

NOTES:

1. Contractor shall exercise extreme care during all work adjacent to the Munroe Brook. No silt or debris or green concrete shall be allowed to wash into the brooks or the adjacent wetlands.
2. The contractor shall also adhere to the 2001 version of the State of Vermont Standard Specifications for Construction. Particular attention shall be paid to the following sections:

105.22	Environmental Protection
105.23	Control of Erosion and Siltation
105.24	Pollution Control
105.30	Preservation of the Beds of Streams & Bodies of Waters
204.00	Excavation for Structures
204.04	Preservation of Channel
3. The contractor is directed to the NPDES permit application in the contract documents.
4. The contractor is directed to section 652 of the special provisions.
