with

Act 178 Ancient Road Additions

Town of Barnard

April 1, 2005

DISCLAIMER:

This map is a work in progress. It is not to be used for description, for conveyance, or for determination of legal title.

The information on this map is derived in part from recorded surveys, in part from deed descriptions, and in part from approximations. Therefore, property boundaries as shown here are only approximations and may differ significantly from actual boundaries. Furthermore, not all internal property lines are shown. While the map shows many public rights-of-way, it does not show them all; similarly, it does not show all bodies of water.

Subject: RE: BRC-228 Litigated Town Road

Good morning Mike,

The VTrans Mapping Unit does not currently tag or note highways that are under litigation. We have added a note to the road that was dropped as a town highway due to the court decision in the case of Austin v. the Town of Middlesex. There is currently no mechanism for the VTrans Mapping Unit to be notified of any legal action that may be pending in regards to town highways or changes that have been submitted on the Mileage Certificate.

Subject: BRC-228 Litigated Town Road

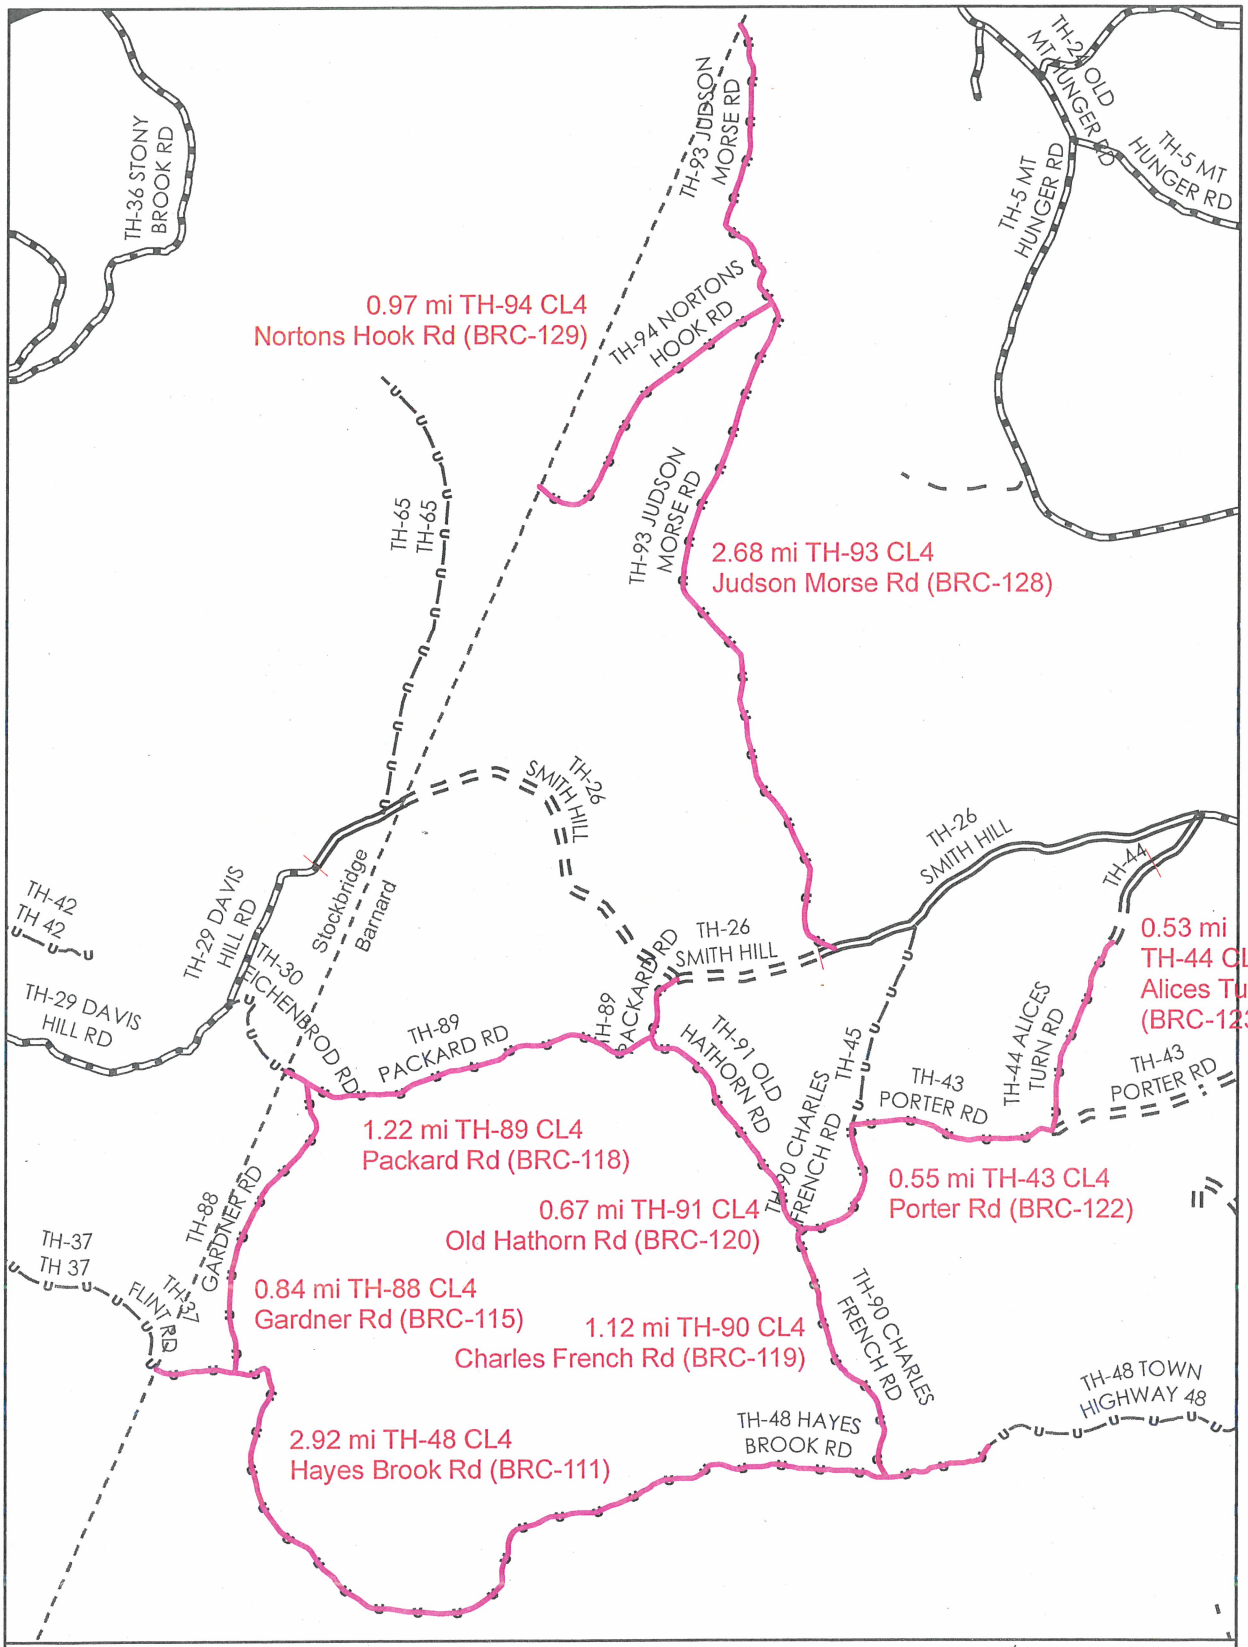

Hi Johnathan,

Just as a follow-up to my earlier phone call, I filed suit against the Town of Barnard regarding proposed town road BRC-228 back in March, 2010. There are a number of pending motions before the Court. My question to you is "does VT's Agency of Transportation tag proposed highways that are in litigation pending the outcome of the litigation?" I would assume that the agency would not pursue adding highways to Vermont's road network pending the outcome of litigation simply to avoid rework. Are my assumptions correct? If not, how does the agency treat roads that are in the midst of litigation? I hope you enjoyed your vacation and I look forward to speaking with you upon your return.

Thanks,
Mike

All these alignments are centerlines from the tax parcel ROWs. I am not sure how CTI (Brattleboro) used the original surveys in developing these ROWs.
136 was cartooned in so it will need to be verified from the survey.

Subject: Request for Barnard ancient road additions

Good morning Pete,

I met with Preston Bristow yesterday regarding the addition of a series of class 4 town highways and legal trails, based on the extensive research the town has done. He mentioned that you had created a shapefile of the highways as part of the process. Can you send this shapefile along to VTrans to assist in the inclusion of the highways and trails in the RDS data layer?

Thanks for your assistance with this request.

Re: Your Letter to Barnard Selectboard of March 5, 2010

Dear Mr. Croft:

This letter is our reply to your letter of March 5, 2010 with regard to the 2010 Certificate of Highway Mileage for Barnard and the associated documentation. Our answers are in the same order and numbering as your questions.

1) TH-20 (Ellis Farm Road)

You have already received our answer on this question, which you asked in an earlier letter dated February 28, 2010.

2) BRC-101 (Richmond Road)

We agree that TH-73 appears to have been included in the mileage for BRC-101, and that the correct mileage for BRC-101 is 1.05 miles. 1.05 - 0.09 = 0.96 mi Moulton 5/6/10

3) BRC-105 (Bridgewater Hollow Road)

Although this is an important road to us, we accept your request to not certify this road until such time as the courts have rendered a decision on it.

4) BRC-107 (Barlow Road)

We accept the adjustment of BRC-107 to 0.96 miles, altered from the original submittal of 0.80 miles.

5) BRC-128 (Judson Morse Road)

We are aware of the 1994 discontinuance of former TH-69, thought at that time to be a 0.10 mile dead-end stub. It has been our position that this discontinuance was illegal. Based upon a legal opinion provided by attorney Thomas Hayes dated April 12, 2010, the Selectboard voted on April 14, 2010 to VOID the 1994 Discontinuance of TH-69, 0.1 miles as illegally discontinued (see copies attached). We request that our certification of BRC-128 remain at 2.68 miles with connectivity to TH-26 (Smith Hill Road).

6) BRC-136 (Edmunds Road)

We acknowledge that the documentation for this road is inadequate and request that this road not be included in this year's certification.

7) BRC-228 (Old Stagecoach Road)

We agree that the mileage for BRC-228 should be adjusted to 1.04 miles instead of the initial submission of 0.86 miles.

8) LT-1 (former TH-75)

We agree that there has been an error in the addition of the mileage for LT-1, and we accept the sum of the adjusted legal trail mileage to be a total of 2.455 (rounded to 2.46?) miles.

Thank you for your patience in awaiting this reply.

Sincerely,
BARNARD SELECTBOARD

Tom Morse, Chair

Rock Webster

Tim Johnson

Selectmen's Minutes **April 14, 2010**

Called to order 7:10pm.
Present: Johnson, Webster, Morse, R. Lamphere, L. Webster

Act 178/Class 4 Roads Submissions to AOT: Rec'd letter (attached) from Atty Hayes re 1994 discontinuance of portion of TH69 advising that the discontinuance was illegal because road travels into Stockbridge and because a parcel was landlocked. Recommends voting to void 1994 discontinuance.
Vote to VOID 1994 Discontinuance of TH69, 0.1mile as illegally decided per recommendation of Atty Hayes.

Roy Lanphere/Fairpoint: Requests easement on Town Hall lot property to install equipment for fiber optic service station to be redistributed as DSL internet service to Barnard residents. See attached letter and photos. Discuss further conditions for easement: Fairpoint to bury phone/elec lines from North Rd to Hall & remove 2 poles, reduce size of easement request. Lamphere will consult Fairpoint engineer, stake site. Will discuss further.

Lance Webster/Road Foreman:
1. Discuss Class 2 Resurfacing Grant Appl. for pavement & gravel resurfacing of portions of Stage Road, TH1.
2. Discuss Webster's meeting with Pat Ross (Water Resources) & Pete Fellows (TRORC) re head waters grant for bridge & culvert replacement on Class 4 portion of Chateauguay Rd.
3. Discuss Structures Grant Appl. recommendations for large culvert on Wayside and specs for box culvert installation on Royalton Tnpk at Webster Hill.

Approved Town & Highway orders for payment, minutes of 4/7/10, reviewed mail.

Adjourned 8pm. Recorded by Morse.

Re: Discontinuance of TH-69

Dear Tom:

I met recently with Preston Bristow to discuss the Town's 1994 action to discontinue TH-69, which was believed to be a short section of road one-tenth of a mile long off of Smith Road. The vote to discontinue the road occurred on January 5, 1994.

At the time of the discontinuance action two important facts were not known to the select board. First, that the road discontinuance "land locks" a parcel of land, and second, that the road continued across the Stockbridge town line.

The first problem would be relatively easy to deal with because when a town discontinues the public access to a road it does not extinguish the private rights of abutters. *Okemo Mountain, Inv. v. Ludlow*, 171 VT 201 (2000). However, because of my analysis below, I do not think it will be necessary.

In 1994 the statutory requirements to discontinue a road were found at 19 V.S.A. §771. The select board was required to comply with the following provisions:

"The selectmen of two or more towns may discontinue a highway continuing into each of the towns by individually following [section 708-711 of this title.] The public hearing may be jointly held if the selectmen agree. If the decision is not the same in all towns involved, the superior court shall be petitioned to resolve the issue."

The provisions of Section 708 to 711 are attached.

Because the select board did not know that the road in question extended into another town, it did not follow the applicable procedure for discontinuance in that case. The law in Vermont is that "[t]the procedure to be followed in laying out or discontinuing a highway is wholly statutory and the method prescribed must be substantially complied with or the proceedings will be void. In re Bill, 168 VT 439, 724 A2d 444 (1998). Actions of a select board

are presumed to be in accordance with statutory requirements, however, when a select board acts outside its statutory authority with respect to a discontinuance, the defect is akin to lack of subject matter jurisdiction. Id; In re Mattison 120 VT 459, 144 A2d 778 (1958). Those proceedings would be void and may be impeached in any way at any time. Id.

Since the select board is now aware that the 1994 discontinuance of the TH-69 did not comply with the statutory requirements of the time, and the action is therefore void, and since such action may be impeached at any time and in any way, I recommend that the select board acknowledge that the January 5, 1994 discontinuance of TH-69 was void and set it aside on its own initiative.

Returning to the issue of the "land locked" parcel, because the 1994 discontinuance was void when it was attempted, the parcel was not land locked by the Town's action, and no change of status occurred.

Yours truly,

Thomas Hayes, Esq.

TH/ps
Encls.

provisions of section 33 of this title and shall mark each termination of the survey by a permanent monument or boundary or refer the termination or survey by course and distance, to some neighboring permanent monument. The survey shall describe the highway and the right-of-way by courses, distances and width, and shall describe the monuments and boundaries.—Added 1985, No. 269 (Adj. Sess.), § 1; amended 1993, No. 195 (Adj. Sess.), § 3.

HISTORY

Amendments—1993 (Adj. Sess.). Inserted "in accordance with the provisions of section 33 of this title" preceding "and shall mark" in the first sentence.

Prior law. 19 V.S.A. § 296.

ANNOTATIONS UNDER FORMER § 296

1. Effect of failure to establish boundaries. The neglect of the authority establishing a road to prescribe its width excused a town from liability for not opening and working the road. State v. Town of Leicester (1861) 33 Vt. 653.

§ 705. Papers to be recorded

A copy of any order of a court establishing, altering, or discontinuing a highway, together with a survey of so much of the road as is in any one town, certified by the clerk of the court, shall be recorded in the office of the town clerk.—Added 1985, No. 269 (Adj. Sess.), § 1.

HISTORY

Prior law. 19 V.S.A. § 297.

CROSS REFERENCES

Resurvey when original survey not properly recorded, see § 33 of this title.

§ 706. Duties of commissioners appointed by the supreme or superior court

Any commissioners appointed by the supreme or superior court to build or repair a bridge, or lay out, alter or discontinue a highway, may order the town or towns, in or through which they lay out or alter a highway, to grade the hills to such inclination as they deem proper, and to gravel the portions they deem necessary. The commissioners shall estimate the expense and report to the court. The court may accept or reject the report in whole or in part and order the town or towns to gravel portions of the highway and to grade the hills in the manner and to the extent it deems proper.—Added 1985, No. 269 (Adj. Sess.), § 1.

HISTORY

Prior law. 19 V.S.A. § 1056.

CROSS REFERENCES

Maintenance of highways generally, see § 901 et seq. of this title.

§ 707. Powers of supreme and superior courts

Upon petition for that purpose as in case of laying out, altering or discontinuing a highway, and by similar proceedings, the supreme or superior court may order hills to be graded and surfaces to be graveled on existing highways under the provisions of section 706 of this title.—Added 1985, No. 269 (Adj. Sess.), § 1.

HISTORY

Prior law. 19 V.S.A. § 1057.

Subchapter 2. Laying Out, Altering, Reclassifying or Discontinuing Highways by Petition to Selectmen

CROSS REFERENCES

Appeal from selectmen's damage award, see § 725 et seq. of this title.
Assessment for failure to build highway or bridges, see § 781 et seq. of this title.
Damages generally, see § 808 et seq. of this title.
Discontinuance, see § 771 et seq. of this title.
Duties of selectmen as to town highways generally, see § 304 of this title.
Highways involving two or more towns, see § 790 et seq. of this title.
Objections to laying out, alteration or reclassification, see § 740 et seq. of this title.
Proceedings in superior court upon failure of selectmen to act, see § 750 et seq. of this title.

§ 708. Petition

(a) Persons who are either voters or landowners, and whose number is at least five percent of the voters, in a town, desiring to have a highway laid out, altered, reclassified, or discontinued, may apply by petition in writing to the selectmen for that purpose. The selectmen may also initiate these proceedings on their own motion.

(b) A class 4 highway need not be reclassified to class 3 merely because there exists within a town one or more class 3 highways with characteristics similar to the class 4 highway. In considering whether to reclassify a class 4 highway to class 3, consideration may be given as to whether the increased traffic and development potential likely to result from the reclassification is desirable or is in accordance with the town plan.—Added 1985, No. 269 (Adj. Sess.), § 1.

HISTORY

Prior law. 19 V.S.A. § 341.

CROSS REFERENCES

Classification of highways, see § 302 of this title.

Petition to lay out, alter, reclassify or discontinue highway on or intersecting town lines, see § 792 of this title.

Proceedings on refusal of selectmen to act, see § 750 et seq. of this title.

ANNOTATIONS

1. Review. Town's argument that trial court hearing an appeal of selectmen's denial of reclassification of town highway petition could not order reclassification of road without finding that town acted discriminatorily or arbitrarily in refusing reclassification was rejected since a finding of discrimination is not a prerequisite to reclassification by the superior court, and statutory amendment states that a class 4 highway need not be reclassified to class 3 because there exists one or more class 3 highways with characteristics similar to the class 4 highway. Hansen v. Town of Charleston (1991) 157 Vt. 329, 597 A.2d 321.

2. Procedure. Procedure to be followed in laying out or discontinuing a highway is wholly statutory, and method prescribed must be substantially complied with or proceedings will be void. In re Bill (1998) 168 Vt. 439, 724 A.2d 444.

Because highway was laid through two or more towns, New Haven town selectboard lacked jurisdiction when it attempted to discontinue its portion of highway in 1926; selectboard's failure to comply with then-existing statutory scheme voided its proceedings and its order purporting to discontinue highway segment, and therefore highway was held to still legally exist. In re Bill (1998) 168 Vt. 439, 724 A.2d 444.

Cited. Cited in Kelly v. Town of Barnard (1990) 155 Vt. 296, 583 A.2d 614.

§ 709. Notice and hearing

The selectmen shall promptly appoint a time and date both for examining the premises and hearing the persons interested, and give thirty days' notice to the petitioners, and to persons owning or interested in lands through which the highway may pass or abut, of the time when they will inspect the site and receive testimony. They shall also give notice to any municipal planning commission in the town, post a copy of the notice in the office of the town clerk, and cause a notice to be published in a local newspaper of general circulation in the area not less than ten days before the time set for the hearing. The notice shall be given by certified mail sent to the official residence of the person(s) required to be notified.—Added 1985, No. 269 (Adj. Sess.), § 1.

HISTORY

Prior law. 19 V.S.A. § 342a.

ANNOTATIONS

Cited. Cited in Kelly v. Town of Barnard (1990) 155 Vt. 296, 583 A.2d 614.

§ 710. Survey or order of discontinuance

After examining the premises and hearing any interested parties, and if the selectmen judge that the public good, necessity and convenience of the inhabitants of the municipality require the highway to be laid out, altered

or reclassified as claimed in the petition, they shall cause the highway to be surveyed in accordance with the provisions of section 33 of this title if the highway right-of-way cannot be determined and shall place suitable monuments to properly mark the bounds of the survey. If they decide to discontinue a highway, the discontinuance shall be in writing setting forth a completed description of the highway.—Added 1985, No. 269 (Adj. Sess.), § 1; amended 1993, No. 195 (Adj. Sess.), § 4.

HISTORY

Amendments—1993 (Adj. Sess.). Inserted "in accordance with the provisions of section 33 of this title" following "surveyed" in the first sentence.

Prior law. 19 V.S.A. § 343.

ANNOTATIONS

1. Generally. The standard applicable in road reclassification cases is whether the public good, necessity and convenience of the inhabitants of the municipality require the highway to be reclassified as claimed in the petition. Hansen v. Town of Charleston (1991) 157 Vt. 329, 597 A.2d 321.

ANNOTATIONS UNDER FORMER § 343

Laying out of private road, 2
Necessity for survey and tender of damages, 3
Status of selectmen, 1

1. Status of selectmen. The selectmen sat in a quasi-judicial position at hearings held before them under the statute. Whitcomb v. Town of Springfield (1963) 123 Vt. 395, 189 A.2d 550.

2. Laying out of private road. A road which began and ended upon the lands of a single individual did not connect with or intersect any other highway; was not accessible to any other person without trespassing upon the lands of such individual; and was not required by the public good nor the convenience and necessity of any other person, was not a public highway and could not be laid in invitum. Snow v. Town of Sandgate (1894) 66 Vt. 451, 29 A. 673.

3. Necessity for survey and tender of damages. Neither a survey nor tender of land damages was necessary when a former owner had dedicated the land and caused a survey and record thereof to be made where the order referred to and adopted such survey. Winooski Lumber & Water Power Co. v. Town of Colchester (1885) 57 Vt. 538, overruled on other grounds, Demers v. City of Montpelier (1958) 120 Vt. 380, 141 A.2d 676.

§ 711. Selectmen's return; recording

(a) Within sixty days after the examination and hearing, the selectmen shall return the original petition with a report of their findings and of the manner of notifying the parties together with the survey or discontinuance, to the town clerk's office. Their order laying out, altering, reclassifying or discontinuing the highway, with the survey, shall be recorded by the clerk.

(b) As part of the report of findings provided for in subsection (a) of this section, the selectmen may order that the petitioner bear the cost of upgrading a class 4 town highway to the class 3 town highway standards established in 19 V.S.A. § 302(a)(3)(B). Nothing in this section shall be construed to require a town to maintain a class 4 highway or to upgrade a highway from class 4 to class 3.—Added 1985, No. 269 (Adj. Sess.), § 1; amended 1991, No. 47, § 2.

HISTORY

Amendments—1991. Designated the existing provisions of the section as subsec. (a) and added subsec. (b).

Prior law. 19 V.S.A. § 344.

CROSS REFERENCES

Appeal from order of selectmen, see § 740 et seq. of this title.

§ 712. Damages paid or tendered

When the selectmen determine that a person, through whose land the highway passes or abuts, is entitled to damages, the town shall pay or tender to him or her, damages as the selectmen determine reasonable before the highway is opened.—Added 1985, No. 269 (Adj. Sess.), § 1.

HISTORY

Prior law. 19 V.S.A. § 345.

CROSS REFERENCES

Allowance lands considered in estimating damages, see § 810 of this title.
Appeal from selectmen's award for damages, see § 725 et seq. of this title.
Benefits to landowner considered in estimating damages, see § 811 of this title.
Damages for highways discontinued before completion, see § 776 of this title.
Value of discontinued highway considered in estimating damages, see § 809 of this title.

ANNOTATIONS UNDER FORMER § 345

1. Determination of damages generally. Where a public highway was laid out over a private road in such a manner as to convert it into a public thoroughfare, the landowner was not entitled to recover as damages the expenses of constructing the private road, but simply such damages as were actually done him by the taking, notwithstanding that the public had the benefit of his labor. Prince v. Town of Braintree (1892) 64 Vt. 540, 26 A. 1095.

2. Establishment of damages by agreement of parties. The selectmen could agree with the owner of land on the amount of damages to be paid to him before opening a road through his land, and draw an order therefor. Battles v. Town of Braintree (1842) 14 Vt. 348.

An owner of land was not precluded from claiming damages by reason of any parol agreement made between his grantor and the selectmen, waiving damages, if the road had not been opened in manner pointed out by statute. Battles v. Town of Braintree (1842) 14 Vt. 348.

§ 713. Time for vacating land

When the selectmen lay out or alter a highway, they shall fix in their order the time within which the owner of the lands taken shall remove his or her buildings, fences, timber, wood or trees. Without the consent of the owner, the time shall not be less than two months, but if the lands taken have buildings, the time shall not be less than six months, nor, in either case, until compensation for damages is paid, if the sum fixed by the selectmen is accepted or damages are awarded by referees. Notice of the time when the removal shall be made shall be given to the owner and included in the selectmen's order. An appeal of the damages awarded shall not stay the work contemplated.—Added 1985, No. 269 (Adj. Sess.), § 1.

HISTORY

Prior law. 19 V.S.A. § 346.

CROSS REFERENCES

Stay of proceedings upon appeals to superior court, see § 743 of this title.

ANNOTATIONS UNDER FORMER § 346

1. Effect of failure to provide notice. A failure to specify the time for removal of fences, timber, etc., did not render the proceedings of the selectmen void. Kidder v. Jennison (1849) 21 Vt. 108; Robinson v. Winch (1893) 66 Vt. 110, 28 A. 884; LaFarrier v. Hardy (1894) 66 Vt. 200, 28 A. 1030.

§ 714. Possession after time expires

When a highway is laid out or altered, the selectmen may take possession of the land within the surveyed limits, at any time after the expiration of the time fixed by the selectmen unless appealed to the superior court for landowners to remove their buildings, fences, trees, timber or wood. They may remove obstructions, and open the lands for working and travel, if they have previously paid or tendered to the landowners the damages awarded by them or by the commissioners laying out or altering the highway. An appeal of the damages awarded shall not stay the work contemplated.—Added 1985, No. 269 (Adj. Sess.), § 1.

HISTORY

Prior law. 19 V.S.A. § 347.

§§ 715, 716. Repealed. 1999, No. 156, § 21(2) and 21(3), eff. May 29, 2000.

HISTORY

Former § 715, relating to the certificate of completion and acceptance, was derived from 1985, No. 269 (Adj. Sess.), § 1.

Tom Morse, Selectboard Chair
Barnard, c/o Town Clerk
PO Box 274
Barnard, VT 05031-0274

Dear Mr. Morse,

The VTrans Mapping Unit has received a class 2 town highway change on the Pomfret 2010 Certificate of Highway Mileage that will affect the Town of Barnard. Due to a change in the town line, the amount of mileage for the Stage Road is decrease for TH-2 in Pomfret by 400 feet (0.08 miles) and increase for TH-1 in Barnard by 400 feet (0.08 miles).

This increase in mileage was not identified on Barnard's Certificate of Highway Mileage and I would request the inclusion of this 0.08 miles addition of class 2 town highway.

I have enclosed copies of the information supplied by the Town of Pomfret regarding the survey of the boundary line and alteration in the mileage.

Please feel free to contact me with any questions or comments related to this addition, or mapping in general.

Sincerely,

Johnathan Croft

NOTICE OF PUBLIC HEARING

BARNARD - POMFRET TOWN LINE BOUNDARY SURVEY

The Barnard Board of Selectmen will hold a Public Hearing on the results and effects to property owners of a recent survey of the Barnard-Pomfret Town Line where it crosses the Stage Road in the southeastern corner of Barnard. The Public Hearing will take place at the Barnard Town office on Wednesday, January 28, 2009 at 7pm.

Barnard and Pomfret Selectmen and surveyor Robert Farnsworth will be present to explain the reasons for the recent survey, its results and tangible effects to property owners as well as answer questions from the public. Copy of the survey is available at both Barnard and Pomfret town offices.

Signed this 30TH day of December, 2008 at Barnard, Vermont.

Tom,

Our Selectboard asked me to forward to you a list of affected property owners regarding the Barnard/Pomfret Town Line survey. There are also a few extra names on the list included because they attended our Hearing last week.

I sent everyone on the list a note telling them that Robert Farnsworth would be at the Barnard hearing (he wasn't at ours), in case they have any questions for him. I also told them that you would include them on your list when you send out Notices for the Barnard hearing. At least that's my understanding, so if you aren't going to notice them, please let me know so I can.

Would you also please let me know what will be the date and time of the hearing when you know? You could either phone (802-457-3861 M-W-F until 3:00, 457-4454 any other time), or email me at AndrewMann@PomfretVt.us

Selectmen's Minutes **February 11, 2009**

Called to order 7pm.
Present: Johnson, Webster, Morse, B. Finlayson

Called to order 7:05pm Public Hearing on Barnard-Pomfret Boundary Survey (Notice attached). In attendance are Barnard & Pomfret selectmen, Robert Farnsworth of Farnsworth Surveys and guests (sign-in sheet attached). Morse offers introductory remarks on reasons for survey, results and effect on properties and landowners. Farnsworth explains bases for establishing coordinates, methods used and monuments placed. Questions & discussion focus on need for survey, whether survey established a "new" boundary, status of paved portion of Stage Rd. done by Pomfret, effects regarding appraisal/taxation, establishing correct acerage, voter registration, filing of deeds, adoption of survey, adjustment of towns' parcel (tax) maps, effective date. Selectboard members & Farnsworth reply that boundary is not changed, coordinates taken from land records, just laid out clearly on the ground.
Appraisals will be adjusted in both towns for the 2009 Grand Lists. Farnsworth determined acerage for affected properties in Barnard; totals can be calculated from deeds filed in land records.

Selectboards intend to approve & adopt survey at next regularly scheduled meeting and exchange minutes and other relevant information, including historic maps.

Hearing adjourned 8pm.

Regular meeting convened 8pm.

Reviewed letter from SW Supervisor to Peter Haimovitz re payment at Transfer Station (attch).

Rec'd from State Dept of Children and Family Services appointment form for 2009 Town Service Officer. Will contact Kim Furlong re appointment.

Class 4 roads near "Buster's Bus:" Rec'd from Dick Adams & John Dutton date & maps from land records documenting Class 4 roads in Chateauguay in vicinity of lands owned by State of Vermont. Will forward to Atty M. Kainen for communication to Vermont Fish & Wildlife. Filed: Ancient Roads, TH46, Buster's Bus.

Reviewed proposed (by Listers) computer service contract for all Town computers. Will discuss with Town Clerk.

Barnard-Pomfret Boundary Survey: Vote to accept and adopt Survey as recorded in Land Records effective for closing of 2009 Grand List.

Approved Town & Highway orders for payment, minutes of 2/4/09, reviewed mail.

Adjourned 8:45pm. Recorded by Morse.

Subject: Town of Barnard 2010 Cert Hwy Mileage TH-20

Hi Mr. Croft. Tom Morse, Barnard Selectboard, here.

We received your letter of 2/25/10 regarding an apparent transposition error on a partial discontinuance of TH 20 submitted as part of our 2010 Cert. of Hwy. Mileage.

We concur that the Class 3 mileage discontinued was 0.3 miles, not 0.4 miles,

Sorry for the error.

Tom Morse, Chair, Barnard Selectboard.

Tom Morse, Selectboard Chair
Barnard, c/o Town Clerk
PO Box 274
Barnard, VT 05031-0274

Dear Mr. Morse;

The VTrans Mapping Unit has received Barnard's 2010 Certificate of Highway Mileage and requests clarification regarding the discontinuance of a portion of TH-20 (Ellis Farm Road). Based on the reading of the Order of Discontinuance and review of the mileage, it appears that the mileage has been transposed and the portion that was discontinued should be 0.4 miles, instead of 0.3 miles.

