Project Name: Springfield Bridge Replacement Project No. BRS-RS.0113(8)

Structure Identification: Bridge No. 44

The following 3-Line Aluminum Rail details for the above project (Vendor's Job # AL-29196)

transmitted with your letter dated 10/31/96, have been reviewed and are being returned herewith.

Sheets: LB-1, LB-2, LB-3, LB-4 and LB-5
are approved [X] approved "as noted" [] reviewed []

Sheets: _____

are to be reconsidered (note comments in red) and resubmitted for final approval.

There shall be no fabrication done until all drawings and welding procedures are approved. You must provide written notice to Vermont Agency of Transportation (VAOT) Structures Division office as to the date fabrication represented by these drawings will begin. That notice must be received at least seven days prior to that date, as per Specifications 506.03. Any material fabricated prior to the notification date is subject to rejection without further cause.

Sincerely,

Sam A. Baki
Project Engineer

SAB/lmm
