issued by the State but as Bethel has now formed a Cannabis Control Board the Selectboard has an opportunity to review any renewal.

Gene moved, Denise seconded, to approve the Outdoor Cultivator Tier 1 Small Cultivator Cannabis License Renewal. So voted.

Health Insurance Approval

New Rates for MVP and BC/BS have been released. The BC/BS rate and deductible will be smaller than MVP's increase. Because BC/BS has a plan similar to the current MVP, employees will not lose any coverage. Currently there are four family plans and three single plans. Gene moved, Lindley seconded, to move from MVP to BC/BS. So voted.

Update on July Flood Event

Campbrook Road is currently closed just past the trailer park. Alternate routes are Route 107 or Peavine to Lilliesville to Campbell. A schedule for the culvert replacement near Pond Road on Campbrook Road, is not yet available.

#### Minutes and Communications:

1. Town Manager's Report

Met with FEMA on November 8. There will be no site inspections. Currently working to provide them with all paperwork to close out the completed projects.

Attorney Bob Fletcher is working on our behalf with Mascoma Bank to secure a Grant Anticipation Note for \$1M at 5%. This will be a line-of-credit we can draw on if needed to cover FEMA and Federal Highway expenses.

The Fire Department and Road Crew proposed budgets are due December 1. I plan to have a budget only meeting on December 11 and will present a draft of the entire budget.

I will be out of the state from Wednesday, November 15. thru Tuesday, November 21. David Aldrighetti will be the Emergency Management Director during that time.

The Town Report work is underway by Kelly.

I have discussed with Rita Seto of **TRORC** funding for a couple stormwater projects that come out of the Bethel for All Stormwater Master Planning.

I want to discuss the idea of deleting our Facebook Page. Maintaining the program causes a lot of strife within the office/staff/residents and takes a lot of time to monitoring posts, etc. - 24/7. Residents may contact us and receive/request information in multiple ways (Call the Town Manager's Office or Town Clerk's Office [there is voicemail], email, many people stop at the offices, mail us a note with water/sewer or tax payments which many people do, check the Town website and read all committee meeting minutes, Front Porch Forum, ORCA website as all Selectboard meetings are recorded and posted, Attend Selectboard or committee meetings [agendas are posted in three places and the Town website]).

2. Selectboard Minutes from 10/23/2023 & 11/2/2023

Gene moved, Denise seconded, to approve Selectboard Minutes from 10/23/2023. So voted. Denise moved, Lindley seconded, to approved Selectboard Minutes from 11/2/2023 as amended by the lawyer. So voted.

3. Other Communications.

Window Dressers have been building inserts at the Town Hall and the group is so very appreciative to be able to use the building. This year 246 windows have been built for 40 households with an estimated \$12,000 savings on heating bill at last year's prices.

4. Any Other Business Necessary to Come Before the Board

the Selectboard met in a deliberative session prior to tonight's meeting regarding the Wright Road closure issues. Gene moved, Denise seconded, to find that the public good, necessity and convenience of the inhabitants of the Town of Bethel warrant discontinuing the +/-950-foot Class 3 portion of the Town Highway #19 - Wright Road right-of-way northerly of the turnaround near the Wright farm barn, as well as the +/- 0.48-mile Class 4 portion of the Town Highway #19 - Wright Road right of-way that extends from the end of the Class 3 portion to the Bethel-Rochester municipal boundary line. Hi Pam,

Yes to number 1. You are correct at the location the discontinuance should start.

I have attached scans of the plans I could find on the bridge. Let me know if you need anything else on that.

Thanks for everything,  
Therese

Hi Therese,

I have a couple of follow-up questions:

1. Based on the description in the notice, I want to be sure I have the correct location for the break in the discontinuance. I measured approximately 950 feet south of the current Class4/Class 3 break and was in the vicinity of the red arrow in the image below. This looks like it might be the turn-around referenced in the document you sent? You can see the house referenced as address 567 Wright Rd just south of here marked with an X in the image below. I just want to be sure this is where the discontinuance of the Class 3 should start. The notice you sent says that it is 0.7 miles north of the intersection with TH-7 (Gilead Brook Rd), but when I measure it from this spot, I get about 0.6 miles.

2. Another question I have is in relation to what looks like to be a different alignment and bridge location (see image below) than we have mapped along TH-19 (sometime between 2012 and 2017- see 2<sup>nd</sup> image below from 2012). According to our records, it was built in 2014. Would you perhaps have any survey plans related to this new bridge and road alignment? I can make this update more accurately if I have the survey plans.

On another note, the Selectboard just voted to discontinue the Class 4 portion of Wright Road and +/- 950' of the Class 3 section of Wright Road. I will of course make this change on our annual highway mileage paperwork.

Hi Therese,

I wanted to follow up with you regarding Pond Rd. We have it on our list from last year that you had inquired us about adding it. Our last account from October 2022 was that you were going to reach out to another landowner and get back to us. Did you make any headway with laying out information for the road?

Just let us know what the status is and thank you.

**DEFINITIONS (AASHTO)**

- BEDROCK (LEDGE)** - Rock in its native location of indefinite thickness.
- BOULDER** - A rock fragment with an average dimension > 12 inches.
- COBBLE** - Rock fragments with an average dimension between 3 and 12 inches.
- GRAVEL** - Rounded particles of rock < 3" and > 0.075" (#10 sieve).
- SAND** - Particles of rock < 0.075" (#10 sieve) and > 0.0029" (#200 sieve).
- SILT** - Soil < 0.0029" (#200 sieve), non or slightly plastic and exhibits no strength when air-dried.
- CLAY** - Fine grained soil, exhibits plasticity when moist and considerable strength when air-dried.
- MARVED** - Alternate layers of silt and clay.
- HARDPAN** - Extremely dense soil, cemented layer, not softened when wet.
- MUCK** - Soft organic soil (containing > 10% organic material).
- MOISTURE CONTENT** - Weight of water divided by dry weight of soil.
- FLOWING SAND** - Granular soil so saturated (loose) that it flows into drill casing during extraction of wash rod.
- STRIKE** - Angle from magnetic north to line of intersection of bed with a horizontal plane.
- DIP** - Inclination of bed with a horizontal plane.

**GENERAL NOTES**

- The subsurface explorations shown herein were made June 2012 by Mike's Boring and Coring
- Soil and rock classifications, properties and descriptions are based on engineering interpretation from available subsurface information by the Agency and may not necessarily reflect actual variations in subsurface conditions that may be encountered between individual boring or sample locations.
- Observed water levels and/or conditions indicated are as recorded at the time of exploration and may vary according to the prevailing rainfall, methods of exploration and other factors.
- Engineering judgement was exercised in preparing the subsurface information presented herein. Analysis and interpretation of subsurface data was performed and interpreted for Agency design and estimating purposes. Presentation of the information in the Contract is intended to provide the Contractor access to the same data available to the Agency. The subsurface information is presented in good faith and is not intended as a substitute for personal investigation, independent interpretation, independent analysis or judgement by the Contractor.
- Pictorial structure details shown on the boring plan layout or soils profile are for illustrative purposes only and may not accurately portray final contract details.
- Terminology used on boring logs to describe the hardness, degree of weathering, and spacing of fractures, joints and other discontinuities in the bedrock is defined in the AASHTO Manual on Subsurface Investigations, 1988.