I enclosed a copy of the discontinuance document and a map showing the section of highway that is described as discontinued, with mileage notations. Please clarify the proper mileage of the section for TH-20 that has been retained as class 3 town highway and the mileage of the segment of TH-20 that is being discontinued.

Please feel free to contact me with any questions or comments related to the Mileage Certificate, or mapping in general.

Thank you.

Sincerely,

Johnathan Croft

Selectboard's Return

Discontinuance of a Portion of TH 20

Discontinuance of an Unnamed Class 4 Road

On April 22, 2009, the Town of Barnard Selectboard appointed the time and place for a Public Hearing for the purpose of receiving testimony and hearing all persons interested in the matter of whether the Town of Barnard, pursuant to 19 VSA, chapter 7 et seq. shall Discontinue a portion of Town Highway 20 and an unnamed class 4 Town highway, viz:

1. To discontinue a portion of TH 20, Ellis Farm Road, commencing approximately 0.4 miles from its intersection with TH 2 at the property line of Linglebach (parcel 447) and Clarke (parcel 202.1), westerly approximately 0.3 miles to its terminus.

2. To discontinue an unnamed Class 4 road shown on the Town of Barnard Parcel Map running from the terminus of TH 20 westerly approximately 0.5 miles to its intersection with TH 2.

The Barnard Selectboard gave thirty days notice of the time and place of the Public Hearing to the property owners involved, to the Barnard Planning Commission and to other interested parties which are listed in attachment hereto. Notice was posted in the Town Office, the Barnard Post Office and at the Barnard General Store. Like Notice was published in the Valley News on May 14, 2009.

At the time and place appointed, the Barnard Selectboard opened the Public Hearing and received testimony as indicated in attached minutes. The Public Hearing was recessed and the Selectboard traveled to the site to inspect the road(s) in question and to hear any persons there present. Following the site visit, the Public Hearing was reconvened at the Town office and further testimony was received as indicated in attached minutes.

Upon due consideration, the Barnard Selectboard determined that the public good, convenience and necessity requires that a portion of Town Highway 20, as indicated in (1) above, and an unnamed Class 4 Town highway, as indicated in (2) abovve, be discontinued and so unanimously voted.

Dated at Barnard, Vermont this 15th day of June, 2009.

Tim Johnson Rock Webster Tom Morse, Selectmen

March 5, 2010

Tom Morse, Selectboard Chair
Barnard, c/o Town Clerk
PO Box 274
Barnard, VT 05031-0274

Dear Mr. Morse;

The VTrans Mapping Unit continues to review the 2010 Certificate of Highway Mileage for Barnard and the associated documentation. Through this process, there have been several questions and issues that have arisen, to which I seek additional information and clarification.

For each of the items identified, I have included an overview of our observations and detail of the potential issues that we seek clarification and possible correction.

1.) TH-20 (Ellis Farm Road)

Clarification is needed on the discontinuance of TH-20 (Ellis Farm Road) and the amount of highway to be discontinued and retained, as articulated in a letter sent on February 28, 2010.

2.) BRC-101 (Richmond Road)

The southernmost 0.09 mile section of Richmond Road is already assigned to CL4 TH-73 and seems to be included in the mileage that has been submitted for BRC-101. The description states the highway starts at the terminus of TH-73, but it seems that there is duplicate mileage for BRC-101. The mileage of 1.052 seems to represent the full distance of Richmond Road, connecting from TH-61 (Lakota Lake Road) to TH-62 (Gulf Road). It appears the mileage addition needs to be reduced for BRC-101 by 0.09 miles and the addition BRC-101 should be 0.96 miles. This would make the total mileage for Richmond Road 1.05 miles. It should be noted that the VTrans Mapping Unit rounds the mileage for Class 3 and Class 4 Town Highways to the nearest 100th of a mile on the mileage tables and General Highway Maps.
(Please see the attached map for BRC-101)

3.) BRC-105

Due to the pending litigation regarding the BRC-105 and the segment of highway in Bridgewater, it may be prudent to add this section of highway once the courts have rendered a decision. The recommendation is not include this segment of 2.145, rounded to 2.15 miles this year and wait for the court's decision.

4.) BRC-107 (Barlow Road)

Clarification is needed regarding the mileage and documentation submitted for BRC-107 (Barlow Road). The mileage addition was submitted as 0.797 miles, for a section defined as starting at the terminus of TH-50 and extending northeasterly to the terminus of TH-51. The terminus of TH-50 was incorrectly mapped by VTrans, showing the highway much longer than the official mileage of 0.33 miles. This alignment and terminus location have been corrected, requiring an adjustment in the mileage for BRC-107.

The included survey accounts for 0.06 miles of highway, but the alignment submitted by Pete Fellows of the Two Rivers Ottauquechee Regional Commission measures 0.96 miles (with the corrected terminus of TH-50) The length of BRC-107 should be adjusted to 0.96 miles, altered from the original submittal of 0.80 miles.

5.) BRC-128 (Judson Morse Road)

There is a conflict with the southernmost 0.10-mile portion of this addition. According to our records, this was a 0.10-mile section of class 4 TH-69, which was discontinued in 1994. The addition of BRC-128 needs to be reduced by 0.10 miles and will not have connectivity to TH-26 (Smith Hill Road). The mileage of 2.683 miles, rounded to 2.68 needs to be reduced to 2.58 miles for BRC-128.
(Please see the attached map for BRC-128 and the 1994 Certificate of Highway Mileage with the associated documentation)

6.) BRC-136 (Edmunds Road)

There is a discrepancy in the mileage submitted for BRC-136 (Edmunds Road), with the addition being submitted as 0.484 miles. The survey description accounts for 0.22 miles but not the full 0.484 miles. Please forward additional documentation showing the legal establishment of this highway, through either the formal laying out process, or through "dedication and acceptance."
(Please see the attached map for BRC-136)

7.) BRC-228 (Old Stagecoach Road)

There needs to be an adjustment in the mileage for BRC-228 (Old Stagecoach Road). The length of this addition needs to be increased due to a correction in the terminus of the class 3 section of TH-13. The mileage for BRC-228 should be added as 1.04 mi, instead of the initial submission of 0.86 miles.

8.) LT-1 (former TH-75)

There has been an error in the addition of the mileage for LT-1. The Mileage Certificate records the addition as 0.10 miles and the proper mileage for this legal trail addition should be 0.01 miles. The VTrans Mapping Unit has LT-1 recorded as 0.01 mi, being the mileage of former TH-75. Town lists 0.10 mi on Certificate, although it has been listed as 0.01 mi in legal trail listing provided by VTrans. The addition of LT-1 should be adjusted to 0.01 miles and the sum of the legal trail mileage needs to be adjusted to a total of 2.455 miles.
(Please see the attached mileage listed for the legal trails and documentation regarding the reclassification of TH-75 to legal trail.)

Please feel free to contact me with any questions or comments related to the review of the Mileage Certificate, the above items identified for clarification or correction, or mapping in general. Thank you.

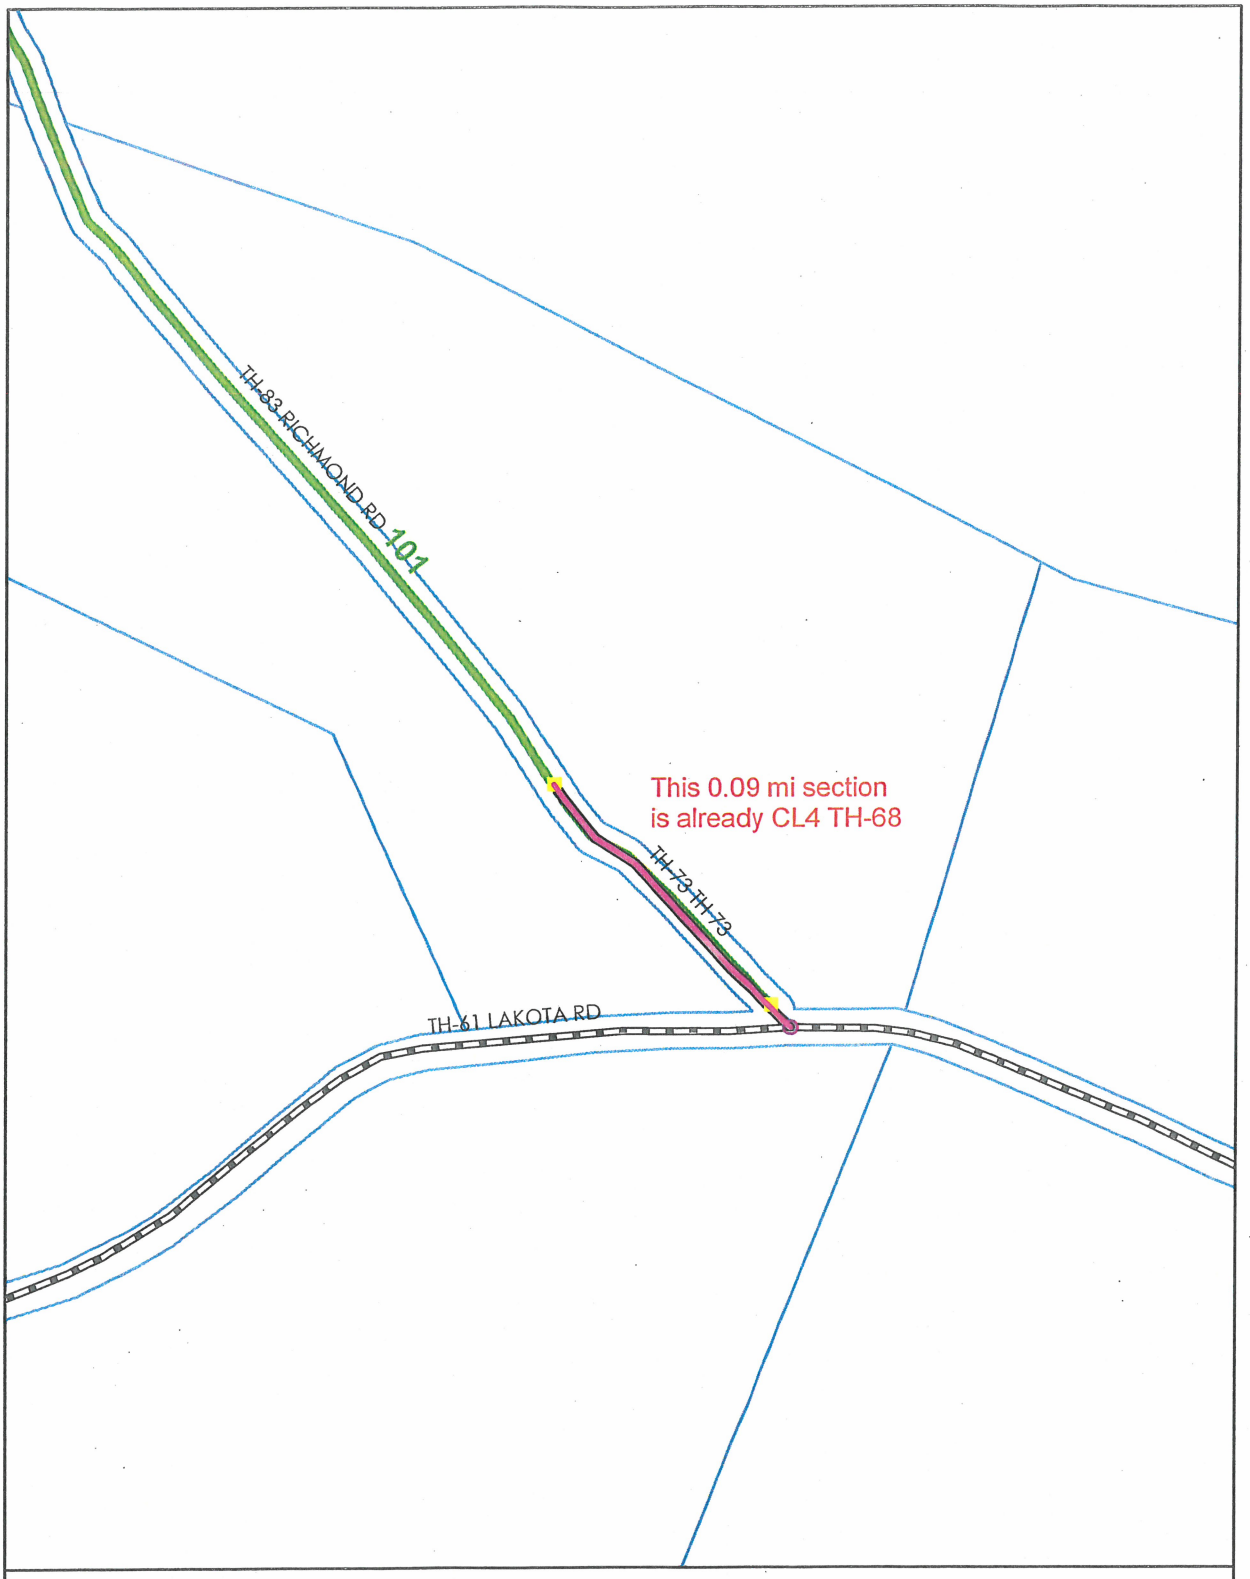

Sincerely,

Johnathan Croft

Reclassification of Town Highways - Hearing 8/25/93

Those attending: Hannah Kahn, Oke O'Brien, William Twigg-Smith, Agnes Andry, Bill Edmunds, Buzz Audsley, Wally diGiacomo, Tom Morse, Dwight Doton and Joe Tokarski.

Hearing was called to order at 7:00PM. Tom Morse reviewed the procedure for the hearing and explained that each road would be taken independently to avoid confusion. Road numbers as per warning are: TH19,35,42,59,60,73 and a road that now exists without road number designation.

TH19: It was explained that this highway has been fenced off for a number of years. Road inspections by the state have warned the town that the gate should come down--property owner failed to remove fence and the state has since discontinued highway funding. It is recommended that this highway be reduced to Class 4. No discussion and Chairman proceeded to next road.

TH35: This road serves one household and ends in a deadend. There was no discussion for or against.

TH42: Deadend road that serves one dwelling. There has been talk between owner (Kothman) and Dwight as to the town actions. No further discussions.

TH59: A small portion of the remainder of old RTE 12. Mrs. Kahn's opinion is that she would like to change the proposal of the selectmen. When new RTE 12 was installed, the state condemmed some of the property. The state also maintains culverts under RTE 12. Mrs. Kahn questioned how the state would maintain the culverts if the town discontinued the road. The town has serviced her road over a hundred years and she would like it to continue, including snow removal. Mrs. Kahn felt it was a lot to maintain. She also requested that a reply on the final decision be mailed to her %Martin Kahn, 222 Graham Street, Highland Park, NJ and also one to her home address.

Town of Barnard, Vermont

Barnard, Vermont 05031
(802) 234-9211

Public Hearing - September 8, 1993 - Alteration of TH#54,68,76,77 and 82

Chairman called meeting to order at 7:30PM and explained the reasons for actions being taken. Will conduct meeting by hearing roads one at a time.

TH#54 - Mary Parker is present and has a dwelling on this highway. She suggests that the first portion of this road be reduced to trail status and the second part which extends to her house be discontinued. Chairman feels we should follow as warned or reject the request and rewarn as Mrs. Parker suggests.

TH#68 - Mr. Litchenberg present and asks to explain the differences between a Class 3 and Class 4 and trail. He would like the town to maintain the bridge. Sometime the water washes his road and with a Class 4 status, would the town come up and grade the road? The answer was no and a Class 4 highway policy was sited. Mr. Litchenberg would consider, at a later date, that the highway be discontinued and asked how that would come about.

TH#76 - Paul Cayer present, explains he is happy the way it is and would like to keep it. Research reveals that the road goes no further than his garage door. Paul asked that the road be brought up to standard or improved before it was discontinued. He asked the cost to maintain the highway and the state aid that the Town receives for a Class 3 highway. Selectmen stated that possibility of action to take effect after the snow season in view of the time of year this may take effect. Paul would like to know his rights to contest the selectmen's decision. He was told that action can be taken through District Court and information as to our proceedings could be reviewed in the statues or by a call to the Secretary of State's office.

TH#82 - Dave Chang is present and stated that he was just informed of the road and the situation. He has, in the past, paid to have the road repaired and plowed. It has been a town road for many years and he protests the change. He further stated that measuring the .13 miles of his road beginning from TH#6, it ends just past the bridge. His concern is the maintenance of the bridge. It is determined that Mr. Chang does own all of the land surrounding the present town road and the bridge was reconstructed with concrete blocks, steel beams and wood decking. It is presently in good condition. His suggested remedy is to reduce this road to Class 4.

Town of Barnard, Vermont

Selectmen's Minutes - September 15, 1993

Meeting called to order at 7PM. Those present, Tom Morse, Dwight Doton, Joe Tokarski, Mike Clarke, William Twigg-Smith, Oke O'Brien.

Minutes of previous meeting signed.

Town Hall Restoration: with recommendations from the committee Selectmen signed contract with Roger Webster for the repairs of the Town Hall.

Rae vs Town: Tom spoke in reference to litigation -- The Lake Association instructed their attorney to call the town's attorney. Silver Lake Association is offering up to additional $1900 to add to the town's insurance company to augment the offer to the Raes. The two attorneys will work things out.

Bills signed to be paid.

Discussion on installing septic systems without permits and what alternatives exist. Should contract or landowner be responsible?

Dwight reported he completed reading the "Emergency Prep Manual".

Chairman opens meeting to resolve road reclass. land alteration warnings and will allow public to speak on information not already heard. Suggestion that the motion be made for the entire package and roads dealt with individually. Oke asked when will this action take effect. After discussion as to budget and taxation year, the town will probably maintain the roads altered until Spring of '94. Some discussion on how this action can reach the town meeting. No other public informatin was forthcoming. Motion made and seconded - public meeting of 8/25/93 addressing TH #19,35,42,59,60,73 and a road that now exists without road number designation be acted on as warned.

TH#19 motion made and seconded to reduce to Class #4 as warned - approved unanimously.

TH#35 motion made and seconded to discontinue - all in favor.

TH#42 motion made and seconded to discontinue - all voted in favor of discontinuance.

TH#59 motion made and seconded to discontinue - all voted in favor.

Town of Barnard, Vermont

Chartered July 17, 1761

Barnard, Vermont 05031

Selectmen's Minutes - December 15, 1993

Meeting called to order at 7PM. Those present, Tom Morse, Dwight Doton, Gil Clark, Everett Benson, Ron Benson.

Joe arrived late.

Chairman opened the warned public hearing for reclassiing of certain town roads at 7:15PM. After a general explanation of how the process works, the chairman started with TH#10. Location was explained and no comments from those present were made.
Move to TH#34 - location described, Gil Clark who was present explained he was at the meeting to find out what was going on. Chairman explained to Mr. Clark the town's reasons to discontinue this unused road located on his land. Gil Clark accepted the Chairman's position.
TH#54 - Location explained. This road reduced to Class 4 at a previous hearing is now recommended for discontinuance. A letter from Mary Parker, owner of surrounding land has requested the change. No further comments on this road.
TH#66 - the road located off Rte 12 north and accesses the Benson farm. Ron Benson spoke to the selectmen against the proposed change and reasons for action. He explained the condition of low road between the house and the bridge. High water during spring run off, a condition that has occured in the past, can wash the bridge out. His feelings were that disaster relief is available to the town and not the land owner, making replacement of this bridge prohibitive for the land owner. The Bensons asked if alternatives could be considered. Various alternatives were discussed and the selectmen will investigate liabilities to the town if road is retained as class 4. It was also mentioned that two residents live on the property. After hearing all opinions chairman moved to:
TH#16 - road located on Smith Hill on the International Paper Company s land. Inspection reveals that the town road is no longer in use and a new access is cut on the I.P. C. land. No other comments made.
TH#58 - road located as access to Grey camp properties. Inspection reveals road is chained with no trespass signs. Selectmen will investigate if other property owners will be affected.
A general discussion of all roads in this warning ensued. The decision made that all will be voted on in the public meeting of January 5th and any new facts brought forward will be heard but, final decisions will be by selectmen. Conditions of implementation will be the same as previous roads. No other facts to be discussed, this hearing was closed at 7:47PM.

Town of Barnard, Vermont

Chartered July 17, 1761

Barnard, Vermont 05031
(802) 234-9211

Selectmen's minutes - January 5, 1994

Meeting called to order at 7PM. Those present, Tom Morse, Dwight Doton, Joe Tokarski, Everett Benson and Rick Lancaster.

Rick Lancaster picked up the signed copy of the towns emergency plan for final printing.

Tom responded to USEPA waste water treatment collection for our closed landfill. Our landfill does not have a waste water treatment water collection facility.

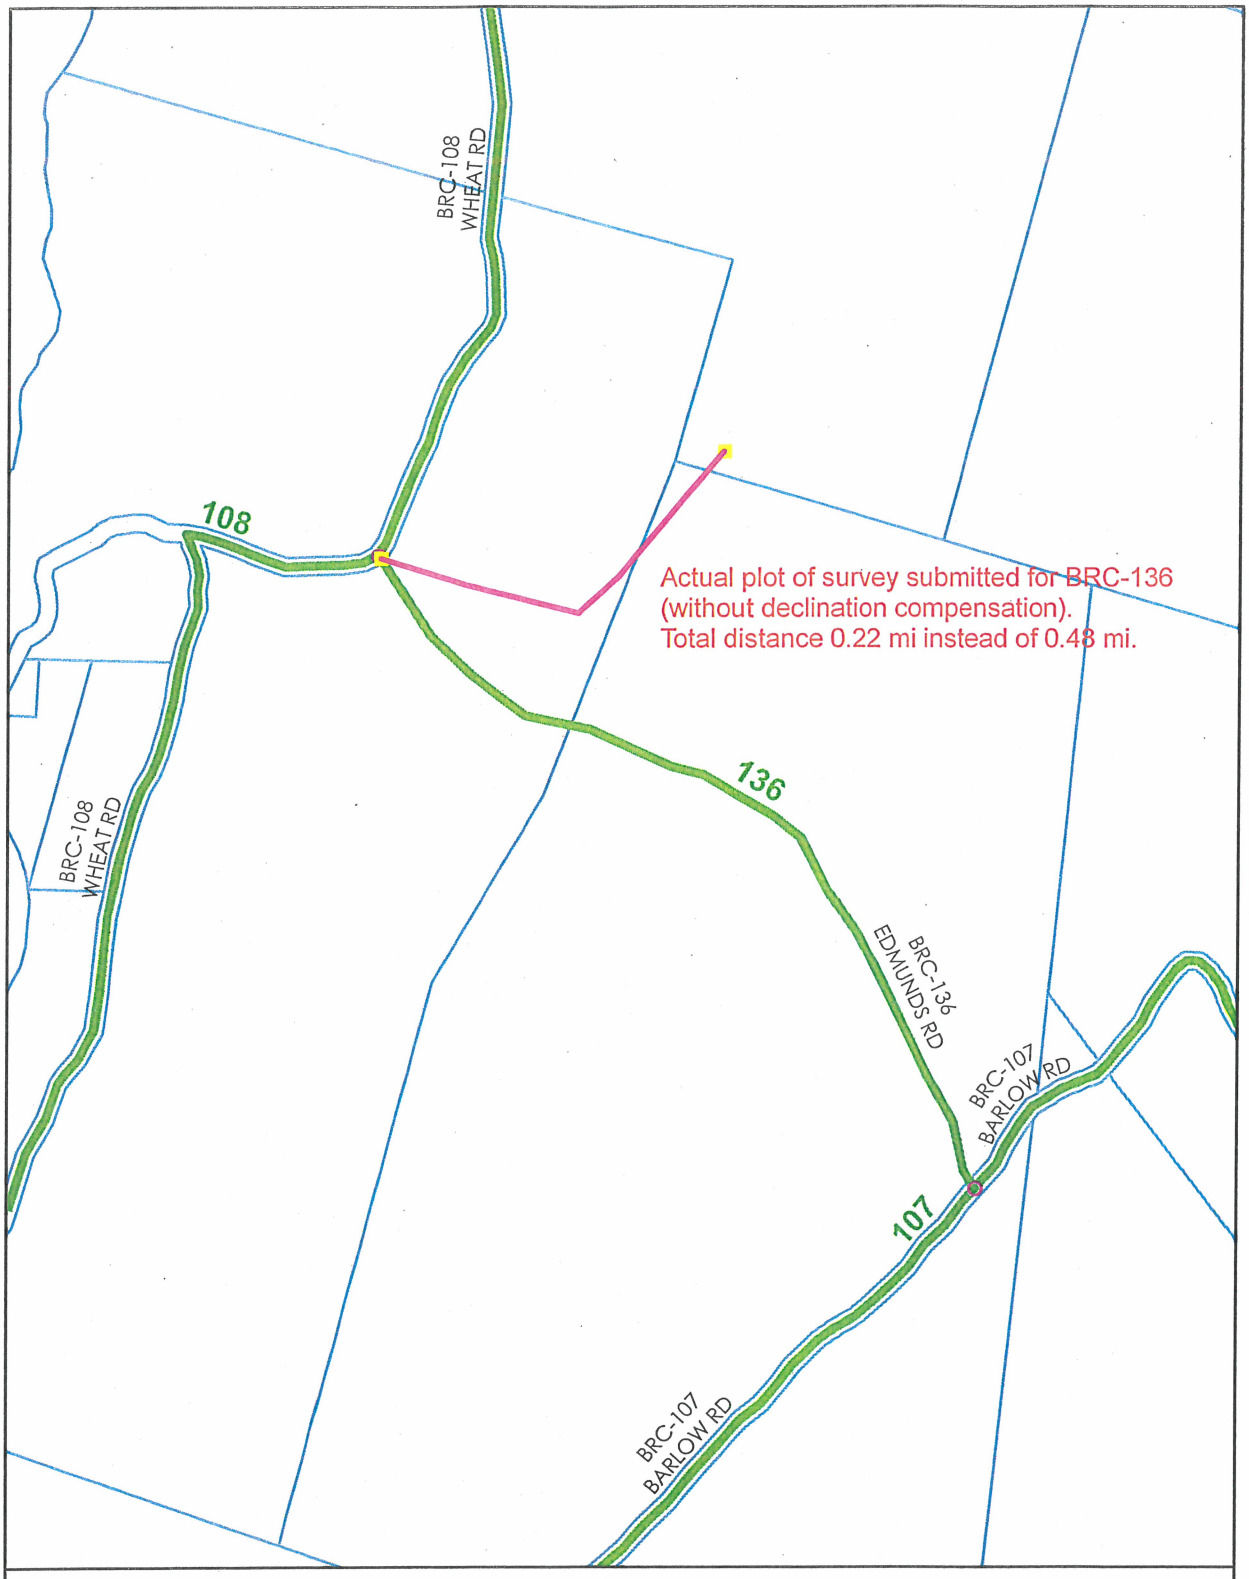

Minutes of 12/22/93 meeting were approved and signed.

As stated at the land hearing January 5th, the selectmen would make their final decisions. The chairman opened the meeting to discuss decisions as per warning dated 11/10/93. Tom asked if any new or pertinent information became available the selectmen would entertain hearing. Discussion on:
TH#10, a motion was made to discontinue this highway as warned. All voted in favor.
TH#34, discussed Virginia Lancaster's appearance to the selectmen concerning roads in question. After a short discussion motion was made to discontinue the road as warned. All voted in favor.
TH#54, being that small portion of road that extends into the Parker residence, a motion is made to discontinue as warned. All voted in favor.
TH#66, Mr. Benson was present and asked the selectmen to reconsider discontinuing his road. Research on bridge status and liability was discussed. A move was made to discontinue the road as warned. Tom's feelings were not to discontinue the road but rather reduce to Class #4. Dwight felt that if we didn't follow the procedure as warned, we could rewarn the road to be reduced to a lower class at a future date. All voted not to discontinue which would keep this highway as a Class #3.
TH#69, after short discussion motion made to discontinue as warned. All voted in favor.
TH#58, a short discussion concerning landowners along this road. A motion made to reduce the highway to Class #4 as warned. All voted in favor.
Chairman states that the roads acted upon tonight will be maintained until the spring of '94 along with other roads reclassified. Secretary was instructed to notify selected agencies of our action on all roads changed.

Minutes approved and signed for December 29th meeting.

Bills signed to be paid.

An unusual amount of mail was reviewed at tonights meeting.

BARNARD NOTES
1 Mar 2010
J:\Mapping\Mileage_Certs\Letters\FollowUp\2010\Barnard_Notes.doc

COMMENTS BASED ON INITIAL REVIEW

BRC-101 Richmond Rd
The southernmost 0.09-mile section is already assigned to CL4 TH-73. We will need to reduce the mileage for the BRC-101 addition by 0.09 miles. (see map)

BRC-105
Needs follow up once court decides this case. May not be prudent to add highway this year.

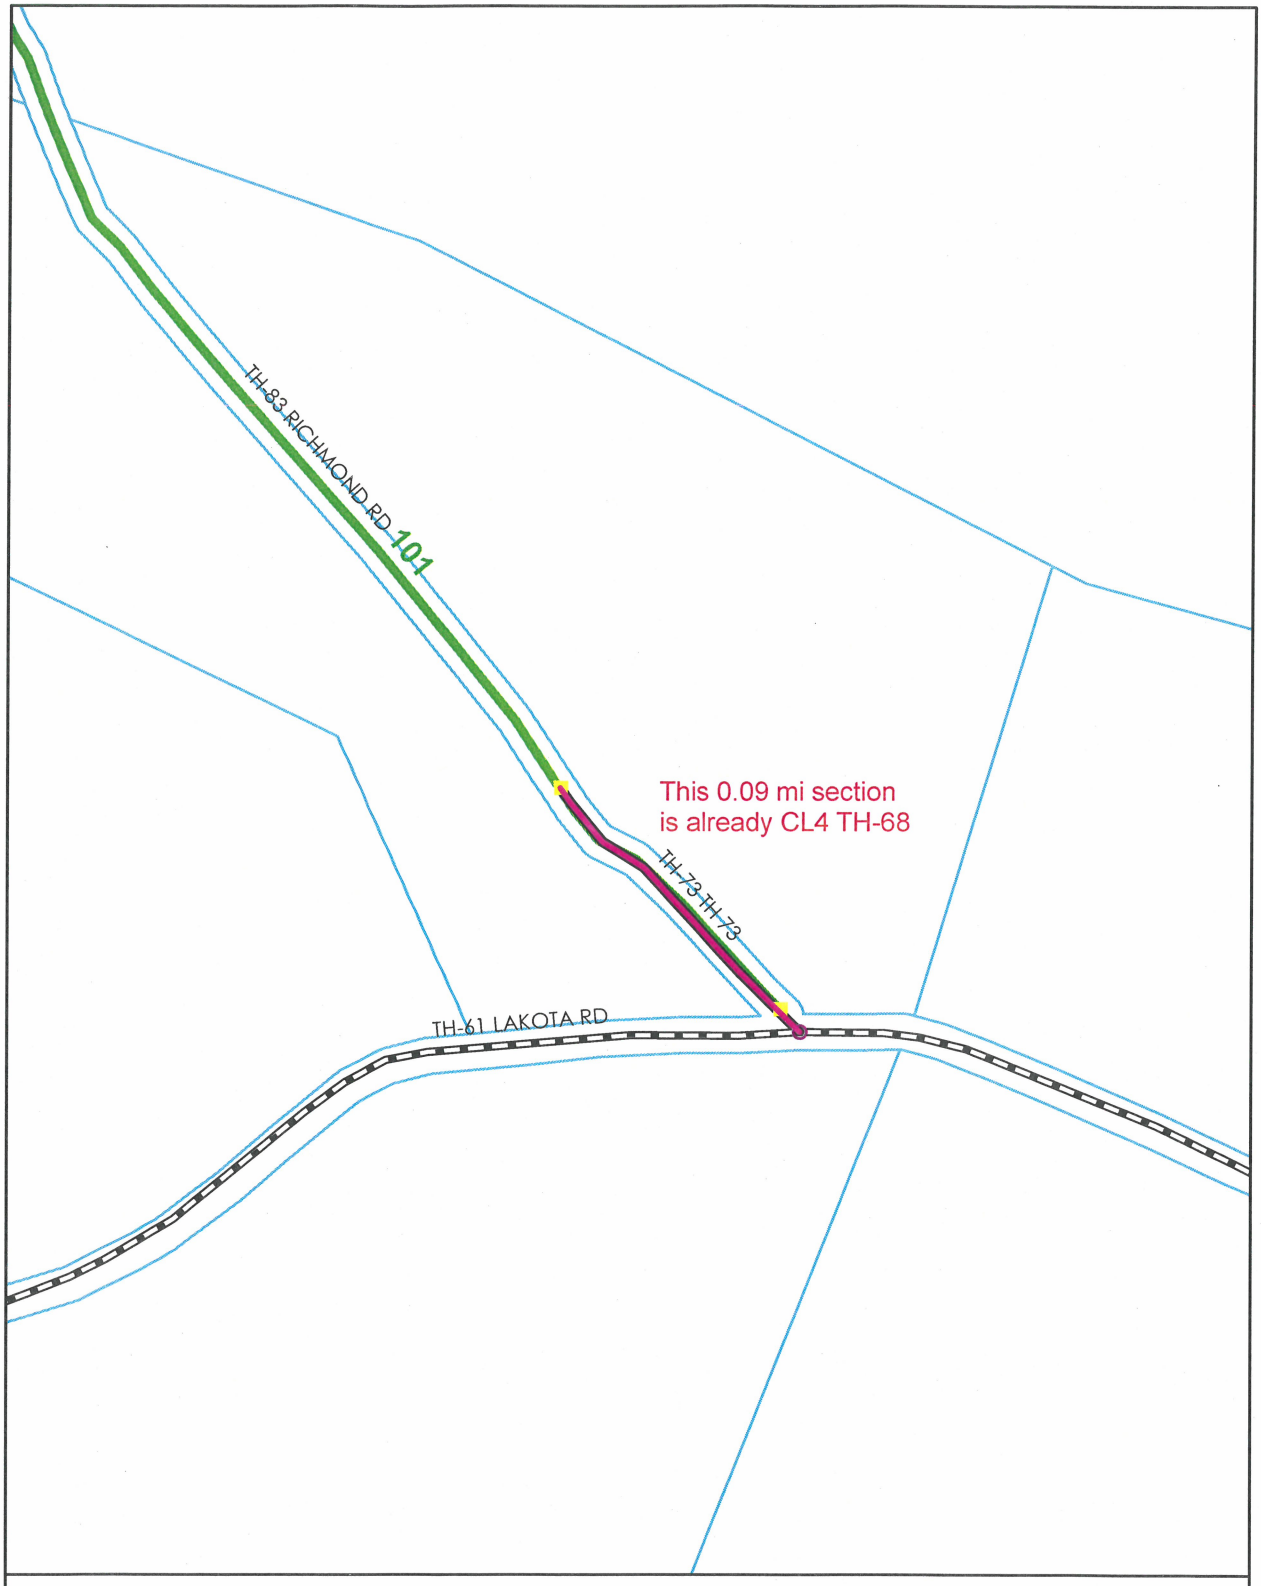

BRC-107 Barlow Rd
The length of this addition was increased due to an incorrect ARCMILES length of TH-50 CL3. BRC-107 is now 0.96 mi, up from 0.80 mi.

