

A photograph of a green-painted metal structure, possibly a ship's hull. The paint is peeling and chipped away in several areas, revealing a reddish-brown metal underneath. There are two small, dark, irregular holes in the green paint. A small, dark, cylindrical object is visible near the top edge. The text "PAINTED" and "AUG. 1988" is painted in white on the green surface.

PAINTED

AUG. 1988
