Right, that's because of the status of those three Class 70 arcs. They're in limbo until they are re-certified on the 2008 Certificate of Highway Mileage. Then they'll be reassigned to AOTCLASS 7 and given their RTNO numbers.

I've attached a map that identifies how the RTNOs and mileages will be distributed for these arcs.

One another item-

Of the 573 LT class 70 arcs statewide, the three in Pomfret are the only ones w/o a RTNO.

Sara and Johnathan-

I am just worried that folks will see the LT on the general highway map and not know it is not certified (and going to be dropped in 2015). Attached is an idea for noting this on the GHM (Pomfret). Just a suggestion and the new PDFs look great.

I also attached the Pomfret pages from the March 2007 changes PDF that Sara made for everyone. I do not

see the uncertified LT on these maps. I actually think the two uncertified Pomfret LT changes were forwarded to VTrans this summer. Did you send them something else this summer or should I remind them this January to put these two LTs on their mileage certificate?

Thanks
-Pete

Pete,

Sara sent each town a map with the highlighted legal trails sections and a listing of the known mileage from our files with the blank 2007 certificates. Some of these trails were added in 2007, whereas, others were not. Those that towns didn't add will certainly be noted in the next round, but ultimately, if towns don't get the mileage on the certificate, the trails might be dropped from the maps after 2015. The maps reflect what is on the mileage certificates and if the trail mileage is not accounted for, the map should reflect that.

Johnathan-

I imagine you look at the subject lines of your RPC emails and just groan sometimes. Anyway, I noticed you added two LTs in Pomfret this summer and put them on the General Highway Map without LT shields. Is there going to be a process where you remind the Selectboards that they need to deal with these little buggers on the mileage certificate the next go-around? I am planning on displaying these on my maps as LTs...

Thanks

Sara-

Great, thanks, makes a lot more sense now. Can you cc the RPCs on these types of correspondence to the towns in the future? I was pretty confused because the towns rarely communicate this info to me and just ask why don't my maps look like the VTrans maps.

For Pomfret, it looks like you are going to add these automatically next year since the mileage certificate is pre-loaded. I still think the general highway maps should have some sort of note for class 70 unless you are going to pre-load all mileage certificates in order make sure these get included. It is kind of a new class-- "preliminary LT".

Thanks

As part of the Year 2007 Mileage Certificate process, Pomfret requested the addition of two Legal Trails identified as LT-7 and LT-8. I did not accept these two Legal Trails and notified the town why (see attached document Pomfret_trail_no_accept.pdf). They asked for a reconsideration of my decision which I forwarded to Johnathan who accepted the town's request to add these Legal Trails. Please see the attached document titled LT_7-8.pdf which explained to the town how we planned to process the additions.

The attached document Cert_2008.pdf shows that the addition of these two Legal Trails has been "pre-loaded" into the Year 2008 Certificate. All the town has to do is to process the certificate as they normally would, and the trails will become incorporated as "Accepted".

Please let me know if you have any questions.

Board of Selectmen
Town of Pomfret, c/o Lois Havill
PO Box 64
South Pomfret, VT 05067

Dear Ms. Havill;

Sara Moulton forwarded your request for a reconsideration of her non-acceptance of Legal Trails LT-7 and LT-8. Her concern was that the trails appeared to have been discontinued sometime between 1976 and 1982, according to the Town Highway Maps of those years. She was unsure that the Selectboard's action in 2002 adequately addressed those discontinuances.

I have reviewed our Pomfret town file, including the documentation from our Central Files that covers that time period, and will approve the classification of those two right-of-ways as Legal Trails (LT-7 and LT-8). The 2007 Mileage Certificate process was closed on April 15, 2007, so these two Legal Trails will not be included in the 2007 mileage totals. We will include these Legal Trails on the 2007 Town Highway Map, but they will not be assigned their identifier number and mileage in this year's map. **The 2008 Mileage Certificate for Pomfret will note the addition of the LT-7 and LT-8 mileage and the legal trails will be numbered with mileage on the 2008 Town Highway Map.**

If you have any questions or comments, please feel free to call me at 802-828-2600 or send e-mail to johnathan.croft@state.vt.us

Thank you.