BRC-128 Judson Morse Rd
There is a conflict with the southernmost 0.10-mile portion of this addition. According to our records, this was a 0.10-mile section of CL4 TH-69 which was discontinued in 1994. (see map)

BRC-136 Edmunds Rd
In follow up to Pete Fellows' comment, "136 was cartooned in so it will need to be verified from the survey", the survey submitted for BRC-136 was plotted by the Mapping Unit. We came up with a different distance and alignment than what was submitted by the town. (see map)

BRC-228 Old Stagecoach Rd
The length of this addition was increased due to an incorrect ARCMILES length of TH-50 CL3. BRC-228 is now 1.04 mi, up from 0.86 mi.

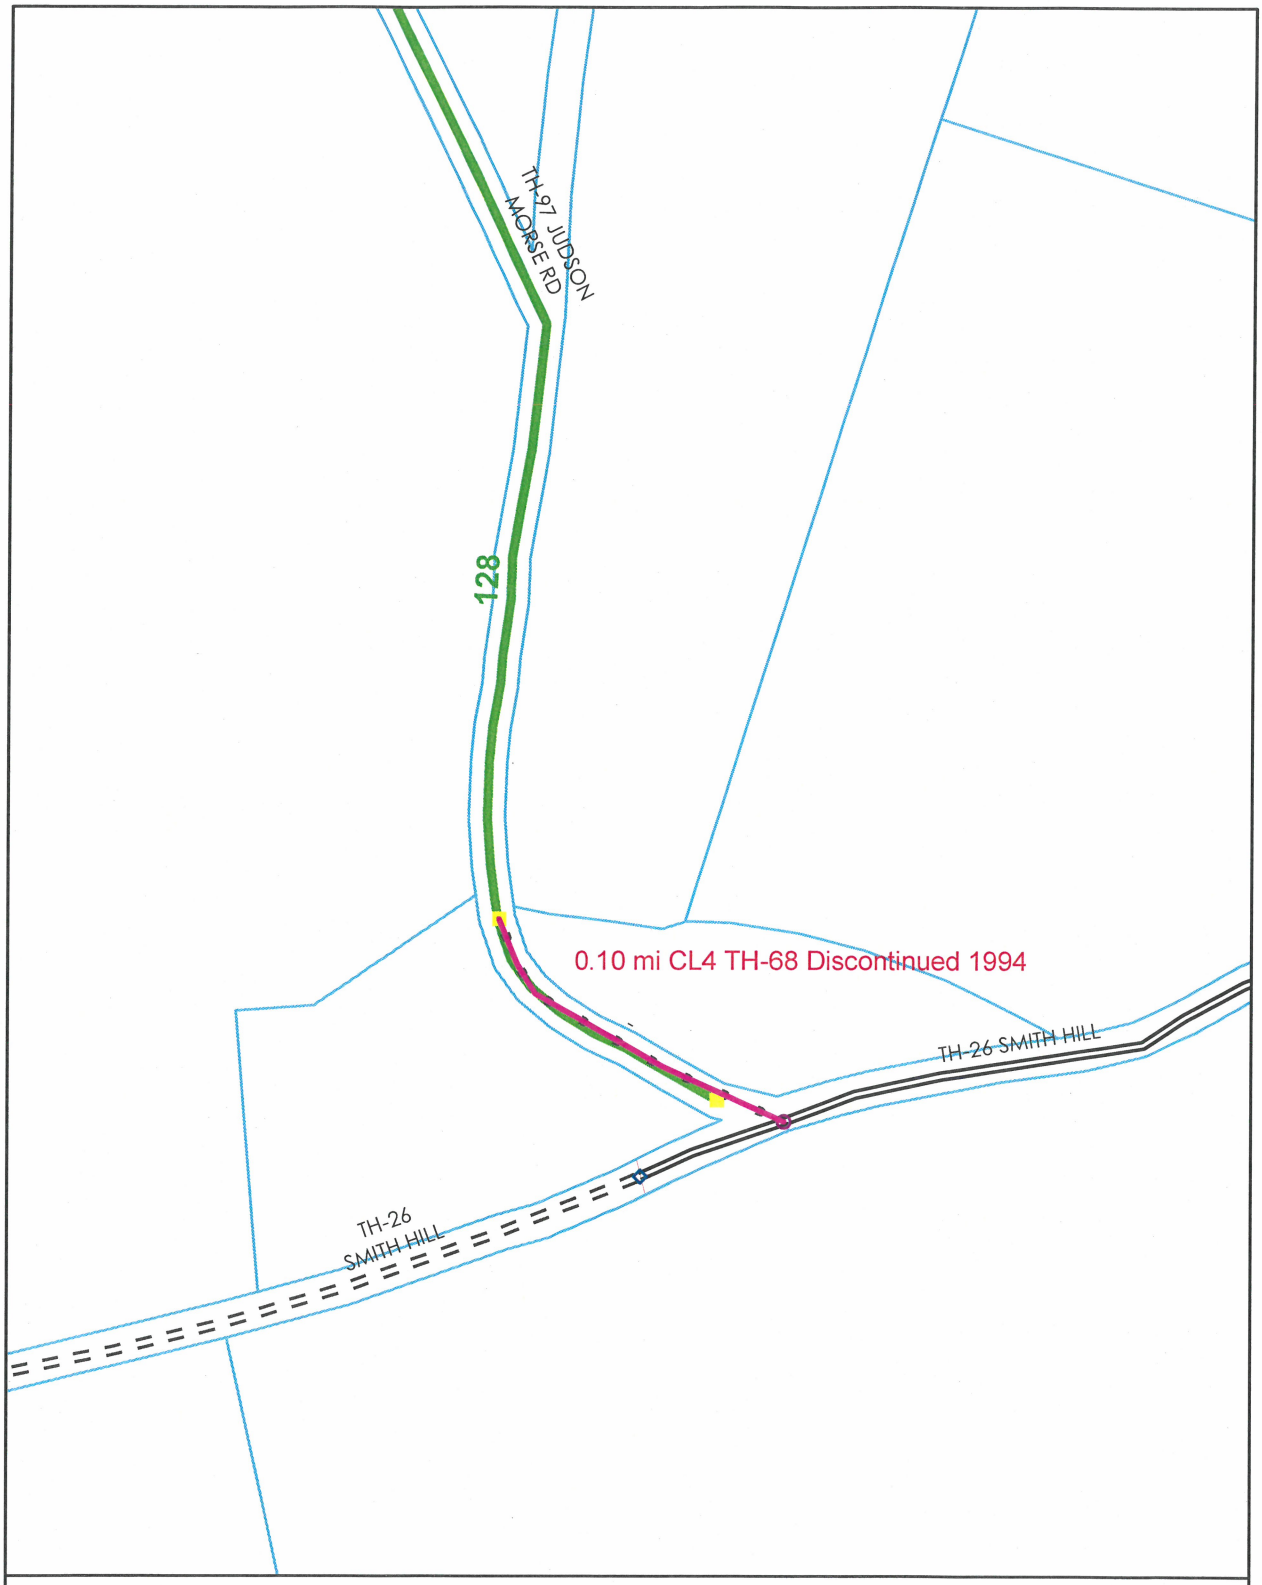

LT-1
We have LT-1 recorded as 0.01 mi (former TH-75). Town lists 0.10 mi on Cert and has it listed as 0.01 mi in our LT listing, but sums the Legal Trails up to 2.545 instead of 2.455. We have documentation to support LT-1 = 0.01, not LT-1 = 0.10.

Agency of Natural Resources

(802) 241-3682
mike.fraysier@state.vt.us

January 20, 2010

Barnard Selectboard
P.O. Box 274
Barnard, VT 05031

Dear Selectboard Members,

The Agency understands the Town of Barnard will be holding a meeting tonight to act on a proposal to add over 40 so called "ancient roads" to the official Town highway map. This letter serves as the Agency of Natural Resource's official comments on this proposal.

Eight of the roads proposed for inclusion on the Town highway map could potentially impact Agency lands located within the Town (Les Newell Wildlife Management Area and Silver Lake State Park). Specifically, these roads include BRC-111, BRC-112, BRC-115, BRC-118, BRC-119, BRC-122, BRC-126, and BRC-210. The Agency's comments are related to these eight roads only. We have no comments or concerns regarding the remaining roads that are proposed to be added to the Town highway map.

Generally, unless there are some compelling natural resource values at stake, the Agency does not oppose proposals by municipalities to add new sections of roads to the Town highway map, *provided* that sufficient documentation is provided as required by Act 178 that shows these roads were legally established and laid out and were never discontinued. A recent State Supreme Court Case (*Austin v. Town of Middlesex, October 27, 2009*) has reinforced the need for towns to provide sufficient documentation in this regard.

In considering this particular proposal, the Agency requested copies of supporting documentation from the Town regarding the eight roads crossing state land. This information has been provided to the Agency and we have now completed our review of this proposal. Based on this review (and the review of additional documentation regarding BRC-111 previously provided by the Town) the Agency will not object to the addition of BRC-111 to the Town highway map, provided this addition is approved by the VT Agency of Transportation. However, the documentation provided for the remaining seven roads appears to be insufficient or lacking in order for the Agency to support their inclusion on the Town highway map at this time.

FORESTS, PARKS & RECREATION VERMONT
FORESTRY CENTENNIAL CELEBRATION

We now understand that a short section at the western end of BRC-111 that extends to the Stockbridge town line is actually a section of BRC-112. We question whether there is sufficient evidence to warrant the inclusion of the short section of BRC-112 to the Town highway map (i.e., the section between the end of BRC-111 to the Stockbridge town line and Flint Road). Likewise, the Agency finds that the documentation provided for BRC-115, BRC-118, BRC-119, BRC-122 and BRC-126 is either incomplete or non-existent and thus fails to meet the legal requirements of Act 178 and the recent State Supreme Court case.

Regarding BRC-210, a brief search in the Town records by Agency staff revealed that this road was actually discontinued in 1958. A copy of the "Report of Discontinuance" is attached. Unless additional evidence is provided that shows this road was formally re-established as per the procedure outlined in 19 V.S.A., Ch.7, the Agency opposes the addition of this road to the Town highway map.

Sincerely,

Mike Fraysier

STATE OF VERMONT

WINDSOR COUNTY, SS.

REPORT OF DISCONTINUANCE OF HIGHWAYS

Whereas at Barnard on the 7th day of March, 1958, the Selectmen of the Town of Barnard gave notice that certain public highways as follows might be discontinued, to wit,

1. Road number 59 for a distance of approximately 1.30 miles, commencing at the Old Town Highway near Walter Lindsey's residence in said Town and proceeding Southerly to approximately Pearson's Mill. (This being the Old Town Road)

2. Road Number 62, .59 miles in length, being the Old Town Highway from Dalton Royces north to the Lakota Road, so-called.

3. Road number 35 approximately 1.25 miles in length, being the Old Town Highway from the top of Cemetery Hill easterly to the residence of Richard Fields.

4. Old State Route #12 from the Barnard - Pomfret Town line .85 miles northerly bordering land owned by C. Williams, S. Burgess and Lee Pearsons.

5. Road number 14, being approximately 1 mile in length, commencing at the junction of roads 32 and 14, as provided by the Vermont Highway Map and proceeding southwesterly to the residence of Robert Killam.

Whereupon the said Selectmen did order and appoint that on the 21st day of March, 1958, at the hour of 8 o'clock in the afternoon they would examine the premises and hear the parties interested and did give notice thereof by posting in two public places in said Town notice of said meeting and hearing, to wit, the Town Clerk's Office and
They also gave written notice by registered mail to all persons owning or interested in land abutting on said highways, to wit, Edward Leone, Rolland Borsman, Carl and Alice Zuckmayer, Joseph and Catherine Ward, Barbara Miller, Ora and Estelle Lewis; Dalton Royce, Clifford Williams, Olin Hill; Richard Fields and Fred Allen; Clifford Williams, Susan Burgess and Lee Pearsons; Robert Killam, Sherman Damon and Jesse Sweet, at least twelve days before the time so fixed for hearing and stated that said Selectmen would then examine said premises and consider claim for damages.

And afterwards on the 21st day of March, 1958, said Selectmen, to wit, A. C. Hull, Francis Haggerty and Edward E. Jones held said meeting and at such meeting there appeared Sherman Damon and Fred Allen.

After which it was the opinion of the said Selectmen that the public good required that the following public highways described

below-should be discontinued:

1. Road Number 32 for a distance of approximately 1.88 miles, commencing at the Old Town Highway near Walter Lindsay's residance in said Town and proceeding southerly to approximately Pearson's Mill. (This being the Old Town Road)

2. Road Number 32. .59 miles in length, being the old Town Highway from Dalton Noyes north to the Lakers Road, so-called.

3. Road number 35 approximately 1.25 miles in length, being the old Town Highway from the top of Cemetery Hill easterly to the residence of Richard Fields.

4. Old State Route #12 from the Barnard - Pomfret Town line .25 miles northerly bordering land owned by C. Williams, D. Noyess and Lee Pearsons.

Whereupon, It is ordered by the said Selectmen that said public highways shall be forever discontinued and the land over which said highways cross shall be set out to the abutting land owners and if it be located between the lands of two different land owners it shall be equally divided between the owners on each side.

After the aforesaid meeting held on the 21st day of March, 1958, it was the opinion of the said Selectmen that the public good required that the following described public highway be converted to the status of a trail, to wit.

Road number 14, being approximately 1 mile in length, beginning at the junction of route 12 and 14, as provided by the Vermont Highway Map and proceeding southwesterly to the residence of Robert Killen.

Whereupon, It is ordered by the said Selectmen that said public highway shall be forthwith discontinued as a public highway and converted into the status of a trail.

Dated at Barnard in the County of Windsor and State of Vermont, this 21st day of March, 1958.

Mike Fraysier (via email)
ANR Lands Director
Dept. of Forests, Parks & Recreation
103 South Main St, Bldg 10 South
Waterbury, VT 05671-0601

Dear Mike:
I am writing in reference to the Town of Barnard's desire to add 40-plus so-called ancient roads back onto the official highway map. Preston Bristow, acting as the Town's agent, via Meghan Purvee, requested that we provide comments prior the Select Board meeting on January 20. I wanted you to be aware of the Springfield Stewardship Team's opinion on a road adjacent to Silver Lake State Park.

One specific road that they want to re-list is now referenced as BRC-210 by the town's ancient roads committee. This road, locally known as the "Gifford Road," had a survey recorded in the town road book in 1790. This road forms the northern property line of Silver Lake State Park. It was assigned Town Highway # 35. It was officially discontinued on March, 21, 1958 per order of Selectmen, and is recorded in the town records, Book 32, Pages 447-8. Lands affected were to revert to adjoining landowners. A copy of this record follows.

Because this road was officially discontinued in 1958, it is my understanding that the Ancient Roads statute does not apply. If I am correct in my interpretation of Vermont laws regarding the establishment of highways, the town would need to start the process over again for a new road, including a new survey, taking lands from owners by eminent domain, etc. Therefore, it appears to me that using the ancient road statute to re-list the road would be a misuse of the ancient roads law; the correct procedure would be to follow laws governing the establishment of new highways. Therefore, the Springfield District Stewardship Team expects that the town's request to the Agency of Transportation to re-list this road will be denied under these circumstances.

Please contact me with any questions.

Sincerely,

Ethan Phelps

Selectmen's Minutes **January 20, 2010**

Called to order 7pm.
Present: Webster, Morse, (Johnson excused)
Guests: M. Baldwin, M. Edwards, D. Green, R. Lancaster, H. Kessler, P. Vollers, E. Phelps

Town Office remodel: Reviewed Architect Phil Maynes' plans for expansion and renovation of Town office to include Listers' and Clerk's office areas. Vote to include projected $20,000 cost on Special Article in 2010 Warning.

Act 178/Ancient Roads: To see what roads the Board of Selectmen will propose to add to the Agency of Transportation's official map of the Town's highways.
1. Received public comment as described in attached notes/comments from P. Bristow.
2. Move to adopt Resolution with delineated roads to be added as attached and admit into record accompanying addenda Summary of Changes and Summary of Comments (attached).
3. Discuss reasons for omitting certain roads from Resolution.
4. Vote to adopt Resolution and accompanying documents as presented.
5. Signed Resolution and accompanying map depicting roads to be included exclusive of legal trails.

Harry Kessler/Coordinator of Stage Race (bicycle) proposed for Memorial Day Weekend: Would like to use North Road morning of 5/31/10 as leg of stage race. Group has insurance, police coverage for riders. Expects approx. 500 riders divided into various categories of skill. Approved pending receipt of letter of intent and copy of insurance binder.

Reviewed final printout of proposed FY 11 budget. Approved Warning for 2010 Town Meeting and Town Report (attached).

Approved Town & Highway orders for payment, minutes of 1/13/10, reviewed mail.

Adjourned 8:15pm. Recorded by Morse.

Tim Johnson Rock Webster Tom Morse, Selectmen

From: preston.bristow@comcast.net
To: Tom Morse <darylthedog@aol.com>
Subject: SB minutes 1.20.10
Date: Wed, 20 Jan 2010 9:17 pm

Tom -

Here's my notes to aid you in preparing minutes:

Item of business: Resolution to add certain class 4 town highways to the town highway map and the sworn statement of the description and measurement of all class 1, 2, 3 and 4 town highways in the Town of Barnard.

Guests in attendance: Preston Bristow, Gary Kessler, Peter Vollers, Richard Lancaster, Ethan Phelps, Dave Green, Margaret Edwards

Comments:

Ethan Phelps delivered a letter dated January 20, 2010 from Jonathan Wood, ANR Secretary, with regard to 8 roads affecting state land in Town. The letter in sum accepts BRC-111 (Hayes Brook Road) and rejects BRC-112, BRC-115, BRC-118, BRC-119, BRC-122, BRC-126 and BRC-210 as lacking sufficient documentation.

Attorney Peter Vollers representing property owner Steven Dodge repeated his belief that BRC-213 (Buckman Hill Road) extends only to the former dwelling of Abner Buckman and not all the way to the Pomfret Town Line.

Attorney and son-in-law Michael Baldwin representing property owner Noel Hellinger stated his belief that a letter dated December 4, 1970 from the Barnard Selectmen should prevent the town from claiming BRC-228. Preston Bristow related a conversation he had with attorney Tom Hayes for the Town that the letter does not rise to a disclaimer of the road and that the Town need not be bound by the letter.

Dave Green asked to see the revised map, and he was satisfied that it was revised to correctly show BRC-204, BRC-207 and BRC-208 with regard to his property and the properties of Sophia Stone and the Maple Leaf Inn.

Richard Lancaster asked if the Selectmen would be willing to entertain a road alteration of BRC-212 (Cooty Hill Road) once the road is added to the map. Tom Morse replied that the Selectmen would.

Resolution:

On motion of Tom Morse, second by Rock Webster, the Select Board adopted the Resolution as presented, signed a copy of the map accompanying the Resolution as presented, and accepted into the record two accompanying documents entitled "Summary of Comments received" and "Summary of Changes made."

R E S O L U T I O N

To add certain class 4 town highways to the town highway map and the sworn statement of the description and measurement of all class 1, 2, 3 and 4 town highways in the Town of Barnard.

Whereas, the Select Board of the Town of Barnard did on November 18, 2009 sign a Notice of Select Board Meeting and opportunity to be heard regarding the addition of 43 unmapped class 4 town highways to the town highway map and sworn statement of the description and measurement of all class 1, 2, 3 and 4 town highways in the Town of Barnard; and

Whereas, the Select Board did on November 19, 2009 post a copy of the notice and opportunity to be heard inside the office of the Barnard Town Clerk, on the bulletin board outside the office of the Barnard Town Clerk, on the bulletin board outside the Barnard General Store, and on the bulletin board inside the Barnard Post Office; and

Whereas, the Select Board did publish the notice and opportunity to be heard in the November 20, 2009 edition of the *Valley News* newspaper; and

Whereas, the Select Board did on November 21, 2009 mail a copy of the notice and opportunity to be heard to the persons owning land through which the these unmapped town highways pass or abut; and

Whereas, the Select Board did meet on December 9, 2009 and conduct a public meeting, continued to December 16, 2009, and did hear testimony on the subject of adding these unmapped town highways to the town highway map; and

Whereas, the Select Board did announce at the public meeting and through an article in the January 2010 issue of *The Barnard Bulletin* newsletter and by other means that written comments would be accepted up to January 10, 2010 and would finalize a decision on or around January 20, 2010; and

Whereas, the Select Board has given due consideration to the comments received; now, therefore,

Be It Resolved that the Select Board hereby votes to add the following 37 class 4 town highways to the town highway map and to the sworn statement of the description and measurement of all class 1, 2, 3 and 4 town highways in existence in the Town of Barnard, said sworn statement to be filed with the Barnard Town Clerk and the Vermont Agency of Transportation on or before February 10, 2010:

The following class 4 town highways are identified through a numbering system developed by the Barnard Class 4 Roads Advisory Committee (hereinafter abbreviated "BRC") and depicted on a map signed by the Select Board on even date with this Resolution.

BRC-101 extends from TH-73 northeasterly to Gulf Road.
BRC-102 extends from TH-60 southerly to Lakota Road.
BRC-103 extends from Lakota Road southerly to the Bridgewater Town Line.
BRC-104 extends from Lakota Road westerly to BRC-105.
BRC-105 extends from Morgan Road southerly to the Bridgewater Town Line.
BRC-107 extends from Barlow Road northeasterly to Bennett Road.
BRC-108 extends from West Road southwesterly to Chateauguay Road.
BRC-111 extends from TH-48 westerly to the Stockbridge Town Line.
BRC-115 extends from BRC-111 northerly to BRC-118.
BRC-118 extends from the Stockbridge Town Line easterly to Smith Hill Road.
BRC-119 extends from TH-45 southerly to BRC-111.

BRC-120 extends from BRC-118 southeasterly to BRC-119.
BRC-122 extends from TH-43 westerly to BRC-120.
BRC-123 extends from TH-44 southwesterly to TH-43.
BRC-126 extends from Mt. Hunger Road southerly to Smith Hill Road.
BRC-128 extends from Smith Hill Road northwesterly to the Stockbridge Town Line.
BRC-129 extends from BRC-128 southwesterly to the Stockbridge Town Line.
BRC-133 extends from Masterson Road southwesterly to Old Mt. Hunger Road.
BRC-136 extends from BRC-108 southeasterly to BRC-107.
BRC-204 extends from North Perry Road northerly approximately 0.5 miles to the right-of-way conveyed to the Town of Barnard by Randal and Eileen Vaughn on August 21, 2006.
BRC-207 extends from VT Route 12 easterly approximately 0.3 miles to the right-of-way as agreed on by the Town of Barnard and Gary and Janet Robison.
BRC-208 extends from the right-of-way conveyed to the Town of Barnard by David and Sophia Stone on September 8, 2006 southeasterly approximately 0.7 miles to Eastman Road.
BRC-212 extends from Lime Pond Road easterly 0.43 miles to the former dwelling of Laurence Cooty.
BRC-213 extends from Lime Pond Road easterly 0.75 miles to the former dwelling of Abner Buckman.
BRC-215 extends from Sayer Road easterly to BRC-217.
BRC-217 extends from Ashley Road northerly to Walker Hill Road.
BRC-218 extends from Walker Hill Road easterly to the Pomfret Town Line.
BRC-219 extends from TH-32 easterly to Walker Hill Road.
BRC-223 extends from Ellis Farm Road northwesterly to the Royalton Town Line.
BRC-224 extends from Levasseur Road northwesterly to BRC-225.
BRC-225 extends from TH-17 northeasterly to the Royalton Town Line.
BRC-227 extends from Levasseur Road northwesterly to BRC-225.
BRC-228 extends from Royalton Turnpike westerly to Old Hill Road?
BRC-229 extends from Bowman Road northerly to BRC-228.
BRC-230 extends from Blackmer Road easterly to North Road.
BRC-232 extends from North Road westerly approximately 0.4 miles to the boundary of lands of Monsalvat Farm Holdings, LLC.
BRC-233 extends from Gills Road westerly to Rhoades Hill Road.

Dated this 20th day of January, 2010.

2010 Barnard Ancient Road Additions to the Town Highway Map

Summary of Changes made between the November 18, 2009 Notice of Select Board Meeting and the signing of the Certificate of Highway Mileage on February 10, 2010

BRC-112 (Perkins Hill Road) – southern end dropped due to inadequate documentation; northern end merged with BRC-111 (Hayes Brook Road).

BRC-126 (Nye Road) – dropped due to inadequate documentation and physical evidence

BRC-127 (Mike Clarke Road) – dropped due to inadequate documentation and physical evidence, discontinuance of northern end circa 1971.

BRC-130 (Cowdrey Road) – dropped due to inadequate documentation and physical evidence.

BRC-137 (Dump road) – dropped due to discontinuance of road on lands of Herschel Elliott in 1972.

BRC-204 (General Foster Road) – ends at trail on Vaughn land.

BRC-207 (Old East Road) – ends at trail on Robison/Maple Leaf Inn land.

BRC-208 (Jabez Road) – starts at trail on Stone land.

BRC-210 (Gifford Road) – dropped due to discontinuance of entire length in 1958.

BRC-212 (Cooty Hill Road) – extends 0.43 miles to former dwelling of Laurence Cooty (not to Pomfret Town Line).

BRC-213 (Buckman Hill Road) – extends 0.75 miles to former dwelling of Abner Buckman (not to Pomfret Town Line).

BRC-214 (Fish Hill Road) – dropped due to inadequate documentation and physical evidence.

2010 Barnard Ancient Road Additions to the Town Highway Map

Summary of Comments received between the November 18, 2009 Notice of Select Board Meeting and opportunity to be heard and the January 20, 2010 Select Board Resolution

BRC-108 (Wheat Road) – David & Sheila Rothman (letter): oppose
BRC-111, 119, 120 – Meadowsend Timberlands (letter): want recorded proof that these are roads; and if roads, want uses to be restricted
BRC-111, 112, 115, 118, 119, 122, 126 – VRP&R (letter): oppose all except for original portion of Hayes Brook Road (BRC-111) as having insufficient documentation
BRC-126 (Nye Road) – Robert Edmunds (letter): oppose
BRC-127 (Clarke Road) – Mike Clarke (verbal): would be happy to see dropped
BRC-130 (Cowdrey Outlook) – George & Cynthia Price (letter): oppose
BRC-133 (Masterson Road) – Jonathan Springer for Keith and Karina Fernandez (letter): current traveled way (especially near dwelling) not the original layout
BRC-137 (Dump Road) – Herschel Elliott (letter), William Sayward (letter), Joan Sayward Cardillo (letter): oppose; portion discontinued in 1972
BRC-204 (General Foster Road) – Randal Vaugh (testimony): road stops at deeded trail
BRC-207 (Old East Road) and 208 (Jabez Road) – David Green and Margaret Edwards (letter), Sophia Stone (letter): roads stop at deeded trail
BRC-210 (Gifford Road) – VFP&R (letter) and Craig Hadden (testimony): oppose as legally discontinued in 1958
BRC-212 (Cootey Road) – Virginia Lancaster (letter): oppose
BRC-213 (Buckman Road) – Peter Vollers for Steven Dodge (testimony): road ends at Buckman cellar hole before Dodge property
BRC-214 (Fish Hill Road) – Virginia Lancaster (letter) Doreen Hurley for Twin Farms (verbal): oppose
BRC-227 (Levasseur Road) – John Dunn (letter): supports
BRC-228 (Old Stagecoach Road) – Michael Baldwin for Noel Hellinger (letter): oppose

A letter was also received from the Vermont Land Trust requesting that any road added under the ancient road process be classed as a legal trail where it crosses conserved land.

JANUARY 2010 DEC 21 Vol. XXV No. 12

SELECTMEN'S NEWS

A recent Public Hearing on revisions to the Town Plan was better attended than some. There will be an additional Hearing for two reasons: we made a statutory goof by not including the Report of the Planning Commission and maps in the Plan packet available to the public and, secondly, public comments at the first Hearing will result in some minor but technically substantive changes. Watch next month's Bulletin and the Valley News in January for Notice of the Hearing. It also will be posted on local information boards. To encourage participation, we remind voters that the Town Plan does not go to public vote like Zoning Bylaws; it will be approved and adopted by the Selectboard likely following the next Hearing.

We also just concluded a publicly noticed meeting held the past two weeks on the Town's compliance with Act 178, the Ancient Roads Bill passed in 2006. We and the public reviewed an overlay of the Town's parcel map which includes class 4 roads already on the Agency of Transportation (AOT) map and those we propose to add for an official, comprehensive depiction of all the Town's roads and legal trails. The deadline for submission of the map is February 10, 2010 and we expect to finalize our decisions around January 20. Our approach is, basically, when in doubt, add it and deal with questions later as it will be a lot easier to remove one after February 10 than to add one. As with all highway matters, the public is protected with the right to appeal to Superior Court. We will accept written comment up to January 10 or you may discuss any questions you have with Preston Bristow who is usually in the Town office Monday mornings in his capacity as Zoning Administrative Officer. We hired him back in September to ramrod the Act 178 compliance and we are grateful for the time and expertise he has brought to the task.

