This review is only for general conformance with the design and the value placed upon it by the design engineer. It does not constitute an approval of the shop drawings. The reviewer does not verify the dimensions or quantities with the manufacturer's drawings and specifications. Review of shop drawings is a check for the inclusion of an assembly of which the reviewer is responsible. The reviewer is not responsible for the construction and erection of the structure. The reviewer is not responsible for the construction, coordination of the structure with other trades and the installation of work in a safe and efficient manner.
