LBF Job Number: **AR0495**
DATE: September 10, 2008

Project: 3L Alum Railing (bridge and approaches) for Town of Pownal, County of Bennington, VT - Bridge 41, Rte TH 24, CL3 - Proj #BRZ 1441 (19) C/2

Subject: Dimensional revision

FROM: Cathy Starr
Description of RFI:

Eric/Katrina, We are seeking approval for the change to the length and location of the lower slots in the post. They were inadvertently made 2 1/2" lg vs the original 2" lg, which affected the lower dimension (see attached revised dwg). This will have no affect on the mounting to the deck. For the inspector's satisfaction, we will need approval for this change.