While fiddling around with hearings and meetings, we're also supposed to be finalizing the FY 11 budget which will appear for voter approval in the 2010 Town Report. We're still missing budget requests from some Town organizations/departments. Please get your proposed budget to us yesterday.

After a remarkably mild and sunny November, winter finally has arrived and the Road Crew seems, as always, capably on top of it. The VAST system of snowmobile trails opened December 15 and we remind residents that we again have given them permission to use certain Town highways: Chateauguay Rd. from the old dump turn south to the Bridgewater line, Smith Hill Rd., a portion of West Rd. near Morgan Corners and several unplowed class 4 roads. We hope motorists and snowmobilers will continue to share the roads with mutual courtesy.

Selectmen and other local hunters had limited success during deer season. November was warm restricting movement, and no snow made tracks of generally stationary deer even harder to find. Where's Tonto when you need him? Congratulations to Tim Johnson who got a nice 4 pt and , in fact, would have had a nice 6 pt during muzzle loader season if he'd remembered to stuff some powder and a ball down his barrel. Probably too busy thinking about Town business. I can't say much as I loaded mine a few years ago on top of a load already in it. Anyway, there's never a minute we spend out there that we regret and we already look forward to next year. Congratulations to all who not only got out there but also put meat in the freezer.

We wish everyone a joyous Christmas season and a New Year of good health and good friends. We'll leave the prosperity part to the President this year. We extend special thanks to all our public servants who variously contribute to make Barnard the kind of place we all like to live.

Ancient roads deadline passes

Towns' paths to be clarified by July 2015

By Joel Banner Baird
Free Press Staff Writer

Another New Year's resolution: Some Vermont towns will grant official status to heretofore overlooked goat paths, remote Jeep tracks and under-the-radar ski trails.

Others will step back and let overgrowth and property owners determine the fate of off-the-map byways.

The rush to grant (or deny) legal credentials to the state's ancient roads — once-vital thoroughfares with unheralded or neglected pedigree — passed yet another deadline Monday.

Towns that have not publicly notified the public that they intend to certify and include ancient roads into official highway maps (as Class 4 highways) will necessarily relegate those roads to private ownership or extended legal limbo.

By law, the ambiguity of who owns Vermont's oldest roads (or if they indeed still exist) must be resolved by July 1, 2015, said Jonathan Croft, the chief cartographer at the Agency of Transportation.

Croft should know. He's the point man for the state's ancient road mapping project since 2006, when the Legislature passed Act 178, a bill that aimed to balance the interests of open-trail advocates with the boundary-vigilant real estate industry.

Predictably, Croft said, responses from town authorities and residences have been "all across the board."

Courtesy Vermont State Archives and Records Administration

C.R. Parker and C.H. Cookson of the Vermont Highway Planning Division scan an untraveled and unidentified road on Jan. 22, 1959. Towns face deadlines in granting official status to ancient roads.

Ancient road history

- **1700s-present:** Towns establish road rights-of-way
- **1800s-1930s:** Less favored roads (often those no longer suitable for automobile traffic) disappear from highway maps. Many, but not all, revert to private ownership
- **2006:** Vermont Legislature passes Act 178, which requires towns to identify and certify the legality of their ancient roads — or lose ownership. The act provides grants (capped at $5,000 per town) for the task, but much of the work is undertaken by volunteers.
- **2010:** Towns must approve the additions of ancient roads to their maps by Feb. 10 (following a Dec. 28 deadline for warning a public hearing for approval).
- **2015:** July 1 deadline for selectboards to decide whether roads with lingering legal ambiguity ("unidentified corridors") will be included permanently in highway maps or awarded to adjoining landowners

On board in Barnard

Leading the pack for road inclusion is the town of Barnard. On Jan. 20, its Selectboard will vote to legitimize as many as 43 roads. Selectboard member Tom Morris said volunteers began with a list of more than 70 candidates for inclusion.

"There are more roads than anyone would seem to need in this town, but they were needed at one point," he said. "It looks like we've gone and dug up a lot of new roads, but we're not."

Many of the ancient roads are still used, Morris said, and retaining town ownership is one way to preserve them for future use, recreational and otherwise.

"In Barnard, we've been willing to stand up. We have strong ideas about the public's rights of access," he said. "Our approach to ancient roads has been, 'When in doubt, submit it.' "

The Selectboard hired Preston Bristow, a Woodstock resident and Barnard's part-time zoning administrator, to research and certify the provenance of unpaved byways.

Record-keeping by a long succession of town surveyors and clerks simplified his historical sleuthing.

"Some towns are having a lot of trouble reclaiming roads because of sloppy documentation," Bristow said. "You'd read references to 'this old spruce stump' or 'that dead beech tree.' But they weren't sloppy at all in Barnard."

Trails and laissez-faire

Blanks in Shelburne's official history — the result of at least one fire that consumed town records — will contribute to that town's probable "mass discontinuance" of unmapped roads Jan. 12, Town Planner Dean Pierce said.

On that day, the Selectboard will likely relinquish the town's claim to roads with tenuous or unverified public ownership, he said.

"The board's goal is to clarify boundaries and protect property owners," Pierce said.

Options for adding roads were explored by the town's paths committee — "They wanted to be sure the town wasn't turning its back on a public resource," Pierce said — but momentum didn't build.

Williston's ad-hoc Ancient Roads Committee identified eight ancient roads worthy of closer looks, Environmental Planner Jessica Andreoletti said.

An independent consultant determined that three of them were private (no action needed by Selectboard), and four had sufficient legal status as town-owned Class 4 roads (also no action needed).

The final candidate — a primitive trail at the end of Bradley Lane — only required the Selectboard to re-assert public ownership, without any change in mapping or legal status, Andreoletti said.

The goal, she said, was a brief "tidying-up" of ambiguities, a course the Selectboard followed Dec. 21 when it approved the committee's recommendations.

To be continued

Unlike Shelburne, however, Williston won't issue a mass discontinuance in the New Year. Why?

Because by doing nothing, Andreoletti said, the town might preserve the option of converting ancient corridors into public recreation trails by mid-2015.

Other towns are likewise crafting legal strategies for as-yet-unclaimed ancient roads, Croft said.

The fates of those rights-of-way, termed "unidentified corridors" in Act 178, are subject to wide interpretation — and will likely persist until the Legislature spells out towns' options with greater specificity, he said.

Morris, for instance, speculates that an ancient highway that traverses two towns (yet is "legitimized" in only one) could provide hours of rich fodder for discussion at the Statehouse.

Towns slow to clarify the legal status of cherished ancient roads they once owned, Andreoletti said, might find themselves in the position of having to pay for them a second time.

Selectmen's Minutes **December 16, 2009**

Called to order 7pm.
Present: Johnson, Webster, Morse, B. Edmunds, R. Tracy

Convened continuation of 12/9/09 meeting on compliance with Act 178, Ancient Roads law. Attendance list and notes of meeting attached.

7:50 resumed regular Selectmen's Meeting.

Rob Tracy/Barnard Mountainviewers Snowmobile Club: Request use of same class 3 & 4 Town highways as in previous years: Smith Hill Rd., Chateauguay Rd. from dump turn south to Bridgewater line, West Rd. near Morgan Cors. Club to post signs indicating shared use and speed limit signs. Permission granted.

Reviewed copy of letter (attached) approved 12/9 to Superintendent Meg Gallagher, Woodstock Central Supervisory Union District, re Kyle Pickett.

Bod Edmunds/Cemetery Commission: Discussed use of dedicated fund for maintenance of cemeteries. Appears to be some question about status/disposition of fund. Independent Auditors will examine. Will propose Article for 2010 Warning to resolve use of dedicated fund.

Snow removal at Barnard Academy: Johnson reports that no one has been hired to do the snow blowing around the school for this winter. Morse to check with Road Foreman & Kurt Lessard.

Approved Town & Highway orders for payment, minutes of 12/09/09, reviewed mail.

Town Plan: Discussed comments offered by public at 12/2 Hearing. Made list of documents required and changes from comments to be made for second Public Hearing. Morse to discuss with TRORC Kevin Geiger and set date for second hearing.

Adjourned 9pm. Recorded by Morse.

Town of Barnard
Minutes of Selectboard Meeting with regard to Ancient Roads
Wednesday, December 16, 2009

Selectboard members present: Tom Morse, Rock Webster, Tim Johnson

Others present: Mike Baldwin, Lisa Baldwin, Noel Hellinger, Elizabeth Hellinger, Lawrence Clarke Jr., John Lancaster, Virginia Lancaster, Richard Lancaster, Victor Ward, Robert Edmunds, Preston Bristow, David Green, Margaret Edwards, Randal Vaughn

This meeting is a continuance of a meeting held on December 9, 2009 in accordance with the provisions of 19 V.S.A. § 305(d) and a Notice of Select Board Meeting dated November 18, 2009 for the purpose of taking public comment prior to the inclusion of certain class 4 town highways on the town highway map.

At 7:15 PM, Chairman Tom Morse re-opened the meeting which had been recessed last Wednesday, December 9, 2009. Tom reminded all that this is a meeting and not a formal hearing and the purpose of this meeting is to accept comments and answer questions. Tom asked for an introduction by Preston Bristow, Barnard's Administrative Officer, who has been hired by the town to coordinate the ancient road process.

Preston reviewed Barnard's process of mapping old roads beginning with the development of a town parcel map that was approved on 9-29-04 and the formation of the Class 4 Road Advisory Committee at Town Meeting in 2004. Of the 71 roads the Class 4 Road Advisory Committee inspected between 2004 and 2008, 10 were already on the town highway map, 10 were determined to be unneeded, and 8 were found to be all or partially discontinued, leaving 43 roads.

John Lancaster asked if the Selectboard can limit access or use of class 4 town roads. Tom replied that the Selectboard has the authority to open or close class 4 town roads to ATV or snowmobile use.

Mike Baldwin, speaking in regard to BRC-228 known as Old Hill or Old Stagecoach Road, asked if estopel came into play because sections of the road appeared unused. Preston said it didn't. Mike asked what criteria were used to determine that a road was unneeded. Preston said it was dead-end roads (not through roads) and minor or redundant links that didn't provide access to land-locked parcels. Tom added that some roads were important to prevent the land locking of certain properties. Mike asked if the same diligence was used to investigate road discontinuances as it was to investigate original road laying out documents. Preston said there hasn't been the same diligence.

It was pointed out that legal rights-of-way have in recent years been deeded to the Town in certain instances and the original route of the town road altered or discontinued through agreements with land owners. Those rights-of-way will be added to the town highway map as legal trails. The Selectboard is open to future alterations of the town roads being added to the town highway map upon request by landowners.

Preston explained that the ideal documentation that Vermont Agency of Transportation (AOT) seeks before adding an ancient road to the town highway map is an original recorded document laying out the road. Other documentation may be accepted but is more liable to challenge. Preston reported that original laying out documents have been found for two-thirds of the 43 roads now under consideration. He and road expert John Dutton are seeking the remaining one-third. Once a road is certified by the Selectboard to be added to the town highway map, it may be return by AOT as lacking sufficient documentation. If it is accepted by AOT, the only appeal open to the landowner is through Superior Court.

John Lancaster asked what uses a landowner could make of roads that crossed their property. Tom referenced Title 19 and said the landowner owned the land under the road and could harvest timber in the roadway and use the right-of-way for farming.

Virginia Lancaster stated that BRC-214 known as Fish Hill Road dead-ended on her property and does not go over Fish Hill. She also stated that Lime Pond Road has been moved so that Fish Hill Road no longer connects with Lime Pond Road.

Victor "Teddy" Ward urged the Selectboard to keep BRC-131/132 known as Kidder or Slack Road despite the fact that about one-half mile of the road (then known as TH-10) was discontinued in 1994.

Lawrence "Mike" Clarke asked about the discontinuance of 0.1 mile of TH-69 in 1994, which was at the time thought to be a dead-end stub, but which is now part of BRC-128 known as Judson Morse Road. Preston replied that the Selectboard hopes to overturn that discontinuance because BRC-128 is a through road that crosses town lines and connects to another road in Stockbridge.

Randal Vaughn asked when the final vote would be taken by the Selectboard. Tom replied that the Selectboard will accept written comments until January 10, 2010 and that the vote to add roads to the town highway map would likely be taken on the regularly scheduled Selectboard meeting of Wednesday, January 20, 2010. A revised map and further information would be available then. The meeting was closed at 7:50 PM.

Recorded by Preston Bristow for the Selectboard

Selectmen's Minutes **December 9, 2009**

Regular Selectmen's meeting called to order 8pm.
Present: Johnson, Webster, Morse, T. Ward

Separate meeting called to order 7:15pm to take public comment on Town's compliance with Act 178, Ancient Roads Law. Written and oral comment taken re class 4 roads and trails to be included on official AOT highway map. Attendance and summary of comments attached and turned over to Preston Bristow for review.

Authorized Morse's signature earlier in week on Independent Audit Engagement Letters for FY08 & FY09 with Pace & Hawley. Filed with Treasurer.

Reviewed and signed letter (attached) to Meadowsend Timberlands re recent correspondence, class 4 roads policy, TH46, TH48. Filed TH48 Highway file.

Authorized temporary repair of compactor box and installation of new box-compactor guide (see attached).

Approved Town & Highway orders for payment, minutes of 12/02/09, reviewed mail.

Discussed recent vandalism and vehicle thefts allegedly by Kyle Pickett. Vote to request WUHS Board of Directors no longer allow him to be tutored at Danforth Library. Authorize Morse to draft and sign letter for Board.

Adjourned 9pm. Recorded by Morse.

Tim Johnson Rock Webster Tom Morse, Selectmen

Town of Barnard
Minutes of Selectboard Meeting with regard to Ancient Roads
Wednesday, December 9, 2009

Selectboard members present: Tom Morse, Rock Webster, Tim Johnson

Others present: Glenn Dunning, Donna Foster, Aaron Hurst, Kim Royar, Noel Hellinger, Elizabeth Hellinger, Mike Baldwin, Lisa Baldwin, Stephen Webster, Tom Gubbins, Kim Vollers, Peter Vollers, Neil Lamson, Randal Vaughn, Lawrence Clarke, Scott Miller, Margaret Edwards, David Green, Sophia Stone, Craig Hadden, Richard Lancaster, John Lancaster, Victor Ward

This meeting was held in accordance with the provisions of 19 V.S.A. § 305(d) and a Notice of Select Board Meeting dated November 18, 2009 for the purpose of taking public comment prior to the inclusion of certain class 4 town highways known as ancient roads on the town highway map.

Chairman Tom Morse opened the meeting with an introduction at 7:15 PM. Preston Bristow and John Dutton, whom the Town has hired to research and coordinate Barnard's ancient road additions, were not present. This is a meeting and not a formal hearing and will be recessed due to today's snowstorm. The purpose of this meeting is to accept comments. Tom then turned the meeting over to Rock Webster to serve as acting chairman. Comments heard included:

- Craig Hadden spoke regarding BRC-210 which runs adjacent to his property. He claims this road was discontinued and provided a reference to a Report of Discontinuance of Highway dated 6-12-58 and recorded at Book 32, Page 447 that he said included this road. He also noted that the 1980 town highway map shows that it was discontinued. He asks that it be removed from consideration.
- Peter Vollers, attorney for Steve Dodge, spoke regarding BRC-212 and BRC-213. These roads stop at the Pomfret Town Line and Pomfret does not recognize them. Peter questions what value keeping these roads has to the Town of Barnard.
- Mike Baldwin spoke regarding BRC-228. Mike claims the road is unused and asked what criteria the town used to decide which road to keep, what documentation the state needs to accept a road, and if that documentation will be available to the public.
- Lawrence "Mike" Clarke noted that a portion of BRC-127 on his land was previously discontinued.
- Victor "Teddy" Ward stated that Class 4 Roads are public and should not be thrown up and should be kept for all townspeople. Landowners need to understand that these are public rights for public access.

Discussion ensued on whether there was a plan for use of these roads (not at present, to be decided in the future), how the Selectboard will decide which roads to send to the State and which to drop (case by case dependent on the documentation), when the map will be updated (in January), when the documentation for the roads will be complete and available for review (in January), what obligations the town has to maintain these roads (just bridges and culverts), whether the underlying owner of these roads can harvest the trees in the right-of-way (yes), and if the existence and maintenance of these roads will affect the landowner's current use enrollment (shouldn't).

This meeting with regard to ancient roads was recessed until next Wednesday, December 16, 2009 at the Barnard Town Hall at 7:00 PM.

Recorded by R. Lancaster for the Selectboard

NOTICE OF SELECT BOARD MEETING

In accordance with the provisions of 19 V.S.A. § 305(d) the Select Board of the Town of Barnard, Vermont, hereby gives notice that it will meet at the Barnard Town Hall on Wednesday, December 9, 2009 at 7:00 p.m. for the purpose of taking public comment prior to the inclusion of the following class 4 town highways on the town highway map and the sworn statement of the description and measurement of all class 1,2,3 and 4 town highways in existence in the Town of Barnard, said sworn statement to be filed with the Barnard Town Clerk and the Vermont Agency of Transportation on or before February 10, 2010 in accordance with 19 V.S.A. § 305(b):

The following class 4 town highways are identified through a numbering system developed by the Barnard Class 4 Roads Advisory Committee (hereinafter abbreviated "BRC") and depicted on a map posted with this Notice at the office of the Barnard Town Clerk.

BRC-101 extends from TH-73 northeasterly to Gulf Road.
BRC-102 extends from TH-60 southerly to Lakota Road.
BRC-103 extends from Lakota Road southerly to the Bridgewater Town Line.
BRC-104 extends from Lakota Road westerly to BRC-105.
BRC-105 extends from Morgan Road southerly to the Bridgewater Town Line.
BRC-107 extends from Barlow Road northeasterly to Bennett Road.
BRC-108 extends from West Road southwesterly to Chateauguay Road.
BRC-111 extends from TH-48 westerly to BRC-112.
BRC-112 extends across the southwest corner of Barnard from Stockbridge to Stockbridge.
BRC-115 extends from BRC-112 northerly to BRC-118.
BRC-118 extends from the Stockbridge Town Line easterly to Smith Hill Road.
BRC-119 extends from TH-45 southerly to BRC-111.
BRC-120 extends from BRC-118 southeasterly to BRC-119.
BRC-122 extends from TH-43 westerly to BRC-120.
BRC-123 extends from TH-44 southwesterly to TH-43.
BRC-126 extends from Mt. Hunger Road southerly to Smith Hill Road.
BRC-127 extends from Mt. Hunger Road southerly to BRC-128.
BRC-128 extends from Smith Hill Road northwesterly to the Stockbridge Town Line.
BRC-129 extends from BRC-128 southwesterly to the Stockbridge Town Line.
BRC-130 extends from Cowdrey Outlook Road southwesterly to BRC-128.
BRC-133 extends from Masterson Road southwesterly to Old Mt. Hunger Road.
BRC-136 extends from BRC-108 southeasterly to BRC-107.
BRC-137 extends from TH-49 southerly to Chateauguay Road.
BRC-204 extends from North Perry Road northerly to BRC-207.
BRC-207 extends from VT Route 12 easterly to North Perry Road.
BRC-208 extends from BRC-207 southeasterly to Eastman Road.
BRC-210 extends from North Road westerly to TH-54.
BRC-212 extends from Lime Pond Road easterly to the Pomfret Town Line.

BRC-213 extends from Lime Pond Road easterly to the Pomfret Town Line.
BRC-214 extends from Lime Pond Road northerly to Sayer Road.
BRC-215 extends from Sayer Road easterly to BRC-217.
BRC-217 extends from Ashley Road northerly to Walker Hill Road.
BRC-218 extends from Walker Hill Road easterly to the Pomfret Town Line.
BRC-219 extends from TH-32 easterly to Walker Hill Road.
BRC-223 extends from Ellis Farm Road northwesterly to the Royalton Town Line.
BRC-224 extends from Levasseur Road northwesterly to BRC-225.
BRC-225 extends from TH-17 northeasterly to the Royalton Town Line.
BRC-227 extends from Levasseur Road northwesterly to BRC-225.
BRC-228 extends from Royalton Turnpike westerly to Old Hill Road.
BRC-229 extends from Bowman Road northerly to BRC-228.
BRC-230 extends from Blackmer Road easterly to North Road.
BRC-232 extends from North Road westerly approximately 0.4 miles.
BRC-233 extends from Gills Road westerly to Rhoades Hill Road.

Pursuant to 19 V.S.A. § 305(d), notice of this meeting and opportunity to be heard is being provided to the persons owning land through which the above-described calls 4 town highways pass or abut. Notice is also being given to: Chair of the Barnard Planning Commission, Chair of the Barnard Conservation Commission, Executive Director of the Two Rivers Ottauquechee Regional Planning Commission, and the Commissioner of the Vermont Department of Forests, Parks and Recreation.

A copy of this notice will be posted at the office of the Barnard Town Clerk and published in the Valley News newspaper.

Dated this 18th day of November, 2009.

Town of Barnard, Vermont

Chartered July 17, 1761

P.O. Box 274
Barnard, Vermont 05031
(802) 234-9211

November 18, 2009

Dear Barnard Landowner,

If you are receiving this letter and enclosed Notice, it is because you own land adjacent to one or more of 43 "ancient roads" that our Town is seeking to add to the Town Highway Map maintained by the Vermont Agency of Transportation. In the late 1700's and 1800's, settlers established homesteads throughout Barnard and a network of roads was laid out to serve those homesteads. When the settlers moved west, many of these roads fell into disuse but were not legally discontinued.

Our Town has spent countless hours over eight years researching and locating these old roads. In April of 2004, following a public process, the Select Board adopted a parcel map which depicts 41 of these 43 roads. A "Class 4 Roads Advisory Committee" consisting of 14 town residents further documented and researched these and other roads and as a result of their work two more roads were added to make the list a total of 43 roads.

In 2006 the Vermont Legislature adopted Act 178 otherwise known as the "Ancient Roads" law. This change requires that all roads that the Town seeks to retain as public roads must be added to the Town Highway Map maintained by the Vermont Agency of Transportation. In the process of adding these 43 roads to the Town Highway Map the owners of land that abut these roads are being contacted and given an opportunity to comment. That is the purpose of this letter and enclosed Notice.

Unfortunately, a map large enough to depict these 43 roads would be too costly to include with this letter. A map showing these roads is on display in the Town Clerk's office (open M-W, 8 AM-3:30 PM) and on the exterior bulletin board to the right of the entrance to the Town Clerk's office. The map can also be viewed at the public meeting which is scheduled for Wednesday, December 9, 2009 at 7:00 PM at the Barnard Town Hall.

The owners of land adjacent to the two roads not depicted on the Town parcel map are being contacted separately. **If you are receiving this letter, the road that abuts your property is the same as shown on the Town parcel map and has been recognized by the Town of Barnard as a class 4 road since April of 2004.**

We thank you for your patience with this process.

Rock Webster, Tim Johnson and Tom Morse (Chair), Barnard Select Board

Luce Pond Road

The following is the copy of a survey of a Road in the Town of Barnard laid out on the __ day of _____, A.D. 1855 by us as Commissioners appointed for that purpose by the Hon. County Court, held at Woodstock in and for the County of Windsor on the Petition of Henry J. Marsh and others.

Beginning at a point in the Highway that leads from Bridgewater Hollow so called to the Village in Barnard, three Rods and three links Southerly of the Bridge where the said Road crosses a small brook that empties into the southerly side of the Luce Pond so called, thence running

South 24¼ degrees East 10 rods –
thence " 31¾ " " 24 "
" 47½ " " 20 "
" 54½ " " 22 " 10 links to a birch tree marked
thence South 44¼ degrees East 40 " to a fir tree,
" 88 " " 14 " 10 links to a birch tree marked
thence South 66 degrees East 16 rods
" 53¾ " " 20 "
" 76 " " 14 "
" North 84 " " 12 "
" South 57¾ " " 20 "
" 83 " " 18 "
" North 84½ " " 16 "
" 48 " " 15 "
" 61 " " 10 "
South 80 " " 16 "
" 85¼ " " 27 "
North 62 " " 5 "
" 24½ " " 20 " to the Road that leads from the Luce Farm so called to John Tuckers. The Road is laid three rods wide and the survey is in the center thereof. We also award the following Sum as land damages viz:

To	Hatch & Clark	$ 0.00
"	Lyman Townsend	0.00
"	Frederick Luce	0.00
"	George B. Warren	10.00

Dated at Woodstock this 24th day of November A.D. 1855.

Hosea Doton)
Otis Chamberlin) Commissioners
Henry Hewitt)

Rec'd the foregoing Road Survey for record Nov. 24th 1855.
Attest Salmon C. Thayer, Town Clerk

Luce Pond Road.

(80)

The following is the copy of a survey of a Road in the town of Barnard laid out on the ____ day of A.D. 1855 by us as commissioners appointed for that purpose by the Hon. County Court, held at Woodstock in and for the County of Windsor on the Petition of Henry D. Nash and others,

Beginning at a point in the Highway that leads from Bridgewater Corner so called to the Village in Barnard three Rods and three links southerly of the Bridge where the said Road crosses a small brook that empties into the Northwesterly side of the Luce Pond so called, thence running

South 24¼ degrees East 10 rods,—
thence " 31¾ " " 24 "
" 47½ " " 20 "
" 54½ " " 22 " 10 links to a birch tree marked;
thence South 44¼ degrees East 40 " to a fir tree,—
" 88 " " 14 " 10 links
to a birch tree marked,—
thence South 66 degrees East 16 rods
" 53¾ " " 20 "
" 76 " " 14 "
" North 84 " " 12 "
" South 59¾ " " 20 "
" 83 " " 18 "
" North 84½ " " 16 "
" 48 " " 15 "
" 61 " " 10 "
" South 80 " " 16 "
" 85¼ " " 27 "
" North 62 " " 5 "
" 24½ " " 20 " to the Road that leads from the Luce farm so called to John Tuckers. The Road is laid three rods wide and the survey is in the center thereof. We also award the following sum as damages viz:

land

BRC 104 Luce Road

SURVEYOR'S REPORT
(continued from Page -3-)

That portion of the Bridgewater Hollow Road and the Jabez Hill Road that was discontinued on Oct. 18,1920, was at some point after 1920 named or referred to as the Lone Pine Trail. This name has been or is depicted on various highway maps.

The Lone Pine Trail is depicted on a survey plat – prepared by Ralph J. Michael LS. (Michael Engineering Company, PC.) – Dated November 26,1996 for Jennifer A Seibert, **As a Legal Trail.**

In the deed of Jennifer A Seibert to Donald E. Whitney and Jean E Whitney et al. (Dec. 16,1996 – Bk. 55 Pg. 269). The Lone Pine Trail is referred to **As a Legal Trail.**

In the deed from Jennifer A. Seibert to Charles G. Astbury and Hilda M Astbury, (Dec. 16,1996 – Bk. 55 Pg. 259) the Lone Pine Trail is referred to as a Trail and the portion of the property abutting the said Trail is described along the easterly side of the said Trail, not along the center line of the said Trail.

In the deed of Oliver A. Seibert to Jennifer A. Seibert (July 27, 1993 – Bk. 50 Pg. 386) the Lone Pine Trail is referred to **As a Legal Trail.**

In the deed of William T Carter IV to Earl W. Seibert and Gladys Seibert, (April 25, 1977 – Bk.39 Pg. 52) the Lone Pine Trail is referred to **As a Legal Trail.**

The 1947 Vermont Town Highway Map – District No. 5, of the Town of Bridgewater, VT. , depicts and indicates that the Lone Pine Trail is in fact a Trail.

In the 1859 highway discontinuance of what I call the Upper or the Northerly portion of the Bridgewater Hollow Road (the Noel Angell property to the Barnard Town Line) there was a reversion clause, whereas the land or the right of way over the said land was set over (returned) to the farms from which they were taken originally. In the 1920 highway discontinuance of a portion of the Bridgewater Hollow Road and the Jabez Hill Road their was or is **no reversion clause.** Based on several deeds that I have reviewed, certain survey plats, and general Town Highway Maps of the Town of Bridgewater that I have observed, my impression would be that even though the Town Highway was in fact discontinued in 1920, a public Right-of-Way may still be in effect over that portion of the former Bridgewater Hollow Road and the former Jabez Hill Road.

Needs follow-up
once Court Decides
this case. May not be
Prudent to add this
highway this year.

(continued on Page -5-)

SURVEYOR'S REPORT
(continued from Page -4-)

Reference is made to the deed of the Lakota Club to the United States Of America (Appalachian Trail Corridor) – (Bk. 41 Pg. 475 – Oct.4,1982) in the Town of Bridgewater. Following back on this chain of title, several deeds refer to the old highway, now discontinued, leading from Bridgewater Hollow to Barnard. This property is northerly of and abuts the northerly line of the former Noel Angell farm or property. This property (United States Of America) abuts the Barnard Town Line on the north. These deed are all dated after the 1859 discontinuance of the Upper or Northerly portion of the Bridgewater Hollow Road.

Deed of Herbert W. Daniels to the Lakota Club (Bk. 31 Pg. 184 – Sept. 17, 1940) **"Beginning in the east line of the old highway, now discontinued, leading from Bridgewater Hollow, so-called to Barnard".**

Deed of Philo Hatch to Francis R. Clark (Bk. 18 Pg. 245 – March 5, 1864) **"to the east line of the old highway; thence northerly on the east line of the old highway".**

Deed of Philo Hatch & Joseph R Clark (Bk. 18 Pg. 247 – March 5, 1864) **"Beginning on the east line of the old highway, now discontinued, leading from Bridgewater Hollow to Barnard in the north line of Noel Angell."**

Deed of Lyman Mower to Philo Hatch & F.W. Clark (Bk. 17 Pg. 481 – Nov. 26, 1861) **"Beginning in the east line of the old highway , now discontinued, leading from Bridgewater Hollow to Barnard in the north line of the property belonging to Noel Angell lot".**

After an extensive search of the Bridgewater Town Land Records and the Bridgewater Town Highway Records (the two Town Highway Books that are located at the Town Clerks Office, consisted of modern and somewhat modern highway data) we were unable to locate any of the original layouts and surveys for the original highways in the town. This seemed quite unusual to me, as in most towns I have worked in over the years, highway records have been available, if one was persistent enough in their research. The Town Clerk did inform us that she knew of no other highway books in her office. We did find scattered throughout the Land Records (Volumes No.12 through No. 17) some highway layouts and surveys, however this data pertained to alterations of existing highways in the town, none of which appeared to be near the area of our concern.

(continued on Page -6-)

SURVEYOR'S REPORT
(continued from Page -5-)

As a side note in regards to the last paragraph, (Lack of Town Highway Records) we did locate in the Bridgewater Town Meeting Records – Vol. 1 – pg. 16 & 17: **"At a legal meeting of the inhabitants of the Town of Bridgewater held on the 14th of March 1791 " ----** Article 20th . **That Benjamin Perkins shall have the book now recorded in, as his own property, for the consideration of his recording the surveys of roads now in the clerk's office and also copying the records now in said book, into another book to be provided by the town."** It would appear that this would be the missing book of highway records.

Our search at the Windsor County Court House revealed that their were very few older County records to review. The few records that they did have on hand were not applicable to County Highways, or to the area of our concern. The County Clerk did inform us, that due to lack of storage space, many of the older County Court Records had been sent to Montpelier many years ago. She did not have any idea where in Montpelier these records were. She also mentioned that some records may have been sent to U.V.M.

After many inquiries, we did locate volumes 1 through 14 of the Windsor County Court Records at the State of Vermont Public Records Division at Middlesex, Vt. The volumes were on micro film. Some of the volumes were indexed, some were not. Volume 1 in particular was not indexed. We did spend a considerable amount of time researching the volumes, but do to the lack of indexing, we were not successful in locating any County Highway Records. This data consisted for the most part of old Windsor County Court (Trial) Records, not County Records. The Clerks at the Public Records Division did not have any knowledge as to where the actual volumes were, and suggested that we visit the Vermont State Archives Division in Montpelier.

Although the clerks at the Archives Division were very helpful, they could not provide us with any meaningful information regarding Windsor County Records. They did inform us that the Windsor County Courthouse had fires in the years 1790 and again in the year 1854. They also stated that due to fires and lack of storage, that the Windsor County Records (Highway Records etc.) may have very well been moved to other locations, such as the Rutland County Courthouse. They also stated that some old records have left State custody altogether and ended up in private collections.

