SEE NOTE FOR SIGN #12 CONCERNING SIGN SIZE REQUIREMENT

**MATERIALS**

The sign base material used for the guide signs shown on this sheet may be any of the following:  
 A - Acrylce Overlaid Plywood, 3/4" minimum thickness with reflective sheeting.  
 B - Extruded Aluminum Panels, with reflective sheeting.  
 C - Formed Galvanized Steel Panels, with reflective sheeting.  
 See note below for details of text, border and symbols  
 Signs #11 and #12 or #12A, when used, shall be of the same sign base material as the parent sign.

**COLORS**

The signs shall have a reflectorized white text on a reflectorized green or blue background as indicated for each sign. The green and blue shall conform with those found in Standard Color Tolerance Charts as approved by the U.S. Dept. of Transportation, Federal Highway Administration.

**LETTERING**

Letters and digits shall conform with the requirements found in the publication "Standard Alphabets for Highway Signs and Pavement Markings" printed by the Federal Highway Administration.

**DESIGNS**

The design of these signs shall conform with the details set forth in the manual "Standard Highway Signs" as specified in "The Manual on Uniform Traffic Control Devices."

**SPECIFICATIONS**

The signs shall meet the standard state specifications for "Traffic Signs,"  
**TEXT, BORDER AND SYMBOLS**  
 The material for the text and border of signs 1 - 4 shall be acrylic plastic reflectors in an embossed letter frame with a white baked enamel finish.  
 The material for the text, border and symbol of signs 5 - 13 shall be of flat sheet aluminum, 0.040 thickness with white or silver encapsulated sheeting.
