GTx™
LED Signal Modules
8 and 12 inch
Incandescent look (120V)

GE's 14th generation of LED signal,
leveraging 15 years of experience
& over 6,000,000 units sold worldwide

Outstanding Performance

- Consumes up to 15% less power than GE's previous signal generation.
- Intelligent controller measures usage and temperature. Will automatically adjust to compensate for light output degradation over time.*
- Over-molded electrical connectors prevent water wicking through wires.

Maximum Flexibility

- New micro-controlled power supply is packed with advanced functionality that can be unlocked and customized to fit your specific needs.
- Low profile module permits efficient installation into existing traffic housings.
- Power consumption levels allow compatibility with most controllers.
- Offers multiple dimming configurations for ultimate customization.**
- Mask compatible to fit your unique signaling needs.***

Meets Rigorous Certification & Testing Standards

- Intertek ETL Verified compliant.
- Compliant with ITE VTCSH LED Circular Signal Supplement dated June 27th 2005.
- CSA approved.

* Compensation levels vary depending on color.

** Customer controller and load switch compatibility testing may be required. Please contact your GE representative for details.

*** Sold separately. Refer to masks datasheet TRAF208.