(continued on Page -7-)

SURVEYOR'S REPORT
(continued from Page -6-)

As of November 6, 2008, we have conducted research at the following institutions or locations:

-The Bridgewater Land Records @ the Bridgewater Town Clerks Office.
-The Barnard Land Records @ the Barnard Town Clerks Office.
-The Windsor County Courthouse @ Woodstock.
-The Vermont Public Records Division @ Middlesex, Vt.
-The Vermont State Archives @ Montpelier, Vt.
-The Rutland County Courthouse @ Rutland, Vt. (We are on hold at Rutland, anticipating additional information)
-The Rutland, Vt. Free Library.
-The Woodstock, Free Library.
-Numerous sites on line, including the UVM collections (Bailey – Howe Library) and The Vermont Historical Society.

In all of our research to date, we have not been able to locate the layout and or survey of the so-called Bridgewater Hollow Road (as referred to in Bridgewater) and/or the so-called Morgan Road (as referred to in Barnard) which runs through Bridgewater into Barnard and through Barnard into Barnard Village. In the Town of Bridgewater we have not been able to locate in the Land Records a highway book that reflects **any of the original town highway layouts or surveys,** however as noted above the Town Selectmen did commission one Benjamin Perkins to produce a new town highway book in March 1791. In the Town of Barnard, which has its original or what appears to be its original highway book, we cannot locate the for layout or survey for this particular highway (The Morgan Road so-called) and for that matter neither could we locate the layout and survey for The Chataguay Road so-called, (which is still a Class 4 highway in both towns) which is located westerly of and is somewhat parallel to the said Bridgewater/Morgan Road and runs through The Town of Bridgewater, well into the Town of Barnard.

(continued on Page -8-)

SURVEYOR'S REPORT
(continued from Page -7-)

In Conclusion

In our search of the selectmen's minutes at the Town of Bridgewater Town Clerks Office, we did encounter several indications that highways that extended through The Town of Bridgewater into The Town of Barnard, did come under Windsor County jurisdiction. Below, please find three examples of the same.

(1) At a legal meeting of the inhabitants of the Town of Bridgewater, held on the 2'nd day of March AD. 1795: (Bridgewater Town Records – Vol. 1 Pg.24-25) Article 18'th. **"That the selectman prosecute the Town of Barnard for neglect of opening a road laid out by a committee appointed by the county court, Ad. 1792, unless the selectmen of said Barnard open and clear that, or some other road to the acceptance of the selectmen of this town be for the first day of July next."**

(2) Bridgewater Town Meeting Records (Feb. 12, 1844 – Bridgewater Town Records—Bk. 2 Pg.12) Article 4'th." **To see if the town will raise money or labor to make the road through said Town of Barnard , which is laid out by a County Committee and, and to repair roads and bridges."** Signed by the town selectmen, February 12, 1844.

(3) Bridgewater Town Meeting Records (Aug. 21,1845) Bridgewater Town Records--- Bk.2 Pg.26) Article 2 – **"To see if the town will appoint a committee to make contract for building the road was laid out by the Courts Committee leading from Raymond saw mill to Barnard Line".** Voted to appoint a committee to superintend the Barnard Road. Voted that the selectmen be instructed to let out the said road.

(A) It is my opinion , based on the considerable amount of research that we have placed into the Bridgewater Hollow Road/ Morgan Road, the information as noted above and my personal experience, relative to highways and roads in the State of Vermont, that this old highway that runs through The Town of Bridgewater into and through The Town of Barnard to Barnard Village is and should be under Windsor County jurisdiction and therefor, the said highway or any portion of the said highway that is to be discontinued ,should be under the auspices of the Windsor County (Superior) Court . I also feel that any unilateral discontinuance by a town of this highway (Bridgewater Hollow Road/Morgan Road) is invalid.

(continued on Page -9-)

SURVEYOR'S REPORT
(continued from Page -8-)

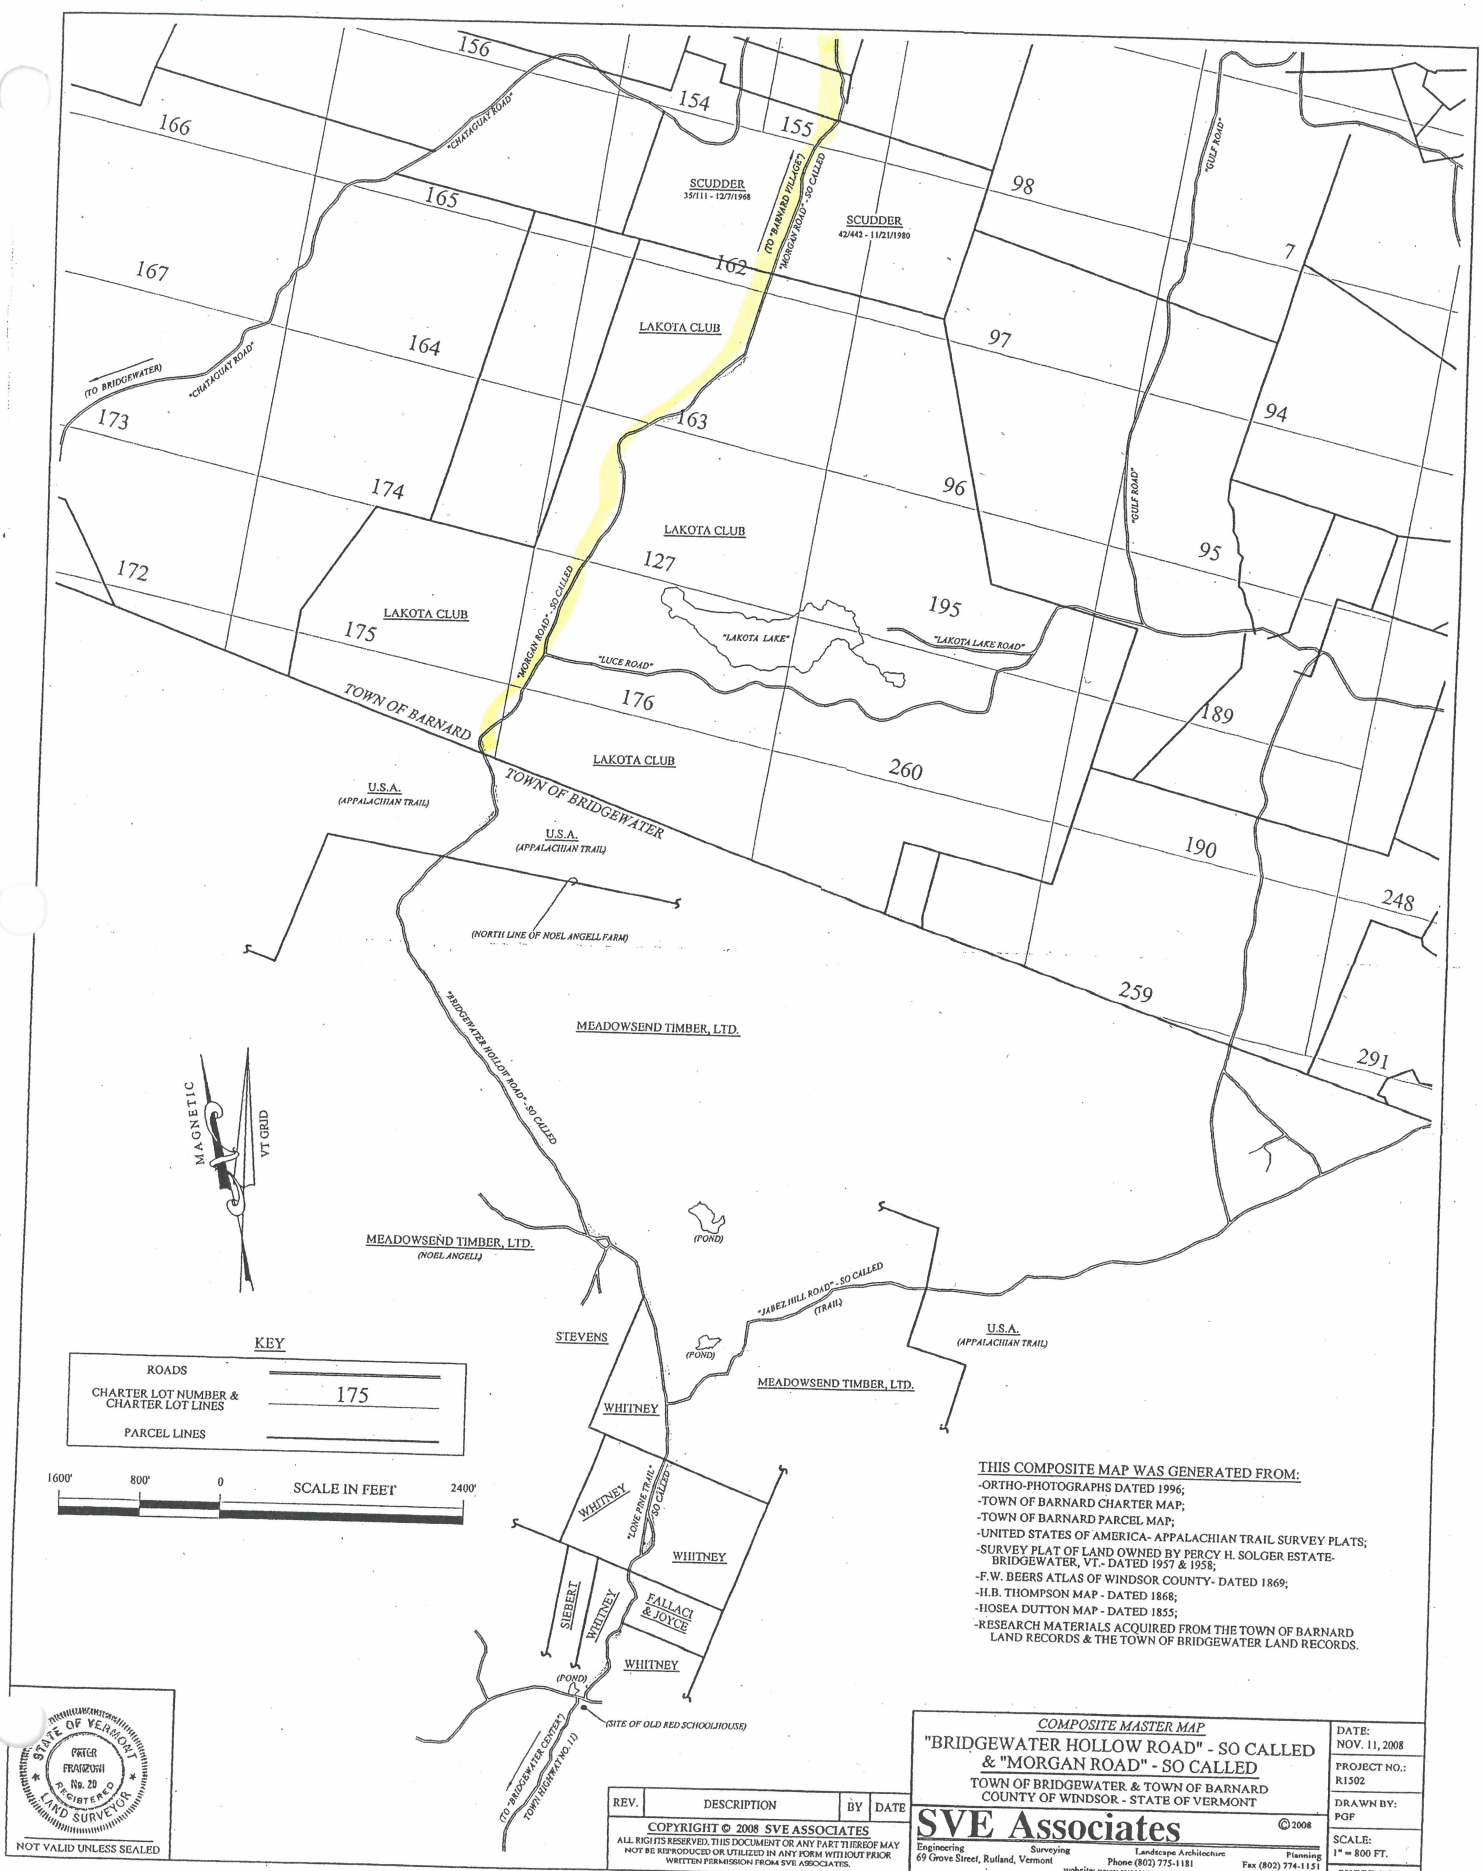

(B) It is also my opinion that the lower portion of The Bridgewater Hollow Road so-called and The Jabez Hill Road so-called as discontinued in 1920 by The Town of Bridgewater, [If not invalid based on my opinion above ,(A)] discontinued this road as a Town Highway, but based on the information as shown above in regards to a legal trail etc, I believe the intention of the Town of Bridgewater at that time (1920) was to keep these roads open to the public as a legal trail. The portion of the old Bridgewater Hollow Road, known as the Lone Pine Trail, from the area of the Red Schoolhouse northerly to the intersection or fork where the old Jabez Hill Road branches to the northeast has been depicted on Survey Plats, indicated in deeds and shown on the 1947 Town of Bridgewater Highway Map as a legal trail and or a trail. The portion of the Old Bridgewater Hollow Road , northerly of the intersection or fork where the Jabez Hill Road branches to the northeast , to the northerly property line of the old Noel Angell farm, apparently was never discontinued . The northerly property line of the old Noel Angell farm being contiguous with the property of the United States of America, (Appalachian Trail Corridor) it would appear that the public does have a right of way from the present termination of Bridgewater Town Highway No. 11, northerly on the old Bridgewater Hollow Road to the southerly property line of the United States Of America. (Appalachain Trail Corridor).

VERMONT WARRANTY DEED

Know all Men by these Presents
That We, James Roland Lombard and George Vernon Lombard of Farmington in the County of Hartford and State of Connecticut Grantors, in the consideration of One dollar and other valuable consideration paid to our full satisfaction by David W. Scudder and Marie Louise Scudder, husband and wife, of Ipswich Agilla Road in the County of Essex and State of Massachusetts Grantees, by these presents, do freely Give, Grant, Sell, Convey And Confirm unto the said Grantees David W. Scudder and Marie Louise Scudder, husband and wife, and their heirs and assigns forever, a certain piece of land in Barnard in the County of Windsor and State of Vermont, described as follows, viz:

Being all and the same land and premises conveyed to James Roland Lombard and George Vernon Lombard by warranty deed of Francis J. Campbell and Emma W. Campbell dated December 1, 1941 and recorded December 6, 1941 in Book 29 at Page 159 of Barnard Land Records, wherein the land and premises hereby conveyed is described as follows:

"The so-called Aldrich, or Thomas Carlin farm, of about fifty acres, be the same more or less, and situated on the road which leads from Barnard to Bridgewater, and being all and the same land and premises conveyed to the said Town of Barnard by warranty deed of William A. Aldrich executed January 26, 1938 and recorded in Book 28 page 163 of Barnard Land Records to which and to preceding deeds as shown in said records reference may be had for a more particular description. This deed is given and accepted subject to such rights and easements; if any, as may appear of record.

This same land and premises were conveyed to me, said Francis J. Campbell, by warranty deed from Town of Barnard dated November 8th 1941 and recorded Book 29, page 156 of Barnard Land Records."

To Have and to Hold said granted premises, with all the privileges and appurtenances thereof, to the said Grantees David W. Scudder and Marie Louise Scudder, husband and wife, as tenants by the entirety, and their heirs and assigns, to their own use and behoof forever; And we the said Grantors James Roland Lombard and George Vernon Lombard for ourselves and our heirs, executors and administrators, do covenant with the said Grantees David W. Scudder and Marie Louise Scudder, husband and wife, and their heirs and assigns, that until the ensealing of these presents we are the sole owners of the premises, and have good right and title to convey the same in manner aforesaid, that they are Free From Every Encumbrance; excepting as aforesaid, and we do hereby engage to Warrant And Defend the same against all lawful claims whatever, excepting as aforesaid.

Know all Men by these Presents

That We, Ralph J. Ward and Doris H. Ward, and Victor Ward as joint tenants

of Bethel in the County of Windsor and State of Vermont Grantor s, in the consideration of One Dollar ($1.00) and other good and valuable consideration--~~Dollars~~ paid to our full satisfaction by David W.Scudder and Marie Louise Scudder, husband and wife

of Ipswich in the County of Essex Commonwealth and ~~State~~ of Massachusetts Grantees, by these presents, do freely **Give, Grant, Sell, Convey and Confirm** unto the said Grantee s David W. Scudder and Marie Louise Scudder

and their heirs and assigns forever, a certain piece of land in Barnard in the County of Windsor and State of Vermont, described as follows, viz:

Being all and the same land and premises having been conveyed to the within Grantors by Warranty Deed of Alice Louise Washburn now Alice L. Williams and Mildred Lillian Washburn said deed having been dated January 6, 1978 and having been recorded on February 6, 1978, in Book 40, at Page 417 of the Barnard Land Records, and is therein more particularly described as follows:

"Being a parcel of land conveyed to us as fifty (50) acres now believed to contain approximately sixty four and eight tenths (64.8) acres after survey, situated southerly of but not adjacent to Chateauguay Road, so-called, Barnard and being all and the same lands and premises conveyed to us by the Quitclaim Deed of Charles H. Kidder and A.N. Washburn dated February 25, 1919 and recorded in Book 26, Page 434 of the land records of Barnard, Vermont, to which deed, prior deeds therein mentioned and said Barnard Land Records reference may be had in aid of this description.

This parcel is further described as being the southeast one-half of lot #162 as shown on the plan of lots filed in the Office of the Barnard Town Clerk.

These premises are bounded and described in accordance with a survey map of Leslie F. Newall done in 1957 and entitled "Mrs.Alice L. William's Land in Barnard Chateauguay" as follows:

Commencing at a yellow birch tree marked for a corner at the end of a stone wall near the southeasterly side of an old highway, which old highway leads southwesterly from said Chateauguay Road; thence

This survey not of record

south 58°30' east following said stone wall and in continuation thereof a blazed line along common boundary with lands now or formerly of International Paper Company approximately 108 rods to a post set in the ground; thence south 31°30° (sic) west following a marked line along common boundary with lands now or formerly of Pearsons approximately 96 rods to a stake and stones set in the ground; thence north 58°30' west following a marked line along common boundary with lands now or formerly of Lakota Club approximately 108 rods to a stone on end in a stone wall near the southeasterly side of said old highway; and thence north 31°30' east following a marked line near the southeasterly side of said old highway approximately 96 rods to the point and place of beginning."

Reference is had to the within described deeds and survey and to the Land Records of the Town of Barnard in aid of this description.

BARNARD

gulf and it was a distinct advantage for him to have the road as at present and perhaps the town took the position that advantage was so great as to compensate him for his work.

In the early days the meetinghouse "at the spruce tree where the town makes the center" was the center of all civil and religious life and the roads radiated from that place like the spokes from the hub of a wheel. A road, now long abandoned, started from the old town meetinghouse on the common and running almost directly east came out on the old turnpike road and a branch of this road swerved south around the hill by the Gen. Joseph Foster farm and on to South Barnard. A part of this latter road is still used, but the part from the common on to the Foster road has been long unused.

Two roads, now abandoned, connected the north road with the road on the creek. One started in the Stevens dooryard a little south of the Methodist cemetery and followed the Dean Brook, by the Dean and Belding farms and came out nearly opposite the present creek schoolhouse. The other road started a little north of the Methodist cemetery, went down by the Chamberlin farm, turned northwest by the Fairbanks farm and came out on the creek at the hamlet of Newcombsville. A part of this last road from the Kenney or Fairbanks place to the creek is still used.

Many roads in the upper Chateauguay section of the town have been abandoned as the farms have become tenantless. One of these roads ran along on the height of land between the creek valley and the gulf road and extended on into Bridgewater. Another of these roads went over the Delectable Mountains to the old No. 2 school district and on down Stony Brook in Stockbridge roughly parallelling the present road over Smith Hill to the same destination.

Roads in the northwest section of the town have also been abandoned. The road starting from near the old mill privilege on the creek at Newcombsville once continued on to the Mount Hunger road while at another and earlier time a road further to the north also branched off and came on to the same road on Mount Hunger.

The pent rod starting near the old Timothy Newton log house on the creek and going toward the west is now unused as far as the site of the second house, the residents there preferring

BRC-105 known as "Bridgewater Hollow Road" starts at a point on TH 52 (Morgan Road) located 1.2 miles south of the intersection of Morgan Road and TH-51 (Bennett Road) and extends southerly 2.145 miles to the Bridgewater Town Line and lands of the Appalachian Trail Corridor.

Original Laying Out: Not found

This road is currently under litigation (Windsor Superior Court Docket No: 565-11-05 Wrev)

A Surveyors Report by Peter Franzoni dated 11-11-08 is attached.

Evidence of this road includes:

1. The focus of the above litigation is not the existence of this road in Barnard (which in court documents is unfortunately referred to as "Morgan Road") but rather whether the 1920 discontinuance of this road in Bridgewater was proper. The fact that Bridgewater (properly or improperly) discontinued the road argues for existence of the road in Barnard.
2. This road is mentioned in the laying out and survey of "Luce Pond Road" in 1885 (Barnard Road Book page 80; see documentation for BRC-104) where the point of beginning is described as "Beginning at a point in the Highway that leads from Bridgewater Hollow so called to the Village in Barnard."
3. This road is mentioned as a dividing line between parcels conveyed by Lombard to Scudder (Book 35, Page 111, circa 1968 and earlier) and Ward to Scudder (Book 42, Page 442, circa 1980 and earlier); copies attached.
4. This road is shown on the 1856 Windsor County (Doton) Map, copy attached.
5. This road is mentioned in the *History of Barnard, Vermont* at page 196, copy attached.

STATE OF VERMONT
COUNTY OF WINDSOR, SS.

WINDSOR SUPERIOR COURT
DOCKET NO: 565-11-05 Wrcv

MICHAEL JOYCE, GREG FAILLACI, and the TOWN OF BARNARD,
Plaintiffs

v.

IRA STEVENS, et al,
Defendants

OPPOSITION TO DEFENDANTS' MOTION FOR SUMMARY JUDGMENT

Plaintiffs oppose Defendants' Motion for Summary Judgment with the following arguments:

1. Burden of Proof

The Town of Bridgewater argues incorrectly that Plaintiffs have the burden of reviewing the Town's records and establishing the legal existence of the Upper Bridgewater Hollow Road. (See Town's Motion at 2.) The Town makes this argument despite the fact that it has failed to maintain its Highway records for decades, if not centuries, in violation of its statutory duties and has failed to reconstruct its Highway records that have been lost or destroyed. (See Plaintiff's Statement of Undisputed Fact ¶¶5, 3 & 4.)

The Town's burden of proof argument fails as a matter of Law. *McAdams*, 2007 VT 61, ¶13. ("In an action to quiet title, the plaintiffs have the burden of proof and must make out a prima facie case of title. If the plaintiffs make out a prima facie case, the defendants then have the burden of proving superior right or title in themselves. The burden was thus fairly placed on the Town to review its own records and discern whether

any roads existed.") *McAdams* shifts the burden to the towns because of the decrepit condition of many town road records: "difficulty in determining whether abandoned roads still legally exist stems from inconsistent, and sometimes incomprehensible, town records dating back two centuries or more." (Id at ¶ 13.)

Here, Joyce and Faillaci have proved their title to their second home and that they will be landlocked if the if the Bridgewater Selectboard lawfully discontinued the Bridgewater Hollow Road in 1859 and 1920. (Undisputed Fact ¶¶ 30-32.) The Town of Barnard has established the Morgan Road in Barnard, which connects to the Bridgewater Hollow Road in Bridgewater, is a Class 4 Town Highway. (Undisputed Fact ¶33.)

The Town now has the burden to review its own records and discern whether the Upper Bridgewater Hollow Road legally exists regardless of whether that road burdens the Plaintiff's property with a superior estate, or, as here, the road is allegedly discontinued so as to land lock Plaintiff's property and deprive the Town of Barnard of a through road. The Town has the burden so long as it derives its right from a recorded document in its Land Records (i.e. the 1859 and 1920 recorded road discontinuances) that may "injuriously or vexatiously affect or embarrass the owner's title." *McAdams*, 2007 VT 61, ¶10.

The Town of Bridgewater had a duty to record any selectmen or court order laying out or altering a highway together with a survey thereof in the town clerk's office under the Highway Law in effect in 1859 and 1920. See Title XII, Chap. XXII §14 of the 1850 Compiled Statutes of the State of Vermont (Exhibit 18) and Title 21, Chapter 191 §§4393 & 4398 of the 1917 General Laws of Vermont. (Exhibit 19) The Town should suffer the consequences of its failure to maintain its road records by not being able to

carry its burden. It would be inequitable to penalize the Plaintiffs for the Town's record keeping failure. See generally, *Lyndonville Nat. Bank v. Fletcher,* 68 Vt. 81, 34 A. 38, 39 (1895) ("when a mistake has been made, from which one of two innocent parties must suffer, he must suffer who made the mistake.") Accord, *Jipac, N.V. v. Silas,* 174 Vt. 57, 68, 800 A.2d 1092,1100 (2002) ("courts will afford relief from illegal contracts 'where equity requires it, to the more innocent party even after the agreement has been executed.' ")

2. Requirements for Creating a Legal Road

Defendants' incorrectly argue there is no evidence in the Record that establishes the Upper Bridgewater Hollow Road was laid out in a statutory proceeding or through dedication and acceptance. (See Defendants' Motion at 4-5.)

Statutory Proceeding

There are no known town or county records of the laying out of the Morgan Road in Barnard or the Bridgewater Hollow Road in Bridgewater. (Undisputed Fact ¶4.) The Bridgewater Highway Book is missing and appears to have been missing for decades, if not centuries. (Undisputed Fact ¶¶5-4.) The public and ancient records attached to the Franzoni Report and the documents produced by the Town of Bridgewater in discovery comprise all the documents known to the parties that in any way concern or relate to the laying out, existence or discontinuance of the Morgan Road in Barnard or the Bridgewater Hollow Road in Bridgewater. (Undisputed Fact ¶8.)

Defendants do not dispute the authenticity or accuracy of the public records, 19th Century maps and other ancient records attached as exhibits to the Franzoni Report, just

the legal conclusions Mr. Franzoni draws from those exhibits. (Undisputed Fact ¶¶10-11.)

However, there is ample circumstantial evidence the Morgan Road in Barnard and the Bridgewater Hollow Road in Bridgewater were laid out as one county road because the road extends on the ground through two or more towns in Windsor County. The relevant statute in 1859 for laying out or discontinuing a road that extends into two or more towns is Chapter 22, Section 43, of the 1850 Compiled Statutes of the State of Vermont. (Exhibit 20) This law reads as follows:

> **"Sect. 43. When the public good shall require a highway to be laid out, altered or discontinued, extending into or through two or more towns in the same county, application may be made therefor, by seven freeholders or such town or the vicinity, to the county court, and such court by commissioners appointed for that purpose, may make inquiry and make order and render judgment in all things, as when the highway shall be located in only one town; and the same proceedings shall be had in all things, except that the notices required to be given shall be given to the selectmen of each town . . ."**

The Undisputed Facts that compel this "county road" conclusion are: (1) there is a road on the ground that runs between Bridgewater Hollow in the Town of Bridgewater and the Village of Barnard in the Town of Barnard, (2) the Road depicted on Exhibit 2 is described in contemporaneous deeds and surveys in the Barnard and Bridgewater Land Records circa 1855 to 1861 as a highway running between the Towns of Bridgewater and Barnard, (3) the Road depicted in Exhibit 2 is shown on the H.B. Thompson Map-Dated 1868 and the Hosea Dutton Map-Dated 1855 connecting the Town of Bridgewater and Barnard, (4) there are references in the Bridgewater Town Meeting Records from 1795, 1844 and 1845 to <u>other</u> roads running between Bridgewater and Barnard as being laid out

by: "a committee appointed by the county court," "a County Committee," or the "Courts Committee," and (5) the Town of Barnard maintains the continuation of the Bridgewater Hollow Road in Barnard (i.e. Morgan Road) as a Class 4 Town Highway. (Undisputed Fact ¶¶27, 12-26.)

Based on these Undisputed Facts, the Court may presume the Bridgewater and Barnard Selectboards followed the law and deferred to the County Court Commissioners for the laying out of the Morgan Road in Barnard and the Bridgewater Hollow Road in Bridgewater. *Traders, Inc. v. Bartholemew*, 142 Vt. 485, 489 (1983). ("The action taken by selectmen in the scope of their official duties is presumed regular and in accordance with statutory requirements.")

The Court may conclude from these Undisputed Facts the Morgan Road in Barnard and the Upper Bridgewater Hollow Road in Bridgewater shown on Exhibit 2 is a county road laid out by County Commissioners no later than 1855 as shown on the Dutton Map. (Undisputed Fact ¶¶14-16.) This conclusion is compelled by the fact the Barnard and Bridgewater Selectboards could not circumvent the jurisdiction of the county court and confer jurisdiction upon themselves by each laying out their respective parts of the Morgan and Bridgewater Hollow Roads in their respective towns. *In re Mattison,* 120 Vt. 459, 463 (1958). ("Jurisdiction may not be conferred by splitting such a[n] indivisible matter into several units.")

Finally, the Town's 1859 and 1920 attempted discontinuance of the Upper Bridgewater Hollow Road is at the very least an evidentiary admission by the Town the Upper Bridgewater Hollow Road existed as a legal Town Highway, otherwise the Town would have had no reason to formally discontinue it under the 1859 and 1920 Highway

Law. Only a legal highway may be discontinued under the Highway Law. See generally, *Traders, Inc. v. Bartholemew*, 142 Vt. at 489 ("The action taken by selectmen in the scope of their official duties is presumed regular and in accordance with statutory requirements.)

More likely, the Town of Bridgewater is bound by the judicial admissions it made in its 1859 and 1920 quasi judicial discontinuance proceedings and cannot now claim the Upper Bridgewater Hollow Road was never a Town Highway. *Trotier v. Basset,* 174 Vt. 520, 521-522, 811 A.2d 166,168-169 (2002) ("A judicial admission is testimony to a fact which is within the witness's personal knowledge and which meets the following requirements: (1) the statement must be clear; (2) it must be an unequivocal concession of fact; (3) the statement must be absolute and without qualification; (4) it must be made for the express purpose of dispensing with formal proof of one of the facts in issue; and (5) the party testifying must not have made any effort to retract, qualify, or otherwise explain the positive force of the evidence.") See also, *In re Bill*, 168 Vt. 439, 442 (1998). ("Nonetheless, because the selectboard of a town constitutes an inferior tribunal with certain quasi-judicial powers, when a selectboard acts outside its statutory authority with respect to a discontinuance, the defect is akin to a lack of jurisdiction over the subject matter.")

The Town of Bridgewater's April 26, 2005 NOTICE OF DECISION is another evidentiary or judicial admission the Lone Pine Trail section of the Upper Bridgewater Hollow Road is a legal Town Highway that was allegedly discontinued in 1920. The Town's NOTICE OF DECISION, unlike the Town's present argument, does not claim

the Upper Bridgewater Hollow Road never existed as a legal Town Highway. (See the attached Exhibit 26.)

Dedication and Acceptance

The controlling Highway Law in 1859 clearly states that a road running through two or more towns in the same county must be laid out by County Court Commissioners. Chapter 22, Section 43, of the 1850 Compiled Statutes of the State of Vermont. (Exhibit 20) The selectboards of two or more towns in the same county could not circumvent County Court jurisdiction by acting in concert to lay out a road running through their respective towns. *In re Mattison,* 120 Vt. at 463. It follows that those same selectboards could not circumvent County Court jurisdiction by acting in concert to establish a through road by dedication and acceptance.

Nonetheless, the undisputed facts in the Record that relate to Defendants "Dedication and Acceptance" argument are relevant and material to proving the legal existence of the Bridgewater Hollow Road, an undeniable fact the Defendants strenuously deny.

