Capt. "FERRET"

OF C.S.

A photograph showing the underside of a concrete bridge structure supported by a large, rectangular concrete pier. The pier is heavily stained and has the words "HANDY STEADY" written on it in white, block letters. The bridge deck above is supported by several large, weathered concrete beams. The scene is surrounded by dense green foliage and trees, with some bare branches in the foreground. There are also some red 'X' marks on the pier's surface.

HANDY STEADY