For example, the Affidavits of Nelson Lee and Charles Asbury show the Defendant landowners abutting the Lone Pine Trail section of the Upper Bridgewater Hollow Road, and their predecessors in title, have dedicated that section of the Lone Pine Trail by acquiescing to the public's use since at least the 1940s. (See Plaintiffs' Statement of Undisputed Facts ¶¶34 & 35 and Exhibits 16 & 17 attached thereto.) The Town of Bridgewater has "accepted" that dedication of the "Lone Pine Trail" section of the Upper Bridgewater Hollow Road by depicting it as a legal trail on the 1947 and 1979 Bridgewater Town Highway Maps. (See Franzoni Report at pages 5 & 9 marked as

Defendants' and Plaintiffs' Exhibit 1; see also the 1947 Bridgewater Town Highway Map attached to Plaintiffs' Exhibit 1.)

Finally, the Town of Bridgewater's acceptance of the Bridgewater Hollow Road dedication is shown by the H.B. Thompson Map- Dated 1868 and the Hosea Dutton Map- Dated 1855 which were prepared at the Town of Bridgewater's request to index what was in the Town as far as highways and dwellings were concerned. According to Mr. Franzoni: "They measured what the Town asked them to do." (See 1855 & 1868 Maps attached to Plaintiffs' Exhibit 1; see also Plaintiffs' Statement of Undisputed Facts ¶¶24, 12-16, and Franzoni Depo. at 31, L.25 to 33, L.23.)

Accord, *South Hero v. Wood* , 2006 VT 28 ¶¶10-11 ("Dedication of a roadway requires both an offer to dedicate the land and an acceptance of that offer . . . . For example, [l]ong acquiescence in use[ ] by the public, if the attending circumstances clearly indicate an intent by the owner to devote the land to public use, is evidence upon which a dedication may be predicated. This follows because the 'theory underlying dedication is that owner-permitted use of private property by the public creates . . . an expectation of continued use that estops the owner from preventing it'.")

These undisputed facts are more relevant as circumstantial evidence of the statutory laying out of the Upper Bridgewater Hollow Road, but they also disprove Defendants' claim there is no evidence to establish the Road by Dedication and Acceptance.

3. The Town of Bridgewater Has Not Met Its Burden

The Plaintiffs have established their title and the burden now shifts to the Town of Bridgewater to show the Upper Bridgewater Hollow Road never legally existed as a

Town Highway or was legally discontinued. Based on the Undisputed Facts and the Town's evidentiary and judicial admissions, the Town has failed to prove the Upper Bridgewater Hollow Road never legally existed. The public record and ancient maps simply do not support that conclusion of law. The Town did not even bother to address the validity of the 1859 and 1920 discontinuances having based its entire Summary Judgment Motion on the claim the Bridgewater Hollow Road was never a legal Town Highway in the fist place. Plaintiffs deal with the invalidity of the 1859 and 1920 discontinuances at Arguments 4 & 5 of its Summary Judgment Motion. The Court should deny the Defendants' Summary Judgment Motion and grant the Plaintiffs' Summary Judgment Motion accordingly.

Conclusion

The Town of Bridgewater has the burden of proving it lawfully discontinued the Bridgewater Hollow Road in 1859 and 1920 and it cannot meet that burden for the reasons discussed. The Court should grant Plaintiffs' summary judgment motion and declare:

> (1) The Lone Pine Trail section of the Upper Bridgewater Hollow Road was improperly discontinued by the Bridgewater Selectmen in an Order of Discontinuance dated October 18, 1920 and recorded in Book 27 at Page 411 of the Bridgewater Land Records.
>
> (2) The remainder of the Upper Bridgewater Hollow Road was improperly discontinued by the Bridgewater Selectmen in an Order of Discontinuance dated November 21, 1859 and recorded in Book 17 at Page 131 of the Bridgewater Land Records.
>
> (3) The entire Upper Bridgewater Hollow Road, starting at the end of Town Highway No. 11 by the site of the old red school house and running northerly past where the Jabez Hill Road branched off the Upper Bridgewater Hollow Road and headed to the north east, and continuing northwesterly to the southerly boundary of the Appalachian Trail Corridor owned by the United States, is an open Class IV Town Highway in the Town of Bridgewater.

(4) That the newly erected gate across the Lone Pine Trail section of the Upper Bridgewater Hollow Road is blocking an open Class IV Town Highway and must be removed.

(5) In the alternative, if the Court determines the Bridgewater Selectboard lawfully discontinued the Upper Bridgewater Hollow Road in the Town of Bridgewater in 1859 and 1920, then Plaintiffs Joyce & Faillaci have reasonable and convenient access over that discontinued road through a common law private right of access from their property to Town Highway #11 in the south and to the southerly boundary of the Appalachian Trail Corridor in the north.

(6) That Joyce & Faillaci shall have reasonable and convenient access along the Upper Bridgewater Hollow Road in either direction through all mechanized and non- mechanized means of ingress and egress to their residential property including, but not limited to, hiking, biking, skiing, snowshoeing, horseback, ATV, motorcycle, snowmobile, car, truck or other kinds of two or four wheel drive motor vehicles.

(7) That the scope of Joyce & Faillaci 's common law private right of access over the Upper Bridgewater Hollow Road extends to Joyce & Faillaci and their executors, heirs and assigns and to their social quests and invitees, but not to the general public, VAST members, or other business invitees who pay Plaintiffs for access over the discontinued road.

DATED at Rutland, Vermont this 8th day of September 2009.

SURVEYOR'S REPORT
THE BRIDGEWATER HOLLOW ROAD so-called
BRIDGEWATER VERMONT
&
THE MORGAN ROAD so-called
BARNARD, VERMONT

This highway originally extended from the northerly line of the Woodstock Stage Road (now U.S. Route # 4) in Bridgewater Village in a general northerly direction to its intersection at School #5 (red school house) with the Bridgewater Hollow Road so-called (this portion of the highway was later discontinued or abandoned in favor of the better route or highway through Bridgewater Hollow). The highway then continues in a general northerly direction (passing the Jabez Hill Road, which branches to the northeast) on past the farm of Noel Angel to the town line between Bridgewater, VT. and Barnard, VT. This highway then continues in a general northerly direction, easterly of the Chataguay Road so-called and westerly of Lakota Lake (formerly known as Luce Pond) and along the height of land between the said Chataguay Road and the Gulf Road on into Barnard Village.

This highway was later mentioned in the laying out and survey of the Luce Pond Road so-called in 1855 (Barnard Highway Book – Page 80). Which highway ran or runs from the Morgan Road so-called in an easterly direction around the southerly side of Luce Pond. (This road or highway was most likely altered, do to the damming and considerable expansion of the pond at a future date).
:Beginning at a point in the highway leading from Bridgewater Hollow so-called to the village in Barnard ; 3 rods and 3 links southerly of the bridge where the said road crosses a small brook that empties into the northwesterly side of Luce Pond; thence..., etc.(Luce Pond latter became known as Lake Lakota).

In the Town of Barnard: – Tax Parcels 7-670-1 & 7-670-2 comprise the original charter lot # 162 and is now or formerly the property of Scudder. The Morgan Road splits this original lot roughly in half and the subject road is mentioned in several deeds. Scudder bought this land in two different purchases and the property is comprised of two different chains of title. One parcel being on the east side of the Morgan Road and the other parcel being on the west side of the said Morgan Road. The property abutting to the south of the Scudder property, which extends southerly to the Barnard – Bridgewater Town Line is owned by the Lakota Club. In the portions of the Lakota Club property which we have researched, the chain of title brings us back to the original Barnard charter lots or a portion thereof. The Morgan Road which runs through this property was never a boundary and there for was never mentioned in any of these deeds.

(continued on Page -2-)

SURVEYOR'S REPORT
(continued from Page -1-)

SCUDDER PROPERTY EAST OF THE MORGAN ROAD

Deed of Ralph J. & Doris H Ward to David W & Marie Scudder (Bk. 42 Pg. 442 – Nov. 21,1980) **"The property on the southeasterly side of the old highway leading southwesterly from the Chateauguay"**

Deed of Alice Louise (Washburn) Williams & Mildred Lillian Washburn to Ralph H. & Doris H Ward (Bk. 40 Pg. 417 – Jan. 6, 1978) **"The property located on the southeasterly side of the old highway leading southwesterly from the Chateauguay Road".**

SCUDDER PROPERTY WEST OF THE MORGAN ROAD

Deed of James Roland Lambard and George Vernon Lambard to David W.. & Marie Louise Scudder (Bk. 35 Pg. 111 – Dec. 7, 1968) **"The Aldirch or Carlin farm on the road from Barnard to Bridgewater".**

Deed of William A Aldrich to the Town of Barnard (Bk. 28 Pg. 163 – Jan. 26, 1938) **"The Thomas Carlin Place situated on the road between Bridgewater and Barnard".**

This highway (Morgan Road so-called) is also mentioned in a book entitled: HISTORY OF BARNARD, VERMONT as published by the VERMONT HISTORICAL SOCIETY for the period 1761 – 1927. **"Many roads in the upper Chateauguay section of the town have been abandoned as the farms have become tenantless. One of these roads ran along the height of land between the creek valley and the gulf road and extended on into Bridgewater"**

In our research in the Land Records at the Barnard Town Clerks Office we were able to find several highway layouts and surveys that ether begin at the Bridgewater Town Line and extended northerly or begin northerly of the said Town Line and extended southerly and terminated at the Bridgewater Town Line. However, none of these highway surveys agreed or matched the location or configuration of the Morgan Road so-called. As for that matter, nether did these highway surveys agree or match the location or configuration of the Chataguay Road so-called (which is a class 4 Town Highway in Barnard as well as Bridgewater) which extends through Bridgewater and well into Barnard and is located to the west of the so-called Morgan Road.

(continued on Page -3-)

SURVEYOR'S REPORT
(continued from Page -2-)

The upper or most northerly portion of the Bridgewater Hollow Road in the Town of Bridgewater was discontinued by the selectmen of that town on November 21,1859 as recorded in the Bridgewater Land Records in Book 17 @ Page 131. This discontinuance appears to have been done unilaterally by the Bridgewater selectmen. In our research in the Town of Barnard and also in the Windsor County Court Records, we were not able to find any similar discontinuance of an extension of this highway (Bridgewater Hollow Road – Morgan Road) into the Town of Barnard. This highway (upper or most northerly portion of the Bridgewater Hollow Road) was discontinued by the Bridgewater selectman under the following description. **"This certifies that the road running from Noel Angells to Barnard is discontinued and set over to the farms from which they were taken originally".** This description is ambiguous; it does not clarify as to where this discontinuance begins. Does the discontinuance begin at Noel Angell's dwelling or at his northerly property line? According to the H. B. Thompson Map, Dated 1868 and also the Hosea Dutton Map of 1855, Noel Angell's dwelling is approximately 2,200 feet above or northwesterly of the fork in the Bridgewater Hollow Road (by scale), where the Jabez Hill Road branches to the northeast. Noel Angell's north property line is by record description approximately 100 rods southerly of the Barnard Town Line, which places his north property line about 6,100 feet northwesterly of that same fork in the highway where the Jabez Hill Road branches to the northeast.

On Oct. 18, 1920 as recorded in the Bridgewater Land Records in Book 27 @ Page 411, the Selectmen of the Town of Bridgewater discontinued a portion of the Bridgewater Hollow Road and the Jabez Hill Road under the following description: The Selectman decided to discontinue the hereinafter specified portion of the highway in Bridgewater, Vermont and the same are discontinued. **"Commencing at the turn in the road leading from the main road through Bridgewater Hollow, so-called to buildings now owned by Ernest Adams and occupied by Joseph Adams; thence easterly by the red schoolhouse and northerly and easterly through a part of Bridgewater Hollow and over Jabez Hill, so-called to the road that leads to the Jabez Maxham place now owned by Stephen Townsend."**

It is apparent from the readings of the 1859 discontinuance description and the 1920 discontinuance description, that the portion of the Bridgewater Hollow Road, from the fork in the highway where the Jabez Hill Road branches to the northeast, to the former dwelling of Noel Angell (about 2,200 feet) and/or to the northerly property line of the former Noel Angell property (about 6,100 feet) **was never discontinued.**

STATE OF VERMONT

WINDSOR COUNTY, SS.

BYRON K. KELLY, SR. and BYRON K. KELLY, JR.	)	
v.	)	WINDSOR SUPERIOR COURT CIVIL ACTION DOCKET NO. S246-85WrC
TOWN OF BARNARD, JOHN GENCO and RUTH GENCO	)	

DECISION

This case came before the Court on December 26, 1985 on Plaintiff's Motion for Summary Judgment and on February 21, 1986 on Defendant's, Town of Barnard, Motion for Summary Judgment. Both Motions were denied by this Court on April 10, 1986. On May 30, 1986, the Plaintiffs filed a Motion to Reconsider the Court's Order dated April 10, 1986, denying Plaintiffs' Motion for Summary Judgment. After reconsideration of the Plaintiffs' and Defendants' Memoranda and Affidavits, and applicable statutory and case law, this Court concludes that partial summary judgment for the Plaintiffs is appropriate.

The Plaintiffs, by a Complaint filed September 18, 1985, requested that this Court declare "Wheat Road" a public highway and further order that it be kept in good repair by the Town of Barnard, or, in the alternative, permit Plaintiffs to do so and receive reimbursement from the Town of Barnard. The Plaintiffs further requested that Defendants, Ruth and John Genco, be permanently enjoined from interfering with the Plaintiffs use of "Wheat Road" as a town highway and pay actual damages sustained by the Plaintiffs as a result of their threatened actions against Plaintiffs should they attempt to use "Wheat Road". Plaintiffs by

WINDSOR COUNTY CLERK

access by road to their property is over "Wheat Road".

It is undisputed that "Wheat Road" was "properly laid out" in 1816 by making a survey of "Wheat Road" with reference to "gates and bars", and recording it in the Town of Barnard Clerk's Office in 1817. Defendant, Town of Barnard, argues that although "Wheat Road" was properly "laid out", the road was never "opened" by the town, a legal and technical step first required by Act Number 10 of 1820. See 1824 Laws of Vermont, Ch. LIII, No. 10, § 2 at 443; current law at 19 V.S.A. § 349. This Act reads, in relevant part:

> Sec. 2. And it is hereby further enacted, That, when the selectmen of any town shall open any road, heretofore, or hereafter, laid out, they shall cause a certificate thereof, signed by them, or a major part of them, to be forthwith recorded in the town clerk's office, in such town; and the day on which such certificate is recorded, shall be taken and deemed to be the time of opening such road.

The required certificate was never filed by Town of Barnard Selectmen with respect to "Wheat Road".

This Court concludes, however, consonant with Plaintiffs' Objections to Defendant Town's Motion for Summary Judgment, (March 14, 1986), that the above statutory requirement was applicable only to those roads "heretofore, or hereafter, laid out" which had not been "opened" prior to the statute's enactment in 1820. The Barnard Selectmen, in 1817, complied with the necessary statutory requirements to officially open "Wheat Road". Before 1820, the relevant statute, passed on March 3, 1797, read, in part:

> ... And every highway or road which shall in future be laid out or opened, shall be actually surveyed, and a survey thereof made out, entered and recorded, in the town clerk's office, where such highway or road lies, (and for want thereof, in the proprietor's clerk's office) ascertaining the breadth, course and distance of such road.

1 Laws of Vermont, Ch. XLV, "Of Highways", § 1 at 446 (1808), (emphasis added) (hereinafter referred to as Act of 1797).

Upon a presumption of the regularity of official acts, this Court concludes that "Wheat Road" was opened prior to 1820. See Bacon v. Boston & Maine Railroad, 83 Vt. 421, 433-34 (1910). The primary or best evidence that "Wheat Road" was opened, absent any evidence to the contrary, is the selectmen's recording of the survey, with a statement as to gates and bars in the Town Clerk's Office on January, 1817, in compliance with the then existing statute.

In further support, the Affidavit of Frank B. Lamson, a registered land surveyor in the State of Vermont, states that there exists a roadbed which closely follows the path of the "Wheat Road" survey as laid out in 1816 and filed in 1817. This is additional evidence that "Wheat Road" was not only "laid out", which means merely to survey the course of the road, see The State v. The Inhabitants of Brookfield, 2 Vt. 548, 553 (1830) (distinguishes a road "laid" from the duty to "make and open" said road) but that it was also "made" and therefore "opened" when the survey was recorded in the Town Clerk's Office in 1817. Many town selectmen were reluctant to make and open roads laid out (surveyed) by committees specially appointed by the Legislature or by county courts, which generally involved roads passing through more towns than one. See Patchen v. Morrison, 3 Vt. 590, 592 (1831). In this case, however, the selectmen, on their own assessment of need and without court or legislative order, laid out "Wheat Road" and presumably did not neglect to complete the project they initiated at the town's expense.

FILED
JUL - 3 1986
JANE W. NORMAN
WINDSOR COUNTY CLERK

In summary, the fact that a certificate of opening, under the Act of 1820, was never filed, is not evidence that the road was not opened prior to 1820; no certificate was required for previously opened town roads. No evidence has been offered that "Wheat Road" was merely "laid out" or surveyed and never "opened" before 1820. This Court may therefore rely upon the survey recorded pursuant to the Act of 1797, the existence of a roadbed, and a presumption of regularity of official acts to conclude that "Wheat Road" became a public highway in 1817, classified as a "pent road". The Town of Barnard has never discontinued "Wheat Road" in accordance with statutory provisions; "Wheat Road", therefore, is presently a public highway in the nature of a "pent road".

ORDER

For all the foregoing reasons, this Court declares that "Wheat Road" is a Class Four (4) public highway under the provisions of 19 V.S.A. § 17(a)(4); as such the Plaintiffs and general public are entitled to travel "Wheat Road" without interference.

DATED at Woodstock, in the County of Windsor and State of Vermont this 3rd day of July, 1986.

v.

Town of Barnard, John Genco and Ruth Genco

Supreme Court

On Appeal from
Windsor Superior Court

March Term, 1989

Alan W. Cheever, J.

Bourdon & Cullen, Woodstock, for plaintiffs-appellees

Rexford & Kilmartin, Newport, for defendants-appellants

PRESENT: Allen, C.J., Peck, Gibson, Dooley and Morse, JJ.

PECK, J. Defendants, John and Ruth Genco, appeal a superior court order granting summary judgment in favor of plaintiffs who claim that a road crossing defendants' property is a public road. We affirm.

On appeal, defendants, the Gencos, raise a host of challenges. The two primary claims are (1) that the trial court erred in granting summary judgment because genuine issues of material fact existed and because the legal theory applied by the court was erroneous, and (2) that not all necessary parties were joined.[1]

---

[1] Defendants also seek oral argument before this Court. Because the request was untimely, and because the Court considers the briefs adequate to determine the merits, permission to present oral argument is denied.

Plaintiffs, the Kellys, own property in the Town of Barnard. They claim that sole access to the property is by the Wheat Road, continuing as the Park Hill Road which crosses defendants' land. After the plaintiffs purchased the property, defendants told them that any use of the roads would constitute trespass, as the roads had been discontinued. Plaintiffs' initial requests to the Town to upgrade the roads or to allow them to repair the roads were denied, and this action was commenced in 1985.

Plaintiffs sought judgment declaring that Wheat Road and Park Hill Road are public roads which the Town has a duty to maintain and enjoining the Gencos from interfering with plaintiffs' use of the roads. The Town of Barnard and the Gencos were named as defendants. The central issue was whether Wheat Road and Park Hill Road were properly laid out and opened in 1816 and 1788.

Plaintiffs and the Town sought summary judgment and both motions were initially denied; however, following plaintiffs' motion to reconsider, the trial court granted summary judgment in favor of plaintiffs, ruling that Wheat Road is a class 4 public highway and that plaintiffs and the public are entitled to use the road. An amended complaint added Park Hill Road, and the trial court granted a further motion for supplemental summary judgment, declaring that road a public highway. Plaintiffs and the Town supplemented both motions with affidavits and memoranda. The Gencos submitted no materials in response. Thereafter, the plaintiffs and the Town reached an agreement dismissing the action pertaining to the Town, and acknowledging the continuing force and effect of the two summary judgment orders declaring Wheat Road and Park Hill Road public highways. After a teleconference hearing, the trial court made final disposition of the case

by ordering that the prior summary judgment orders should be of "continuing force and effect," that all pending equitable claims were withdrawn without prejudice to the plaintiffs, and that all pending claims for damages were dismissed with prejudice. The Gencos filed a motion to alter, amend and strike orders and judgment orders. The trial court denied the motion. This appeal followed.

I.

When reviewing a motion for summary judgment, we apply the same standard the trial court used in ruling on the motion. Morrisville Lumber Co. v. Okcuoglu, 148 Vt. 180, 182-83, 531 A.2d 887, 888-89 (1987). To prevail, the moving party must satisfy a two-part test. They must establish that no genuine issues of material fact exist, and that the motion rests on a valid legal theory that entitles them to judgment as a matter of law. V.R.C.P. 56(c). Both in the trial court and on appeal, the moving party bears the burden of proof. Price v. Leland, 149 Vt. 518, 521, 546 A.2d 793, 796 (1988).

At the outset, we note that the Gencos provided the trial court with no evidence to counter the plaintiffs' affidavits in support of summary judgment. Plaintiffs filed two motions for summary judgment, both supported by affidavits and legal memoranda. Neither motion was opposed by the Gencos. "Nothing in our case law or the language of Rule 56" requires an adverse party to file an affidavit in opposition to a summary judgment motion. Bingham v. Tenney, ___ Vt. ___, ___, 573 A.2d 1185, 1187 (1990). However,

> [w]hen a motion for summary judgment is made and supported as provided in [Rule 56], an adverse party may not rest upon the mere allegations or denials of the adverse party's pleading, but the adverse party's

> response, by affidavits or as otherwise provided in this rule, must set forth specific facts showing that there is a genuine issue for trial. If the adverse party does not so respond, summary judgment, if appropriate, shall be entered against the adverse party.

V.R.C.P. 56(e); see Gore v. Green Mountain Lakes, Inc., 140 Vt. 262, 266, 438 A.2d 373, 375 (1981).

A.

Defendants' first claim of error is that there existed a genuine issue as to the existence of Wheat Road and Park Hill Road and the location of the roads. They also argue that whether Wheat Road and Park Hill Road are public highways is a mixed question of law and fact and that the court engaged in fact finding when it decided the status of the roads. Therefore, they conclude, summary judgment was inappropriate. We disagree.

In both cases, the only issue which the court decided when it granted summary judgment was whether the road in question was a public highway. The court based its decisions on the following facts: (1) Wheat Road and Park Hill Road exist, and have existed since the early 19th century, and (2) Wheat Road was surveyed in 1816 and recorded in 1817, and Park Hill Road was surveyed and recorded in 1788.

At the time the court granted the motions for summary judgment it had before it the following materials:

> 1. affidavits from John Dutton, a surveyor who had conducted extensive boundary and highway research in the Town of Barnard, stating that he had examined the Barnard Land Records and the area of the disputed roads in 1985 and had uncovered (a) a survey of the Wheat Road dated September 17, 1816 and recorded in the Barnard Land Roads and Villages Book at Page 39 on January 1, 1817, and (b) a survey of the Park Hill Road dated September 9, 1788 and recorded in the Barnard Land Roads and Villages Book at page 5;

2. affidavits from Frank B. Lamson, a registered land surveyor in the State of Vermont, stating that (a) in 1985, he supervised a survey of the "so-called Wheat Road's" present centerline and the "so-called Park Hill Road's" present centerline; and (b) in the process of conducting the 1985 survey, he found (i) clear evidence of Wheat Road's and Park Hill Road's continued existence and (ii) that the centerline of the current roadbeds closely followed, for the most part, the path of the same laid out in 1816;[2]

3. a certified copy of the September 17, 1816 survey of Wheat Road signed by the Barnard Selectmen and a certified copy of the September 9, 1788 survey of Park Hill Road also signed by the Barnard Selectmen.

4. a copy of the 1985 survey of the Wheat Road and the Park Hill Road conducted by Mr. Lamson.

---

[2] The defendants fire a battery of frivolous challenges at the affidavits of Lamson and Dutton. Suffice it to say that the affidavits show that the affiants were qualified to testify as to the facts the court used the affidavits to establish. Dutton, an experienced surveyor, testified as to the results of research he personally conducted. Lamson, a registered land surveyor, testified as to the results of a survey he personally supervised. The affidavits were duly sworn and notarized. Defects in other information contained in the affidavits are irrelevant since that information was not relied on by the court in its decision. See Deary v. Evans, 570 F. Supp. 189, 193 n.6 (D.C.V.I. 1983) (where an affidavit contained certain objectionable statements, the court struck those statements but considered the remainder of the affidavit); Chambers v. McLean Trucking Co., 550 F. Supp. 1335, 1338 (M.D.N.C. 1981) ("In deciding the motions for summary judgment, the Court will only consider statements which these affiants have made based on their knowledge gained through their positions. It will not strike those affidavits in their entirety merely because they contain a few statements as to the affiants' understandings rather than knowledge.") Furthermore, it is not evidence of bad faith or lack of competence that the affiants modified their testimony to reflect the fact that a road originally believed to be just the Wheat Road was subsequently discovered to include portions of the Park Hill Road. Finally, we note that it is well established that "[a]bsent a motion to strike or other timely objection, the trial court may consider a document which fails to conform to the formal requirements of Rule 56(e)." Williams v. Evangelical Retirement Homes, 594 F.2d 701, 703 (8th Cir. 1979) (per curiam) (emphasis added). The first time defendants made any reference to the alleged deficiencies in the affidavits was in their motion to strike orders filed after both summary judgment motions were granted, after a teleconference hearing during which the final disposition of the case was discussed, and after final judgment was entered. This does not constitute a timely objection.

These materials were evidence of the facts relied on by the court in making its decision. The only challenge to the determining facts consisted of a general denial by the Gencos of the following clause in the plaintiffs' complaint:

> Plaintiffs' only access by road to [their] premises is over the "Wheat Road" or "Old Town Road," so called, (hereinafter referred to as the Wheat Road) to the Park Hill Road, so called. The Wheat Road, which lies solely within the Town of Barnard, also adjoins lands of Defendants John and Ruth Genco and connects with another old town highway. The Wheat Road was laid out and approved as a town highway in 1816. A survey of the Wheat Road, dated September 7, 1816 and signed by the Selectmen of the Town of Barnard, was recorded on January 1, 1817 at Page 39 of the Barnard Highway Records.

Because the plaintiffs submitted credible affidavits and documentary evidence in support of the determining facts, defendants could "not rest upon the mere allegations or denials of the adverse party's pleading," but were required to respond "by affidavits or as otherwise provided in [Rule 56] ... set[ting] forth specific facts showing that there [was] a genuine issue for trial." V.R.C.P. 56(e); see Gore, 140 Vt. at 266, 438 A.2d at 375.

B.

In order to prevail on their motion for summary judgment the plaintiffs must show that the motion rests on a valid theory of law. The defendants argue that the court applied an incorrect legal theory in deciding that Wheat Road and Park Hill Road are class four public roads. We disagree.

In 1816 and 1817 the procedure for the establishment of a public highway was as follows:

> [E]very highway or road which shall in future be laid out or opened, shall be actually surveyed, and a survey thereof made out, entered and recorded, in the town

> clerk's office, where such highway or road lies, (and for want thereof, in the proprietors' clerk's office) ascertaining the breadth, course and distance of such road.

1 Laws of Vermont, Ch. XLV, §1, at 446 (1808). In 1820 the following step was added to the procedure:

> [W]hen the selectmen of any town shall open any road, heretofore, or hereafter, laid out, they shall cause a certificate thereof, signed by them, or a major part of them, to be forthwith recorded in the town clerk's office, in such town; and the day on which such certificate is recorded, shall be taken and deemed to be the time of opening such road.

1820, ch. 6, § 2, at 22 (current version at 19 V.S.A. § 715). The court interpreted the "heretofore or hereafter" language to apply to "laid out". Thus, the 1820 additional step of certification for valid opening applies only to roads which were laid out but not opened before the change was enacted and to roads laid out after the passage of the provision. We agree with the court's interpretation.

This interpretation, however, does not end the matter. As the defendants point out, although there is evidence that Wheat Road and Park Hill Road were surveyed and laid out before 1820 there is no evidence establishing when the roads were opened. Thus, it is possible that although Wheat Road and Park Hill Road were laid out before 1820 they were not opened until after 1820. If that were the case, certification would have been required for the proper establishment of the roads as public highways. There is no evidence that either Wheat Road or Park Hill Road was ever certified.

At this juncture, the date of the opening of the contested roads is difficult to ascertain. However, evidence that the roads were opened early in the 19th century is found in Frank Lamson's affidavits which stated that

in the process of conducting the 1985 survey of Wheat Road and Park Hill Road, he found "clear evidence" of the "continued existence" of the roads and that "[t]he centerline of the current roadbed[s] closely followed, for the most part, the path of the same as laid out in 1816." In Bacon v. Boston & Maine R.R., 83 Vt. 421, 434, 76 A. 128, 134 (1910), we stated that "[w]here the regularity of an official act is dependent upon some coexisting or preexisting act or fact there is a presumption in favor of the doing of such act or the existence of such fact." Here, since openings subsequent to 1820 required certification, the opening of Wheat Road and Park Hill Road was regular only if it was accomplished prior to 1820. Opening prior to 1820 is thus a coexisting or preexisting fact upon which the regularity of the opening is dependent. Therefore, the court was correct in presuming that the roads were opened prior to 1820 absent evidence to the contrary.[3] Since there is an uncontested presumption that Wheat Road and Park Hill Road were opened prior to 1820, and since the roads were surveyed and the surveys were recorded, the court was correct in concluding that public highways were properly established.

II.

Defendants argue that the court lacked jurisdiction to rule on plaintiffs' claim for declaratory judgment because not all necessary parties were joined. The Declaratory Judgments Act provides that

---

[3] Defendants argue that in Bacon the Court declined to apply the presumption of regularity of official acts on facts similar to the facts in this case. However, in Bacon the Court stated that the presumption could not be used to show that a certificate was filed where no certificate was found. Here, it is not alleged that a certificate was filed. Rather, the presumption is applied to show that the failure to file was regular since no certificate was required.

> [w]hen declaratory relief is sought, all persons shall be made parties who have or claim any interest which would be affected by the declaration, and no declaration shall prejudice the rights of persons not parties to the proceeding.

12 V.S.A. § 4721.[4]

Although the Gencos raised the issue of joinder as a defense, they have not mentioned specifically a single additional party whose interest is affected by the decision in this case. Indeed, when suggesting to the Kellys that the status of the contested roads should be determined in court, the Gencos advised the Kellys to "commence an action in the Windsor Superior Court against the Town of Barnard and the Gencos." In their answer to the complaint, defendants simply stated that the plaintiffs did not join all the interested parties. In their motion to alter, amend and strike orders and judgment orders, defendants alleged that "[t]here are five known property owners whose interest in land is affected by the two court Orders of July 3, 1986 and April 30, 1987 who were not made parties," but did not explain who these five property owners are or how their interest in land is affected. There is no evidence in the record that Wheat Road and Park Hill Road run through land other than that belonging either to the Gencos or to the Kellys. "An affected, interested person must be cited in a declaratory judgment action <u>when his existence and claim are evident</u>." <u>Blanchard v. Naquin</u>, 428 So. 2d 926, 928 (La. Ct. App. 1983) (emphasis added). However, in the absence of any specific fact in the record indi-

---

[4] Defendants also claim that 19 V.S.A. § 709 required notice to "persons owning or interested in lands through which the highway may pass or abut." 19 V.S.A. § 709 relates to 19 V.S.A. § 708, a provision for the "la[ying] out, alter[ing], reclassif[ying] or discontinu[ing]" of a highway. Plaintiffs here are merely seeking recognition that a public highway exists; therefore, § 708, and consequently § 709, do not apply.

cating that there are other persons whose interests will be affected by the trial court's order we will not reverse the judgment of that court.[5] See Trammel v. Glens Falls Indemnity Co., 259 Ala. 430, 436-37, 66 So. 2d 537, 542-544 (1953) (per curiam) (a declaratory judgment was valid despite the possible existence of two children whose interest would have been affected by it in the absence of any indication in the record that such children did exist). If any such person exists, he or she will not be bound by the judgment. See 12 V.S.A. § 4721; Bills v. Wardsboro School District, 150 Vt. 541, 545-46, 554 A.2d 673, 676 (1988).[6]

III.

Defendants raise a variety of further challenges to the summary judgment orders, all of which are without merit.

Defendants take issue with the court's pretrial order stating that (1) no private easement claims existed, (2) plaintiffs were to file a motion for summary judgement within thirty days and (3) defendants' motion to dismiss was denied. They state that the court ordered plaintiffs to move for summary judgement improperly since Rule 56 is permissive. We do not interpret the pretrial order as requiring the plaintiffs to file a motion

---

[5] Our reasoning here is not affected by the fact that the case was decided at summary judgment. "Where the record taken as a whole could not lead a rational trier of fact to find for the non-moving party, there is no 'genuine issue for trial.'" Matsushita Electric Industrial Co. v. Zenith Radio Corp., 475 U.S. 574, 587 (1986). There is nothing in the record which supports the Gencos' bald assertion that additional interested parties exist.

[6] The Gencos complain that "Genco and other so-called unidentified abutters or adjoiners to 'any highway' in question appeared to be irrelevant as parties." Since the Gencos, who were the identified abutters and adjoiners to the highways in question, were made defendants in the action this reproach is disingenuous. Neither the court nor the plaintiffs are responsible for the Gencos' failure to participate actively in the action after answering the complaint and moving to dismiss.

for summary judgment. Either party was free to file such a motion "at any time after the expiration of 20 days from the commencement of the action." V.R.C.P. 56(a).[7]

Defendants allege that plaintiffs' motion for summary judgment did not demand "judgment for the relief to which he deems himself entitled," and that the motion was fatally deficient because it did not state against which of the defendants summary judgment was sought. The memorandum in support of the motion for summary judgment makes it clear that plaintiffs sought a declaration that Wheat Road is a public highway. The motion itself clearly identified the Town of Barnard, John Genco and Ruth Genco as the defendants.

Defendants argue that the docket entries do not reflect the receipt of the 1985 survey of Wheat Road and Park Hill Road, the 1816 survey of Wheat Road, and the 1788 survey of Park Hill Road. However, the documents were contained in the file of the case, and the defendants themselves admit that they received a copy of the 1985 survey.

Defendants complain of the court's reconsideration of the plaintiffs' motion for summary judgment without notice to the parties. In Vermont, "[b]efore the court can grant summary judgment, it must give the opposing party a reasonable opportunity to show the existence of a fact question." Campbell v. Dupont, 138 Vt. 448, 450, 417 A.2d 929, 930 (1980). Opposing

---

7 There is no merit in defendants' assertion that the court, in "ordering" the Kellys to file a motion for summary judgment, decided to resolve on the basis of affidavits two material issues of fact -- whether "Wheat Road was a public highway and its location in relationship to Genco, Kelly, et al." The court never made any decisions as to the location of Wheat Road in relation to Genco, Kelly, or others, since such a decision was immaterial to the only issue which the court did decide -- the status of Wheat Road and Park Hill Road. That decision was a mixed question of law and fact; however, since the determative facts were uncontested, summary judgment was appropriate.

parties must be given "notice of the motion" and "opportunity to demonstrate the existence of a fact question." Id. The Kellys filed a motion to reconsider the denial of their motion for summary judgment on May 30, 1986. Summary judgment in their favor was entered July 3, 1986. The Gencos do not contend that they did not receive a copy of the Kellys' motion to reconsider. They had over a month to "show the existence of a fact question."

Defendants state that granting summary judgment after a denial of a previous similar motion is inappropriate in the absence of new facts. However,

> [u]ntil final decree the court always retains jurisdiction to modify or rescind a prior interlocutory order. Although the court might properly refuse to consider a second motion, we will not require a judge to perpetuate error or take a more roundabout way to arrive at ultimately necessary judgment by refusing him the right to entertain a second motion for summary judgment after he has ruled once the other way.

Lindsey v. Dayton-Hudson Corp., 592 F.2d 1118, 1121 (10th Cir. 1979) (citation omitted); see United States v. Desert Gold Mining Co., 433 F.2d 713, 715 (9th Cir. 1970).

Defendants further object to the form of the orders disposing of the case. They do not, however, allege that the orders are invalid, nor do they cite any case law to that effect. In particular, the Gencos claim that the order declaring Wheat Road a public highway does not identify Wheat Road, does not locate it in the Town of Barnard and does not relate Wheat Road to the lands of Kelly or Genco or other unidentified adjoiners and abutters. They claim that the order declaring Park Hill Road a public highway is "subject to the same objections" but is also deficient because it does not give the Kellys or the general public the right to travel the road.

The order pertaining to Wheat Road is the final paragraph of a trial court opinion which clearly identifies Wheat Road and locates it in the Town of Barnard. Since the court's decision that the road is a public highway is not affected by the particular lands through which the road runs, it is irrelevant that the order did not identify those lands. The order declaring Park Hill Road a public highway clearly locates the road in the Town of Barnard. There is no need for the order to include a provision stating that the Kellys and or anyone else can travel on the road since such a conclusion follows from the determination that the road is a public highway.[8] The court entered a final judgment making the orders declaring the roads public highways of continuing force and effect. The record clearly shows which roads are the subject of the court's disposition.

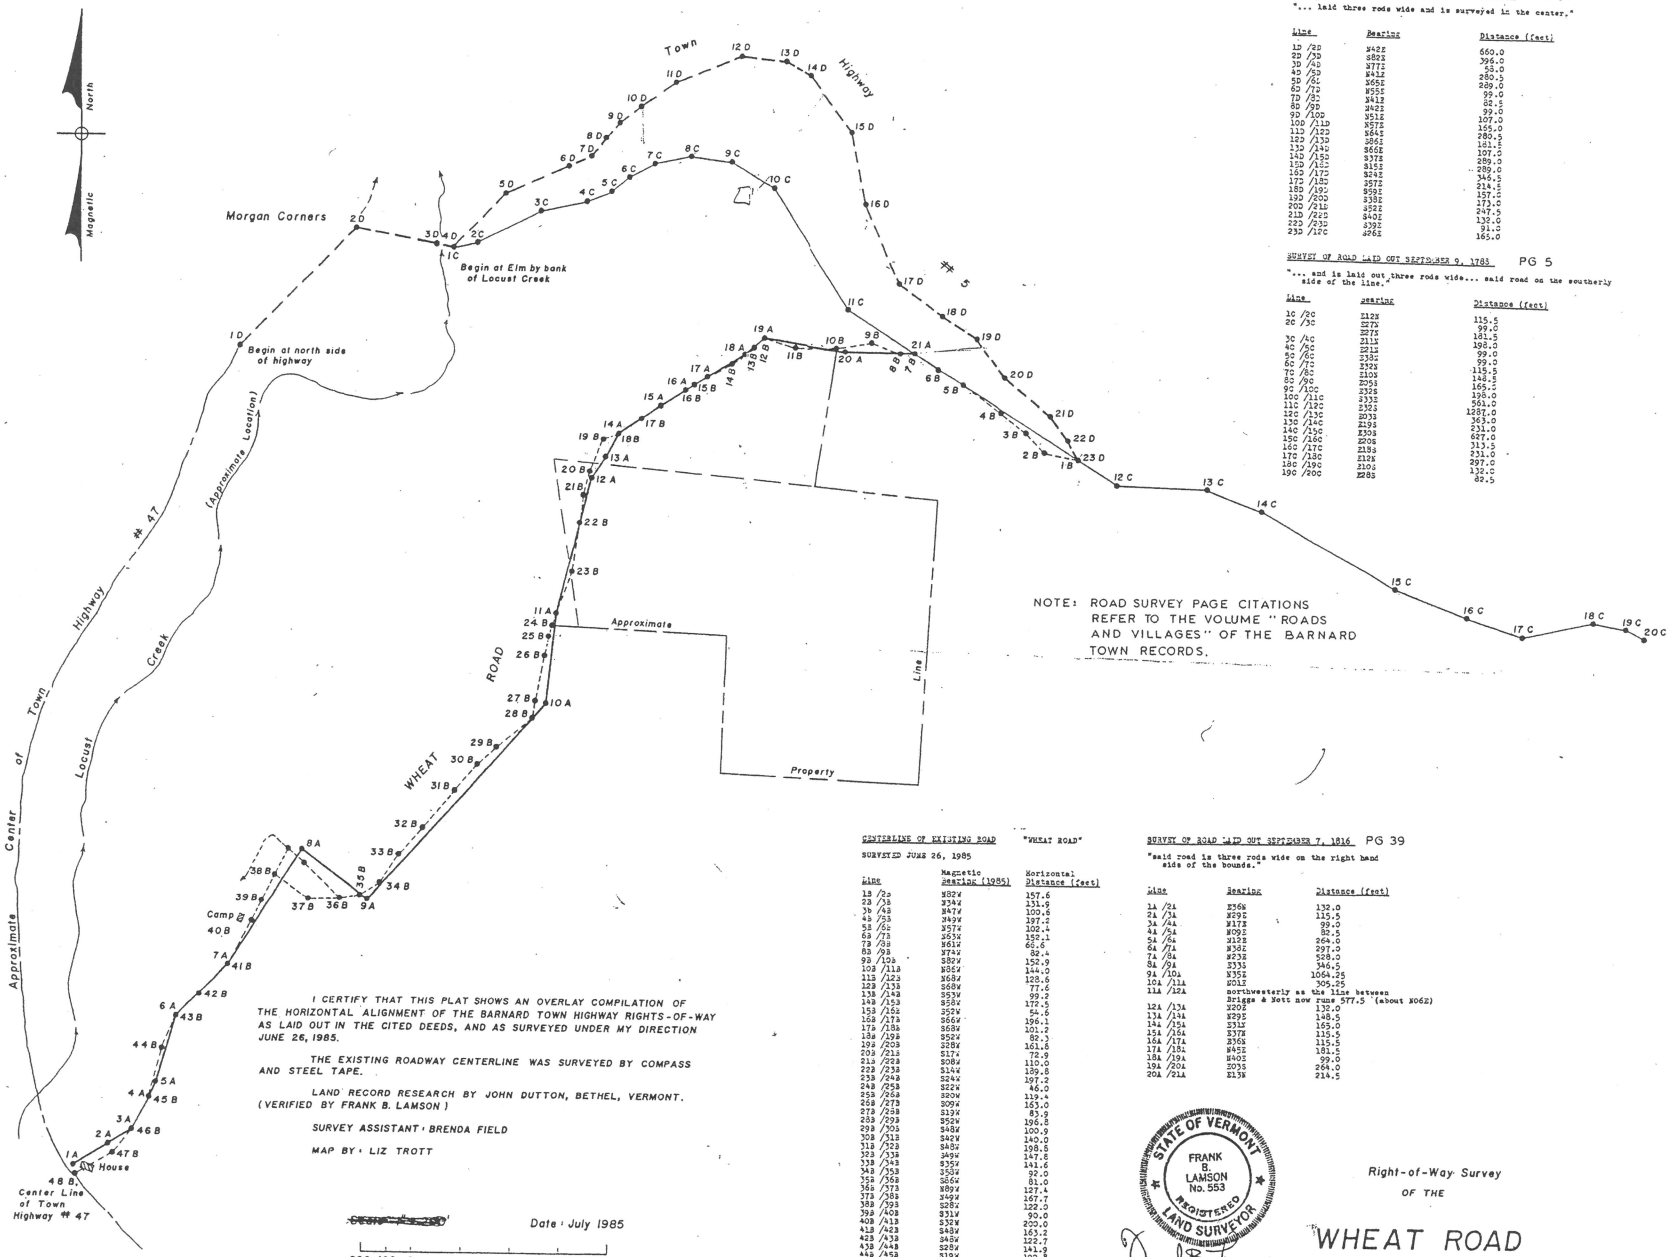

Affirmed.

FOR THE COURT:

Louis P. Peck
Associate Justice

---

[8] The fact that the summary judgment order did not contain findings of fact does not affect its validity. See Crosby v. The Great A & P Tea Co., 143 Vt. 537, 539, 468 A.2d 567, 569 (1983).

Selectmen's Minutes **April 14, 2010**

Called to order 7:10pm.
Present: Johnson, Webster, Morse, R. Lamphere, L. Webster

Act 178/Class 4 Roads Submissions to AOT: Rec'd letter (attached) from Atty Hayes re 1994 discontinuance of portion of TH69 advising that the discontinuance was illegal because road travels into Stockbridge and because a parcel was landlocked. Recommends voting to void 1994 discontinuance.
Vote to VOID 1994 Discontinuance of TH69, 0.1mile as illegally decided per recommendation of Atty Hayes.

Roy Lanphere/Fairpoint: Requests easement on Town Hall lot property to install equipment for fiber optic service station to be redistributed as DSL internet service to Barnard residents. See attached letter and photos. Discuss further conditions for easement: Fairpoint to bury phone/elec lines from North Rd to Hall & remove 2 poles, reduce size of easement request. Lamphere will consult Fairpoint engineer, stake site. Will discuss further.

Lance Webster/Road Foreman:
1. Discuss Class 2 Resurfacing Grant Appl. for pavement & gravel resurfacing of portions of Stage Road, TH1.
2. Discuss Webster's meeting with Pat Ross (Water Resources) & Pete Fellows (TRORC) re head waters grant for bridge & culvert replacement on Class 4 portion of Chateauguay Rd.
3. Discuss Structures Grant Appl. recommendations for large culvert on Wayside and specs for box culvert installation on Royalton Tnpk at Webster Hill.

Approved Town & Highway orders for payment, minutes of 4/7/10, reviewed mail.

Adjourned 8pm. Recorded by Morse.

Re: Discontinuance of TH-69

Dear Tom:

I met recently with Preston Bristow to discuss the Town's 1994 action to discontinue TH-69, which was believed to be a short section of road one-tenth of a mile long off of Smith Road. The vote to discontinue the road occurred on January 5, 1994.

At the time of the discontinuance action two important facts were not known to the select board. First, that the road discontinuance "land locks" a parcel of land, and second, that the road continued across the Stockbridge town line.

The first problem would be relatively easy to deal with because when a town discontinues the public access to a road it does not extinguish the private rights of abutters. *Okemo Mountain, Inv. v. Ludlow*, 171 VT 201 (2000). However, because of my analysis below, I do not think it will be necessary.

In 1994 the statutory requirements to discontinue a road were found at 19 V.S.A. §771. The select board was required to comply with the following provisions:

"The selectmen of two or more towns may discontinue a highway continuing into each of the towns by individually following [section 708-711 of this title.] The public hearing may be jointly held if the selectmen agree. If the decision is not the same in all towns involved, the superior court shall be petitioned to resolve the issue."

The provisions of Section 708 to 711 are attached.

Because the select board did not know that the road in question extended into another town, it did not follow the applicable procedure for discontinuance in that case. The law in Vermont is that "[t]the procedure to be followed in laying out or discontinuing a highway is wholly statutory and the method prescribed must be substantially complied with or the proceedings will be void. In re Bill, 168 VT 439, 724 A2d 444 (1998). Actions of a select board

Selectman's acknowledgement that the 1994 discontinuance of 0.1 mile of TH-69 (now a portion of TH-93) recorded in Book 59, Pages 313, 333 and 343, is VOID

are presumed to be in accordance with statutory requirements, however, when a select board acts outside its statutory authority with respect to a discontinuance, the defect is akin to lack of subject matter jurisdiction. Id; In re Mattison 120 VT 459, 144 A2d 778 (1958). Those proceedings would be void and may be impeached in any way at any time. Id.

Since the select board is now aware that the 1994 discontinuance of the TH-69 did not comply with the statutory requirements of the time, and the action is therefore void, and since such action may be impeached at any time and in any way, I recommend that the select board acknowledge that the January 5, 1994 discontinuance of TH-69 was void and set it aside on its own initiative.

Returning to the issue of the "land locked" parcel, because the 1994 discontinuance was void when it was attempted, the parcel was not land locked by the Town's action, and no change of status occurred.

Yours truly,

Thomas Hayes, Esq.

TH/ps
Encls.

BRC-128 known as "Judson Morse Road" starts at a point on TH-26 (Smith Hill Road) located 0.2 miles west of the intersection of Smith Hill Road and TH-45 and extends northwesterly 2.683 miles, intersecting the terminus of BRC-129 (Norton's Hook Road), and ending at the Stockbridge Town Line.

Original Laying Out:	Road Book Page 11, Entry B Page 25, Entry C Page 42, Entry A

The western portion of this road from Stockbridge is shown extending into Barnard on the Beers Atlas of 1869 and the 1913 Woodstock Quad

This road is mentioned in a deed from International Paper Realty Corporation to Lambert (Book 45, Page 318 circa 1983 and earlier).

FORM 901 VERMONT — LIMITED WARRANTY DEED Rev. 9/80

TUTBLANK REGISTERED U. S. PAT. OFFICE
TUTTLE LAW PRINT, PUBLISHERS, RUTLAND, VT 05701

Know all Men by these Presents

That IT, INTERNATIONAL PAPER REALTY CORPORATION, a Delaware Corporation having its principal office at International Paper Plaza, 77 West 45th Street, in the City of

of New York and State of New York in the County of New York Grantor, in the consideration of ---------ONE DOLLAR AND OTHER GOOD AND VALUABLE CONSIDERATION-- Dollars paid to its full satisfaction by

FRANK H. LAMBERT & LOIS LAMBERT, husband and wife,

of Stockbridge and State of Vermont in the County of Windsor Grantees, by these presents, do freely **Give, Grant, Sell, Convey and Confirm** unto the said Grantee s

FRANK H. LAMBERT & LOIS LAMBERT

and their heirs and assigns forever, a certain piece of land in Barnard in the County of Windsor and State of Vermont, described as follows, viz:

Being all and the same lands and premises conveyed to International Paper Realty Corporation by deed of International Paper Company, dated September 1, 1982, recorded in the Town of Barnard Land Records in Book 44 at Page 80, and therein described as follows:

"A certain tract of land situated in the Town of Barnard, in the County of Windsor and State of Vermont, bounded and described as follows:

Being the west part of the home farm, now or formerly of B. R. Lillie, beginning at a spruce post in the north end of a stone wall, in east side of a road, the north-west corner of said farm, thence south 33° west, partly along a wall, one hundred and twenty-seven rods eight links (127-08) to a black cherry post; thence north 57° west thirteen rods eight links to a maple tree marked as a corner; thence south 32° west one hundred and three rods (103) more or less, to an old corner on a beech tree and hemlock post, the south-west corner of said Lillie Farm; thence south 63° east ninety-one rods nineteen links (91-19) more or less, to a corner of old fences and new post, the corner of land now or formerly of E.E. Hoyt; thence, along old fences and walls north 37° 45' east seventeen (17) rods; thence north 35° east seventy-two (72) rods to a birch tree, the corner of the Hoyt land; thence north 36° 15' east one hundred and thirty-three rods twenty links (133-20), more or less, to a post at corner of fences in the south line of the Sardine Cowdrey Farm; thence north 56° west eighty-eight rods twenty links (88-20), more or less, to the corner begun at. Containing 125 acres, more or less, and being the same land deeded by Charles H. Kidder and B.R. Lillie to Bean and Hodgdon by deed dated October 15th, 1908 and recorded in Barnard Land Records in Volume 25, Page 150, said Hodgdon's interest having been conveyed to A.M. Bean by deed dated October 21, 1916, recorded in Volume 26-1/2, page 90.

This conveyance is made subject to the following:

1. The lien for ad valorum taxes here and after falling due, which are hereby to be pro-rated, and payment of which is expressly assumed by Grantee.

2. Any and all oil, gas and mineral leases, reservations and conveyances, and any restrictions, flowage rights, servitudes, easements and rights-of-way which are now in force and effect, either of record or presently existing on said property.

3. Any condition or state of facts which might be ascertained or revealed by an accurate survey and/or inspection of the premises, including but not limited to boundary line disputes, encroachments and adverse claims.

MINERAL RESERVATION

"All mineral substances presently owned by grantor are hereby conveyed to grantee herein, together with the full and exclusive executory rights to lease such substances; SUBJECT, HOWEVER, and there is hereby reserved to Grantor, its successors and assigns, and excepted from this conveyance, the following:

1. An undivided one-eighth (1/8th) non-participating royalty interest in oil, gas and associated hydrocarbons.

2. An undivided one-half (1/2) of any and all bonus consideration, rentals, royalties and other payments provided for in any mineral lease or leases executed by Grantee, its successors and assigns, covering lead, zinc, copper, coal, lignite, sulphur, phosphate, iron ore, sodium, salt, leucoxene, ilmenite, zircon, monzonite, uranium, thorium, molybdenum, vanadium, titanium and other fissionable materials, gold, silver, bauxite, limestone, geothermal energy and all other mineral substances and ore deposits of any kind or character, whether solid, liquid or gaseous, and without limitation by enumeration of the minerals expressly mentioned above (but not including sand, clay and gravel). In the event Grantee, its successors and assigns, elects to develop and produce any mineral substances described in this paragraph, there is further hereby reserved to Grantor, its successors and assigns, an undivided one-half (1/2) of the proceeds of said development, exclusive of all expenses incurred by Grantee, it successors or assigns in said development.

This conveyance is subject to all outstanding oil, gas and other mineral and/or royalty rights and interests shown of record on any of said lands."

To have and to hold said granted premises, with all the privileges and appurtenances thereof, to the said Grantees

FRANK H. LAMBERT & LOIS LAMBERT, husband and wife, as tenants by the entirety,

their heirs and assigns, to their own use and behoof forever;

And it the said Grantor

INTERNATIONAL PAPER REALTY CORPORATION

successors and assigns for itself and its heirs, ~~executors and administrators~~, do covenant with the said Grantees

FRANK H. LAMBERT & LOIS LAMBERT

their heirs and assigns, that until the ensealing of these presents it is the sole owner of the premises, and have good right and title to convey the same in manner aforesaid, that they are Free from every encumbrance;

hereby engage to Warrant and Defend the same against all lawful claims whatever, arising by, through or under International Paper Realty Corporation, but none other.

In Witness Whereof, it has affixed its corporate seal hereunto ~~set~~ ~~hand and~~ this 10th day of October A. D. 19 83

Selectmen's Return
Alteration of Town Highway

On December 15, 2004 the Town of Barnard Selectboard appointed the time for a public hearing for the purpose of receiving testimony and hearing all persons interested in the matter of whether the Town of Barnard shall alter a portion of Town Highway described in attached Public Notice attached, pursuant to 19 VSA $708 et seq. The time set for the public hearing on said Town Highway was January 26, 2004, at 7:00 pm at the Town Offices.

The Barnard Selectboard gave thirty days notice of the time and place of the hearing to the property owner(s) involved and other interested parties, which are listed in attachment hereto.

All of the interested parties on attached list were given notice of the time and place of examination by certified mail. Notice was given to the Barnard Planning Commission on January 14, 2005. A copy of said Notice was posted in the Town Offices, on the Town Hall and at the Barnard General Store on January 14, 2005 and like Notice was published in the January Barnard Bulletin and in the Valley News on January 14, 2005.

At the time and place appointed, the Chairman of the Selectboard opened the Public Hearing to receive testimony. Eric Edelstein spoke in favor of the proposed Alteration of Town Highway on behalf of the affected landowner, Ankner Trust. There was no further testimony. The Chairman recessed the Hearing to travel to the site to hear any interested parties there present. There were none. The Hearing was reconvened at the Town Offices to hear any further testimony. There was none.

Upon due consideration, the Barnard Selectboard has determined that the public good, necessity and convenience requires that the subject Town Highway be altered as described in the Public Notice and as indicated on a map in Book 4, Page 50 of the Barnard Land Records.

Dated at Barnard, Vermont this 9th day of February, 2005.

TOWN OF BARNARD

NOTICE OF PUBLIC HEARING

ALTERATION OF THE LOCATION OF A PORTION OF A TOWN HIGHWAY THAT TRAVELS ACROSS PROPERTY IDENTIFIED AS PARCEL NUMBER 4-20 ON THE TOWN OF BARNARD TAX MAP.

In accordance with 19 VSA Chapter 7, notice is hereby given that the Barnard Selectboard will hold a public hearing on Wednesday, January 26, 2005, to consider altering the location of that portion of a Town Highway that travels from the Sayers Road, thence in a southeasterly direction across property owned by the Anne Ankner Trust and identified as parcel 4-20 on the Town of Barnard Tax Map to coincide with another nearby Town Highway running in an easterly direction from the Sayers Road, thence southerly along the easterly boundary of said property to the point it where is presently crosses the boundary onto the abutting property.

The public hearing will commence at the Barnard Town offices at 7pm at which time the Barnard Selectboard will travel to the site to conduct an examination of the premises and hear from interested parties regarding the possible alteration of the above referenced portion of the Town Highway.

The Barnard Selectboard will meet at the Barnard Town offices immediately following the site visit to receive any further public comment.

Dated at Barnard, Vermont this 15 day of December, 2004.

STATE OF VERMONT
ENVIRONMENTAL COURT

IN RE: APPEAL OF FERGUSON) DOCKET NO. 188-11-01 Vtec

STIPULATION AND ORDER

NOW COME Alexander and Betty Ferguson, by and through their attorneys, Reiber, Kenlan, Schwiebert & Facey, P.C. and the Town of Barnard, by and through their attorneys, Stitzel, Page & Fletcher, P.C. and stipulate that the Court may enter the following order:

1. The property of Alexander and Betty Ferguson (hereinafter the "Fergusons") in Barnard, Vermont (hereinafter the "Property") is encumbered by a Class 4 Town Highway, laid out and established by a survey of the Town of Barnard (hereinafter the "Town") Selectboard in the Town Road Book on page 7, and described as:

> [a] survey of a Road beginning Three Rods east of the meeting House at a stake & stones thence . . . . at a stake & stones Three Rods East of Nathan Carpenter Southeast Corner on Royaltons South Line Said Road lying westerly of Said Bounds being Three Rods wide Laid out and approved by us this 3rd Day of June 1784.

A true and correct copy of the relevant portion of the Town Highway Map, adopted April 16, 2003, with revisions for the purposes of this Stipulation and Order, marked as Exhibit A, is attached hereto and incorporated herein by reference. The Town Highway, referenced above, is marked as "A".

2. In addition, a portion of another town highway that is three (3) rods wide currently exists along the northerly boundary of the Property (hereinafter the "Boundary Highway"), laid out and established by a survey of the Town Selectboard in the Town Road Book on page 3. The southern edge of the traveled way of the Boundary Highway is located eight (8) feet, more or less, northerly of the northerly boundary of the Property. The traveled way of the Boundary Highway is approximately eight (8) feet wide and runs approximately parallel to the northerly

BRC-229 BRC-228

FILED
AUG 18 2003
Windsor County Clerk

boundary for approximately 600 feet. The traveled way of the Boundary Highway is not located on the Property. The Boundary Highway is marked as "B" on Exhibit A.

3. The Town shall alter the location of the Town Highway, described in paragraph 1, above, pursuant to 19 V.S.A. section 708, et. seq., to another location generally described as follows:

> Beginning at a point situated in the centerline of the subject Town Highway, described in paragraph 1, above, where the east/west portion of Bowman Road diverges westerly from said Town Highway; then northerly, northwesterly, and westerly along the centerline of said east\west portion of Bowman Road to a point in line with the centerline of the Fergusons' driveway, where it currently enters the Property from Bowman Road; then continuing in a northeasterly direction, generally along the centerline of said driveway, a sufficient distance to arrive at a point from where a line projected westerly is located northerly of the very wet southwesterly portion of the Property; then continuing westerly, departing said driveway, and northerly, to a point located twenty-five (25) feet from the westerly boundary of the Property; then northeasterly, parallel to and twenty-five (25) feet from, the said westerly boundary of the Property across the northerly boundary of the Property, to the centerline of the Boundary Highway; then southeasterly, along the centerline of the Boundary Highway, to a point in the centerline of the subject Town Highway, described in paragraph 1, above (hereinafter the "Subject Highway").

The Subject Highway shall be a width of fifty (50) feet and be classified as a Class 4 Town Highway. The Subject Highway is marked as "C" on Exhibit A.

4. Within the Subject Highway, the Fergusons shall clear a nine-foot wide trail (hereinafter the "Trail") of all trees and excess vegetation such that members of the public easily may use the Trail for recreational activities including but not limited to walking, running, biking or riding all terrain vehicles, snow mobiles and horses. To the extent that large trees in the Trail do not interfere with the public's ability to use the Trail as described above, the Fergusons are not required to remove them. The Fergusons shall cut tree stumps flush with the ground. The Trail may wind through the fifty (50)-foot right of way of the Subject Highway.

FILED
AUG 13 2003
Windsor County Clerk

5. No later than August 27, 2003, the Fergusons and the Town Selectboard members shall meet with a surveyor chosen by the Town on the Property at a mutually agreed upon date and time and:

a. Agree on and mark with flagging the specific location of the Subject Highway described in paragraph 3, above, and

b. Agree on and mark with flagging the specific location of the Trail described in paragraph 4, above.

6. As soon as the Fergusons and the Selectboard have complied with paragraph 5, the Selectboard shall initiate proceedings in accordance with 19 V.S.A Chapter 7, Subchapter 2 to alter the Subject Highway to the location flagged in accordance with paragraph 5.a., above, and as set forth in paragraph 3.

7. The alteration shall be deemed "complete" when the appeal period set forth in 19 V.S.A. section 740 has expired, or if an appeal is taken, when the Town obtains final judgment upholding said alteration, including any appeals thereto. By executing this stipulation, the Fergusons hereby waive any claim as to damages for, or the necessity of, said alteration.

8. No later than forty-five (45) days after the alteration is complete, the Fergusons shall remove or cause to be removed from the Trail flagged in accordance with paragraph 5.b., above, trees and excess vegetation as described in paragraph 4, above, so that the Trail may be used as described in paragraph 4. The Fergusons shall provide the Town Selectboard with written notice when they have completed the requirements of this paragraph.

9. The Town shall choose the surveyor to complete the survey required by 19 V.S.A. section 710. No later than fifteen (15) days after the alteration is complete, the Fergusons shall pay the surveyor chosen by the Town any and all costs for the survey and monuments required by 19 V.S.A. section 710 up to $3,000.00 (Three Thousand Dollars).

FILED

10. The Selectboard shall notify the Town Administrative Officer as soon as the alteration is complete. No later than ten (10) days after receipt of said notice from the Selectboard, the Administrative Officer shall grant the Fergusons' application for a municipal land use permit, received by the Town on July 18, 2001, strictly for the use and development described therein. A true and correct copy of said application, marked as Exhibit B, is attached hereto and incorporated herein by reference. The Fergusons shall construct any and all structures on the Property in locations fifty (50) feet or more from the centerline of the Subject Highway and the Boundary Highway. In accordance with Section 5.0.2 of the Town Zoning Regulations with amendments through March 7, 2000, the Fergusons' municipal land use permit shall be valid for two (2) years from the date that the Administrative Officer grants it.

11. The Selectboard shall grant the Fergusons an access permit pursuant to 19 V.S.A. section 1111 so that the Fergusons may access the Property from the Subject Highway. As soon as the alteration is complete, the Fergusons shall submit the required application for an access permit showing the specific location where they propose to access the Property, for the Selectboard to approve.

12. That portion of the Boundary Highway that currently exists along the northerly boundary of the Property, referenced and described in paragraph 2, above, shall continue to exist in its present location. The Town Highway Map adopted by the Selectboard on April 16, 2003, indicates that no other town highways or trails, other than the Boundary Highway and the Subject Highway, are located on the Property. If, after the date the Court enters this Stipulation and Order as an order, another town highway or trail, or a portion of another town highway or trail, are identified on the Property, the Town shall initiate proceedings in accordance with the provisions of Title 19, Chapter 7, Subchapter 2 then in effect to:

a. Discontinue that portion of the town highway or trail that exists on the Property; or

FILED
AUG 13 2003
Windsor County Clerk

b. Alter the location of that portion of the town highway or trail that exists on the Property to a location other than the Property.

13. The Town Selectboard shall record this Stipulation and Order within fourteen (14) days of the date the Court enters it as an Order. Thereafter, this Stipulation and Order shall run with the Fergusons' land and the Town and the Fergusons bind their successors and assigns in respect to all covenants, agreements and obligations contained in this Stipulation and Order.

STATE OF VERMONT
ENVIRONMENTAL COURT

IN RE: APPEAL OF FERGUSON) DOCKET NO. 188-11-01 Vtec

STIPULATION AND ORDER

NOW COME Alexander and Betty Ferguson, by and through their attorneys, Reiber, Kenlan, Schwiebert & Facey, P.C. and the Town of Barnard, by and through their attorneys, Stitzel, Page & Fletcher, P.C. and stipulate that the Court may enter the following order:

1. The property of Alexander and Betty Ferguson (hereinafter the "Fergusons") in Barnard, Vermont (hereinafter the "Property") is encumbered by a Class 4 Town Highway, laid out and established by a survey of the Town of Barnard (hereinafter the "Town") Selectboard in the Town Road Book on page 7, and described as:

> [a] survey of a Road beginning Three Rods east of the meeting House at a stake & stones thence . . . . at a stake & stones Three Rods East of Nathan Carpenter Southeast Corner on Royaltons South Line Said Road lying westerly of Said Bounds being Three Rods wide Laid out and approved by us this 3rd Day of June 1784.

A true and correct copy of the relevant portion of the Town Highway Map, adopted April 16, 2003, with revisions for the purposes of this Stipulation and Order, marked as Exhibit A, is attached hereto and incorporated herein by reference. The Town Highway, referenced above, is marked as "A".

2. In addition, a portion of another town highway that is three (3) rods wide currently exists along the northerly boundary of the Property (hereinafter the "Boundary Highway"), laid out and established by a survey of the Town Selectboard in the Town Road Book on page 3. The southern edge of the traveled way of the Boundary Highway is located eight (8) feet, more or less, northerly of the northerly boundary of the Property. The traveled way of the Boundary Highway is approximately eight (8) feet wide and runs approximately parallel to the northerly

BRC-229 BRC-228

FILED
AUG 18 2003
Windsor County Clerk

boundary for approximately 600 feet. The traveled way of the Boundary Highway is not located on the Property. The Boundary Highway is marked as "B" on Exhibit A.

3. The Town shall alter the location of the Town Highway, described in paragraph 1, above, pursuant to 19 V.S.A. section 708, et. seq., to another location generally described as follows:

> Beginning at a point situated in the centerline of the subject Town Highway, described in paragraph 1, above, where the east/west portion of Bowman Road diverges westerly from said Town Highway; then northerly, northwesterly, and westerly along the centerline of said east\west portion of Bowman Road to a point in line with the centerline of the Fergusons' driveway, where it currently enters the Property from Bowman Road; then continuing in a northeasterly direction, generally along the centerline of said driveway, a sufficient distance to arrive at a point from where a line projected westerly is located northerly of the very wet southwesterly portion of the Property; then continuing westerly, departing said driveway, and northerly, to a point located twenty-five (25) feet from the westerly boundary of the Property; then northeasterly, parallel to and twenty-five (25) feet from, the said westerly boundary of the Property across the northerly boundary of the Property, to the centerline of the Boundary Highway; then southeasterly, along the centerline of the Boundary Highway, to a point in the centerline of the subject Town Highway, described in paragraph 1, above (hereinafter the "Subject Highway").

The Subject Highway shall be a width of fifty (50) feet and be classified as a Class 4 Town Highway. The Subject Highway is marked as "C" on Exhibit A.

4. Within the Subject Highway, the Fergusons shall clear a nine-foot wide trail (hereinafter the "Trail") of all trees and excess vegetation such that members of the public easily may use the Trail for recreational activities including but not limited to walking, running, biking or riding all terrain vehicles, snow mobiles and horses. To the extent that large trees in the Trail do not interfere with the public's ability to use the Trail as described above, the Fergusons are not required to remove them. The Fergusons shall cut tree stumps flush with the ground. The Trail may wind through the fifty (50)-foot right of way of the Subject Highway.

FILED
AUG 13 2003
Windsor County Clerk

5. No later than August 27, 2003, the Fergusons and the Town Selectboard members shall meet with a surveyor chosen by the Town on the Property at a mutually agreed upon date and time and:

a. Agree on and mark with flagging the specific location of the Subject Highway described in paragraph 3, above, and

b. Agree on and mark with flagging the specific location of the Trail described in paragraph 4, above.

6. As soon as the Fergusons and the Selectboard have complied with paragraph 5, the Selectboard shall initiate proceedings in accordance with 19 V.S.A Chapter 7, Subchapter 2 to alter the Subject Highway to the location flagged in accordance with paragraph 5.a., above, and as set forth in paragraph 3.

7. The alteration shall be deemed "complete" when the appeal period set forth in 19 V.S.A. section 740 has expired, or if an appeal is taken, when the Town obtains final judgment upholding said alteration, including any appeals thereto. By executing this stipulation, the Fergusons hereby waive any claim as to damages for, or the necessity of, said alteration.

8. No later than forty-five (45) days after the alteration is complete, the Fergusons shall remove or cause to be removed from the Trail flagged in accordance with paragraph 5.b., above, trees and excess vegetation as described in paragraph 4, above, so that the Trail may be used as described in paragraph 4. The Fergusons shall provide the Town Selectboard with written notice when they have completed the requirements of this paragraph.

9. The Town shall choose the surveyor to complete the survey required by 19 V.S.A. section 710. No later than fifteen (15) days after the alteration is complete, the Fergusons shall pay the surveyor chosen by the Town any and all costs for the survey and monuments required by 19 V.S.A. section 710 up to $3,000.00 (Three Thousand Dollars).

FILED
AUG 13 2003
Windsor County Clerk

10. The Selectboard shall notify the Town Administrative Officer as soon as the alteration is complete. No later than ten (10) days after receipt of said notice from the Selectboard, the Administrative Officer shall grant the Fergusons' application for a municipal land use permit, received by the Town on July 18, 2001, strictly for the use and development described therein. A true and correct copy of said application, marked as Exhibit B, is attached hereto and incorporated herein by reference. The Fergusons shall construct any and all structures on the Property in locations fifty (50) feet or more from the centerline of the Subject Highway and the Boundary Highway. In accordance with Section 5.0.2 of the Town Zoning Regulations with amendments through March 7, 2000, the Fergusons' municipal land use permit shall be valid for two (2) years from the date that the Administrative Officer grants it.

11. The Selectboard shall grant the Fergusons an access permit pursuant to 19 V.S.A. section 1111 so that the Fergusons may access the Property from the Subject Highway. As soon as the alteration is complete, the Fergusons shall submit the required application for an access permit showing the specific location where they propose to access the Property, for the Selectboard to approve.

12. That portion of the Boundary Highway that currently exists along the northerly boundary of the Property, referenced and described in paragraph 2, above, shall continue to exist in its present location. The Town Highway Map adopted by the Selectboard on April 16, 2003, indicates that no other town highways or trails, other than the Boundary Highway and the Subject Highway, are located on the Property. If, after the date the Court enters this Stipulation and Order as an order, another town highway or trail, or a portion of another town highway or trail, are identified on the Property, the Town shall initiate proceedings in accordance with the provisions of Title 19, Chapter 7, Subchapter 2 then in effect to:

a. Discontinue that portion of the town highway or trail that exists on the Property; or

SELECTBOARD'S RETURN
TOWN OF BARNARD, VERMONT

On November 3, 2004, the Town of Barnard Selectboard appointed the time for a public hearing for the purpose of receiving testimony and hearing all persons interested in the matter of whether the Town of Barnard shall discontinue a portion of certain Town Highways, pursuant to 19 V.S.A. § 708 et seq. The time set for the public hearing on said Town Highways was January 12, 2005, at 7:00 p.m.

The Barnard Selectboard gave thirty days notice of the time and place of the hearing to the property owners involved and other interested parties, which are listed on Exhibit A attached hereto. A copy of said Notice of Public Hearing is attached hereto as Exhibit B.

All of the interested parties on attached list were given notice of the time and place of examination by certified mail. Notice was given to the Municipal Planning Commission of the Town of Barnard on November 23, 2004. A copy of said Notice was posted in the office of the Town Clerk, on the Town Hall and at the Barnard General Store on November 23, 2004 and the like Notice was published in the Barnard Bulletin in the December, 2004 issue, and in the Valley News on December 31, 2004.

At the time and place appointed, the Selectboard made a site visit to the affected properties and heard all interested parties who attended. The Selectboard continued its hearing after the site visit at the Barnard Town offices, at which time the Selectboard provided opportunity for further testimony.

Upon due consideration, the Barnard Selectboard has determined that the public good, necessity and convenience requires that the following sections of certain Town Highways are hereby DISCONTINUED:

1. The remainder of the so-called "Dean Road", from the "Robert Dean House" site east to the North Road. Dean Road was originally laid out as a town highway by survey dated July 7, 1794, recorded at Page 16 and re-recorded at Page 18 of the Barnard Road Survey Book. Said road was partially discontinued by the Barnard Selectboard on December 1, 1892, as evidenced by the entry of discontinuance recorded at Volume 23, Page 357 of the Barnard Land Records.

2. A town highway laid out in or about 1785, of record in the Barnard Road Survey Book on Page 4, which highway commences at "Luther Fairbanks' Shop" and terminates near "Robert Dean's House," to the extent that it crosses lands of Herbert Hall McAdams, III and Letty McAdams.

DATED at Barnard, Vermont this 2nd day of February, 2005.

Selectmen's Return

Alteration of a Town Highway

Town of Barnard, Vermont

On November 10, 2005, the Town of Barnard Selectboard appointed the time for a hearing to examine that portion of a Town Highway on the property of Gary L. And Janet N. Robison, as shown on the Town of Barnard Tax Map, Zone 1, parcel 178, pursuant to 19 VSA $708 et seq. The time set for the public hearing on alteration of said Town Highway was December 22, 2005 at 7pm.

The Barnard Selectboard gave thirty days notice of the time and place of the hearing to the property owners involved and other interested parties, list of which is attached hereto.

All of the interested parties on attached list were given notice of the time and place of examination by certified mail. Notice was given to the Municipal Planning Commission of the Town of Barnard on November 15, 2004. A copy of said Notice was posted in the Town Clerk's Office, on the Town Hall and at the Barnard General Store on November 15, 2004 and like Notice was published in the November issue of the Barnard Bulletin and in the Valley News on December 10, 2004.

At the time and place appointed the Barnard Selectboard opened the Public Hearing to hear testimony on the proposed Alteration of a Town Highway on property of Gary and Janet Robison. Only Gary Robison was present and spoke in favor of the proposed alteration. The Hearing was recessed while Selectmen traveled to the property to inspect the site and to hear any interested parties there present. There were none. The Hearing was resumed at the Town Offices to take any additional public comment. There was none and the Hearing was closed at 7:30pm.

On December 29, 2004, upon due consideration, the Barnard Selectboard determined that the public good, convenience and necessity requires that the following action be taken with respect to that portion of Town Highway on the property of Gary and Janet Robison:

Said portion of the Town Highway shall be altered to a location on the property as depicted on the survey entitled "Gary and Janet Robison" dated October 22, 1992, and recorded in the Barnard Land Records, Map Book 4, Page 49. The relocated Town Highway shall run along the eastern boundary of the Robison property as indicated on the Map, shall have a width of 1 ½ rods, shall be classified as a Public Trail, and shall be open to all legal non-motorized public use and open to snowmobile use during the appropriate season.

Dated at Barnard, Vermont this ____ day of February, 2005.

NOTICE OF PUBLIC HEARING

ALTERATION OF THE LOCATION OF A TOWN HIGHWAY THAT TRAVELS ACROSS PROPERTY IDENTIFIED AS PARCEL NUMBER #1-178 ON THE TOWN OF BARNARD TAX MAP.

In accordance with 19VSA Chapter 7, notice is hereby given that the Barnard Selectboard will hold a public hearing on Wednesday, Dec 22 2004, to consider altering that portion of a Town Highway that travels from Vt Rt 12 in an easterly direction, thence in a southeasterly direction across property identified as parcel 178 on the Town of Barnard Tax Map and owned by Gary L. & Janet N. Robison, to run along the northerly boundary of the property to the northeast corner, thence along the easterly boundary to the southeasterly corner.

The public hearing will commence at the Barnard Town offices at 7pm at which time the Barnard Selectboard will travel to the property to conduct an examination of the premises and hear from interested parties regarding the possible alteration of the above referenced portion of the Town Highway.

The Barnard Selectboard will meet at the Barnard Town offices immediately following the site visit to receive any further public comment.

Dated at Barnard, Vermont this 12 day of Nov, 2004.

Selectmen's Minutes **December 22, 2004**

Called to order 7:10pm.

Present: Morse, C. Aikens, G. Robison, M. Clarke, Johnson & Webster on excused absence.

Public Hearing: Public Hearing on Alteration of Town Highway (see Notice attached) opened at 7:15. No testimony offered. Morse recesses hearing and travels to site to inspect. No one present at site. Return at 7:25 and reconvene hearing. G. Robison testifies in favor of relocation of Town Highway as described in Notice and on mylar to be part of trail system on lands of Stone and Vaughn. Relocated Town Highway to be classified Trail with width of 1 ½ rods and open to all legal non-motorized public use including snowmobiles during the appropriate season. Hearing closed 7:30. Matter will be taken up 12/29 before full Selectboard.

Cliff Aikens:1. Barnard Silver Lake Assoc has filed valid petition before Water Resources Board for public hearing on banning motors from Silver Lake to protect lake from invasion of Eurasian milfoil. Hearing to be held in spring.
2. Historical Society has Vtrans approval for transfer of 3 acres to Historical Society (with Town as owner of record) for trail.
3.Discusses RC&D grand for work on upper part of Grove Rd for erosion control. Informed that Town needs specific details of any work to be done affecting Town Highway and specific scope of work requested from Road Crew, if any. Selectmen generally approve such work done with grant money if satisfactory to Road Foreman.

Access Permit 03 A8, French: Amend from logging access to permanent access. Installation specified by Road Foreman done correctly.

Reviewed mail and FY06 budget requests.

Approved Town & Highway orders for payment and minutes of previous meeting.

REVISIONS

RIGHT-OF-WAY DEED
David & Sophia Stone to the Town of Barnard

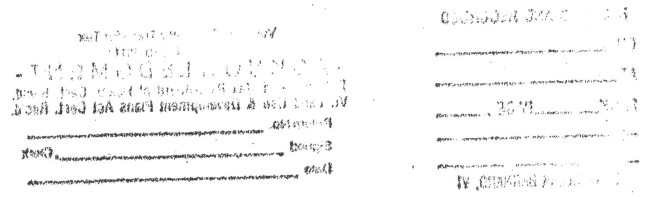

KNOW ALL PERSONS by these presents that David Stone and Sophia Stone, husband and wife, residents of New Orleans, Louisiana, in consideration of Ten Dollars and other consideration described below, by these presents do freely GIVE, GRANT, SELL, CONVEY AND CONFIRM unto the Town of Barnard, its successors and assigns forever, a right of way across the following piece of land ("the Property") in the Town of Barnard, County of Windsor, State of Vermont, described as follows:

> Being a portion of all and the same land and premises as conveyed to David Stone and Sophia Stone by Warranty Deed of Lili-Charlotte Sarnoff and Daniela Martha Sarnoff Bergezi, dated February 4, 2002 and of record in Book 74, Pages 13-14 of the Town of Barnard Land Records, consisting of 54.65 acres, more or less.

The right-of-way established by this deed is a public recreational trail, of one and one-half rods in width, measured as three-quarters of a rod on either side of the center line of the right-of-way, as shown on a survey plat entitled, "Land Survey for David & Sophia Stone, Stage Road, Barnard, Vermont," by Robert W. Farnsworth, dated November 24, 2003, revised December 1, 2003, May 24, 2004 and August 21, 2004, which is to be or has been recorded in the land records of the Town of Barnard, at Book 4, Page 52 of the Barnard land records.

Said right-of-way shall include the right to establish and maintain within the right of way a traveled and cleared path of a width not to exceed ten (10) feet, which may be used by the public for non-motorized travel in all seasons, except that Grantors expressly authorize the use of the path for snowmobiles during the winter season. Except as expressly provided in this deed, the right of way shall not be accessible to motorized vehicles other than as may be required from time to time for maintenance of the right of way and the path. Grantors, at their sole expense, shall perform the initial clearing of the path, subject to approval of the Barnard Selectboard, with due regard for preservation of trees within the right-of-way. Thereafter the Town shall be responsible for the maintenance of the right of way and the path, and shall hold the owners of the Property harmless from liability, costs and attorney's fees resulting from the use of the right-of-way by the public, where such liability, costs and attorney's fees are not attributable to acts of the Grantors.

This deed and conveyance are conditioned on the discontinuance and continued absence of any and all known town highways over lands of Grantors. The deed is a product of a negotiation between Grantors and Grantee, in which this right-of-way was offered to the Town of Barnard, in exchange for a formal, legal procedure discontinuing all known highways over Grantors' land, an action which was completed during the fall of 2004. If a public road is subsequently discovered to run on the Property and if the legislative body of the Town of Barnard does not discontinue such road within 180 days,

or if the legislative body of the Town of Barnard acts to lay out a new road on the Property, the right of way granted by this deed shall thereupon become null and void.

Reference may be had to the above-mentioned deeds and their records and to all prior deeds and their records for a more full and complete description of the lands and premises herein conveyed.

TO HAVE AND TO HOLD the said granted premises, with all the privileges and appurtenances thereof, to the said Grantee Town of Barnard and its successors and assigns, for its own use and behoof forever.

IN WITNESS whereof, we hereunto set our hands this 8th day of September, 2004.

QUIT CLAIM DEED
The Town of Barnard to David Stone and Sophia Stone

KNOW ALL PERSONS BY THESE PRESENTS that the Town of Barnard, Transferor, in consideration of ten dollars and other valuable considerations paid to our full satisfaction by David Stone and Sophia Stone, of New Orleans, Louisiana, Transferees, by these presents, do freely GIVE, GRANT, SELL, CONVEY AND CONFIRM unto the said David Stone and Sophia Stone, husband and wife, as tenants by the entirety, Transferees, their successors, heirs and assigns forever, a certain piece of land in the Town of Barnard, County of Windsor, State of Vermont, described as follows:

> Being all known roads or highways, or other public rights-of-way, crossing any portion of the land and premises conveyed to David Stone and Sophia Stone by Warranty Deed of Lili-Charlotte Sarnoff and Daniela Martha Sarnoff Bergezi, dated February 4, 2002 and of record in Book 74, Pages 13-14 of the Town of Barnard Land Records, consisting of 54.65 acres, more or less, to include the roads and highways discontinued by formal action of the Selectboard of Barnard following their hearing on September 8, 2004.

Reference is directed to the deeds, permits and survey maps relating to said property, and to the Barnard Town Land Records in aid of this description.

To have and to hold all its right and title in and to said quitclaimed premises, with the appurtenances thereof, to the said David Stone and Sophia Stone, and their successors, heirs and assigns forever.

And furthermore, the said Town of Barnard does for itself, its successors and assigns, covenant with the said David Stone and Sophia Stone, their successors, heirs and assigns, that from and after the unsealing of these presents, the Town of Barnard will have and claim no right in or to the said quitclaimed premises.

In witness whereof, we hereunto set our hands and seals this 15 day of September, 2004.

RIGHT OF WAY DEED

KNOW ALL MEN BY THESE PRESENTS

THAT we, W. Randal Vaughn and Eileen Vaughn, in consideration of Ten Dollars and Other Valuable Consideration paid to our full satisfaction by the Town of Barnard by these presents, do freely GIVE GRANT, SELL, CONVEY AND CONFIRM, unto the said Town of Barnard, and its successors and assigns forever, a right of way across the following piece of land ("the Property") in the Town of Barnard, in the County of Windsor and State of Vermont, described as follows, viz:

Being an easement and right of way hereinafter described, on and over a portion of lands conveyed to W. Randal Vaughn and Eileen Vaughn by deed of Jeffrey B. Levy and Joan Levy dated January 18, 2001, recorded in the Barnard Town Clerk's Office in Book 71 at Page 65.

The right of way established by this deed is a public pedestrian trail and snowmobile trail ("Trail"), one and one half rods wide (24.75'), for walking, hiking, cross country skiing, other similar non-motorized recreational purposes and snowmobiling (as indicated herein) along the north, east and south boundary line(s) of the lands of Grantor herein as located on Schedule A attached. That portion of the Trail depicted in blue on Schedule A ("Snowmobile Trail") shall be used only by snowmobiles and only when snow and weather conditions permit use without injury or damage to the land; no other use shall be permitted without the advance written permission of Grantor herein. The location of the public pedestrian trail ("Trail #1"), which also may be used by snowmobiles when weather and snow conditions permit, is described and depicted on Schedule A in red.

Said right-of-way shall include the right to establish and maintain within the right of way a traveled and cleared path of a width not to exceed ten (10) feet along and as near the boundary as reasonably practicable (hereinafter "path" or "Marked Trail"). Except as expressly provided in this deed, the Trail shall not be accessible to motorized vehicles other than as may be required from time to time for maintenance of the Trail and the path. Use and maintenance of the Trail shall be subject to the terms and conditions of an Agreement between Grantors and Grantee dated February 9, 2005, which terms and conditions are incorporated by reference as if set forth herein.

The Town shall indemnify and hold harmless Vaughn from and against any loss or damage, liability, cost or expense, including reasonable attorney's fees arising from use by the public of the easement granted by Vaughn,

except where such liability, costs and attorney's fees are attributable to the acts of Vaughn. It is the intent Vaughn shall have no liability for use of the easement by the public, whether for property damage or personal injury sustained by a person, unless the damage or injury is the result of a willful or wanton misconduct of the owner, and that Vaughn shall be afforded the limitations on landowner liability and protection of owner's rights provided under Sections 5793 and Section 5794 of Title 12 V.S.A.

This deed and conveyance are conditioned on the discontinuance and continued absence of any and all known town highways over lands of Grantors without grantors consent, and the Covenants, conditions and restrictions attached as Schedule B. The deed is a product of negotiation between Grantors and Grantee, in which this right of way was offered to the Town of Barnard, in exchange for a formal, legal procedure discontinuing all known roads, highways and public easements over Grantor's land, an action which was completed during July and August of 2006. If a public road is subsequently discovered to run on the Property and if the legislative body of the Town of Barnard does not discontinue such road within 180 days, or if the legislative body of the Town of Barnard acts to lay out a new road on the Property, then and in that event, the right of way granted by this deed shall, at the sole option of Grantors, thereupon become null and void.

TO HAVE AND TO HOLD all our right and title in and to said quitclaimed premises, with the appurtenances thereof, to the said Town of Barnard, and its successors and assigns forever.

AND FURTHERMORE the said W. Randal Vaughn and Eileen Vaughn, Grantors herein, do for themselves, their heirs, assigns, executors and administrators, covenant with the said Town of Barnard, its successors and assigns, that from and after the ensealing of these presents they will have and claim no right, in, or to the said quit-claimed premises.

IN WITNESS WHEREOF, we hereunto set our hands and seals this 21st day of August A.D. 2006.

IN PRESENCE OF:

as to Both

W. Randal Vaughn L.S.

Eileen Vaughn L.S.

SCHEDULE B
TO
RIGHT OF WAY DEED
VAUGHN TO TOWN OF BARNARD

Said Right of Way is conveyed **subject to** the following covenants, restrictions and conditions:

1) The location of Trails shall be marked & staked by the parties so there can be no confusion as to the location and limits of the Trails; the 10' traveled portion, to the fullest extent reasonably practicable, shall be located along the outside perimeter/boundary of the Vaughn property. Where the location of the boundary line(s) is not clear, such line(s) shall be determined by survey/a surveyor retained and paid by the Town. To afford adequate passage of persons and/or snowmobiles in both directions, the traveled and cleared portion of the Trails ("Marked Trail") shall be ten (10) feet in width; the Right of Way shall be 1 and ½ (1-1/2) rods (24.75') wide.

2) At least once each year the Trails shall be inspected and the trail markers, signs and stakes replaced or repaired or restored as necessary. In those areas where users of the Trails have traveled outside of the Trails, there shall be installed suitable fencing to encourage traffic to stay on the trails. For use of the Trail along the south line across the Vaughn meadow, the snowmobile club shall be required to contribute to the cost to construct a suitable trail-marker (initially) and boundary fence which will keep traffic out of the meadow, of the type and style in keeping with the character of the area, acceptable to Vaughn. Temporary fencing shall be erected prior to use in the 2004-2005 season and permanent fence erected prior to the 2005-2006 season.

3) At its option and to insure the proper establishment and marking of the Trails, the Town may collect from the snowmobile clubs who have the right to use the snowmobile trails sufficient funds to erect suitable trail markers, and fencing/trail boundary marker(s) required under Paragraph 2 above.

4) The Trails shall be maintained to the extent the Town deems necessary by the Town or its designee, provided the designee procures insurance to cover any loss or damage, in such amount(s) as the Town and Vaughn shall reasonably agree naming the Town and Vaughn as insured, and upon providing to the Town of Certificate of Insurance prior to commencement of any work or activity.

5) The Town shall indemnify and hold harmless Vaughn from and against any loss or damage, liability, cost or expense, including reasonable attorney's fees arising from use by the public of the easement granted by Vaughn, except where such liability, costs and attorney's fees are attributable to the acts of Vaughn. It is the intent Vaughn shall have no liability for use of the easement by the public, whether for property damage or personal injury sustained by a person, unless the damage or injury is the result of a willful or wanton misconduct of the owner, and that Vaughn shall be afforded the limitations on landowner liability and protection of owner's rights provided under Sections 5793 and Section 5794 of Title 12 V.S.A.

6) If snowmobile traffic becomes excessive, Vaughn agrees first to take any complaint(s) to the Selectboard, and if a satisfactory resolution is not worked out within a reasonable time, to the Vermont Association of Snow Travelers (VAST). If no satisfactory resolution is worked out within a reasonable time with either the Selectboard or VAST, Vaughn reserves the right to commence a nuisance or other appropriate action in the court of competent jurisdiction or seek any other available remedy. There shall be no snowmobile traffic allowed before 7:00 a.m. or after 9:00 p.m.

7) There shall be no pollution , contamination or dumping or discharge of gasoline, petroleum products or containers, trash, garbage or hazardous materials/substances on the Trails or the Vaughn property. Use of the Trails shall be conditioned upon keeping the Trails free of trash and hazardous substances, and payment of the cost of cleanup required to do so.

8) Except for clearing the Trail or routine maintenance, there shall be no excavation or alteration of the land.

9) Except for the Town when conducting routine maintenance or clearing the Trail, no other motorized vehicles of any type, included but not limited to, four wheelers, range rovers or motorcycles shall be allowed over the Trails, except only for seasonal maintenance, without the advance written permission of the Town and Grantor. The Snowmobile Trail along the south line is to be used only for seasonal snowmobiling, and for no other purpose.

Subject: Town of Barnard 2010 Cert Hwy Mileage

Hi Mr. Croft. Tom Morse, Barnard Selectboard, here.

We received your letter of 2/25/10 regarding an apparent transposition error on a partial discontinuance of TH 20 submitted as part of our 2010 Cert. of Hwy. Mileage.

We concur that the Class 3 mileage discontinued was 0.3 miles, not 0.4 miles,

Sorry for the error.

still transposed

Selectboard's Return

Discontinuance of a Portion of TH 20

Discontinuance of an Unnamed Class 4 Road

On April 22, 2009, the Town of Barnard Selectboard appointed the time and place for a Public Hearing for the purpose of receiving testimony and hearing all persons interested in the matter of whether the Town of Barnard, pursuant to 19 VSA, chapter 7 et seq. shall Discontinue a portion of Town Highway 20 and an unnamed class 4 Town highway, viz:

1. To discontinue a portion of TH 20, Ellis Farm Road, commencing approximately 0.4 miles from its intersection with TH 2 at the property line of Linglebach (parcel 447) and Clarke (parcel 202.1), westerly approximately 0.3 miles to its terminus.

2. To discontinue an unnamed Class 4 road shown on the Town of Barnard Parcel Map running from the terminus of TH 20 westerly approximately 0.5 miles to its intersection with TH 2.

The Barnard Selectboard gave thirty days notice of the time and place of the Public Hearing to the property owners involved, to the Barnard Planning Commission and to other interested parties which are listed in attachment hereto. Notice was posted in the Town Office, the Barnard Post Office and at the Barnard General Store. Like Notice was published in the Valley News on May 14, 2009.

At the time and place appointed, the Barnard Selectboard opened the Public Hearing and received testimony as indicated in attached minutes. The Public Hearing was recessed and the Selectboard traveled to the site to inspect the road(s) in question and to hear any persons there present. Following the site visit, the Public Hearing was reconvened at the Town office and further testimony was received as indicated in attached minutes.

Upon due consideration, the Barnard Selectboard determined that the public good, convenience and necessity requires that a portion of Town Highway 20, as indicated in (1) above, and an unnamed Class 4 Town highway, as indicated in (2) abovve, be discontinued and so unanimously voted.

Dated at Barnard, Vermont this 15TH day of June, 2009.

Tim Johnson Rock Webster Tom Morse, Selectmen

Selectboard's Return

Alteration and Discontinuance of a Portion of TH 14

On December 30, 2008, the Town of Barnard Selectboard appointed the time for a Public Hearing for the purpose of receiving testimony and hearing all persons interested in the matter of whether the Town of Barnard pursuant to 19 VSA, chapter 7 et seq, shall Alter and Discontinue a portion of Town Highway 14, viz:

1. To alter TH14 from its interesection with TH33 southerly approximately 320 feet to the property boundary of Joseph Morel and David Firestone from Class 3 to C lass 4.

2. To discontinue TH14 from the property boundary of Joseph Morel and David Firestone southerly approximately .5 miles to its recognized terminus at the farm buildings of Joseph Morel.

3. To discontinue an alleged and previously litigated ancient Town Highway running from the farm buildings of Joseph Morel southerly, then easterly approximately .5 miles to TH 2, the Royalton Turnpike.

The Barnard Selectboard gave thirty days notice of the time and place of the Public Hearing to the property owners involved, to the Barnard Planning Commission and to other interested parties which are listed in attachment hereto. Notice was posted in the Town Office, the Barnard Post Office and at the Barnard General Store. Like Notice was published in the Valley News on January 20, 2009.

At the time and place appointed, the Selectboard Chair opened the Public Hearing and received testimony from all interested parties. The Public Hearing was recessed and the Selectboard made a site visit to the portion of TH14 delineated above to inspect the Town Highway under consideration for Alteration and Discontinuance and to hear any persons there present. There was no one present. Following the site visit, the Public Hearing was reconvened at the Town Office, to receive any further testimony. There was none. Copy of the minutes of the Public Hearing are attached hereto.

Upon due consideration, the Barnard Selectboard determined that the public good, convenience and necessity requires that Town Highway 14 be Altered and Discontinued exactly as prescribed in (1), (2), and (3) above and so unanimously voted.

Dated at Barnard, Vermont this 25th day of February, 2009.

TOWN CLERK BARNARD, VT

Selectboard's Return

Alteration and Discontinuance of a Portion of TH 14

On December 30, 2008, the Town of Barnard Selectboard appointed the time for a Public Hearing for the purpose of receiving testimony and hearing all persons interested in the matter of whether the Town of Barnard pursuant to 19 VSA, chapter 7 et seq, shall Alter and Discontinue a portion of Town Highway 14, viz:

1. To alter TH14 from its interesection with TH33 southerly approximately 320 feet to the property boundary of Joseph Morel and David Firestone from Class 3 to C lass 4.

2. To discontinue TH14 from the property boundary of Joseph Morel and David Firestone southerly approximately .5 miles to its recognized terminus at the farm buildings of Joseph Morel.

3. To discontinue an alleged and previously litigated ancient Town Highway running from the farm buildings of Joseph Morel southerly, then easterly approximately .5 miles to TH 2, the Royalton Turnpike.

The Barnard Selectboard gave thirty days notice of the time and place of the Public Hearing to the property owners involved, to the Barnard Planning Commission and to other interested parties which are listed in attachment hereto. Notice was posted in the Town Office, the Barnard Post Office and at the Barnard General Store. Like Notice was published in the Valley News on January 20, 2009.

At the time and place appointed, the Selectboard Chair opened the Public Hearing and received testimony from all interested parties. The Public Hearing was recessed and the Selectboard made a site visit to the portion of TH14 delineated above to inspect the Town Highway under consideration for Alteration and Discontinuance and to hear any persons there present. There was no one present. Following the site visit, the Public Hearing was reconvened at the Town Office, to receive any further testimony. There was none.
