

State of Vermont

Water Supply & Wastewater Permit

LAWS/REGULATIONS INVOLVED
ENVIRONMENTAL PROTECTION RULES

Chapter 4, Public Buildings
Appendix A, Design Guidelines

CASE NO. WM-4-0136
APPLICANT State of Vermont
ADDRESS Agency of Transportation
133 State Street
Montpelier, VT 05602

This project, consisting of extending the municipal sewer to be utilized by the northbound and southbound rest areas along Interstate 89 located in the Town of Williston, Vermont is hereby approved under the requirements of the regulations named above, subject to the following conditions.

GENERAL

- (1) This permit does NOT constitute Act 250 approval (Title V.S.A., Chapter 151). The permittee is hereby reminded to procure all relevant State and local permits prior to proceeding with this project.
- (2) The project shall be completed as shown on the Plans Project No. 888825 sheet 3 of 7 dated April 1989; sheet 4 of 7 dated April 1989; sheet 5 of 7 dated April 7, 1989; sheet 6 of 7 dated April 1989; and sheet 7 of 7 dated April 1989 - prepared by Dubois & King, Inc. and in Section 628 - Sanitary Sewer Systems (construction specifications) and which have been stamped "approved" by the Division of Protection. The project shall not deviate from the approved Plans without prior written approval from the Division of Protection.
- (3) A copy of the approved Plans and this Permit shall remain on the project during all phases of construction and, upon request, shall be made available for inspection by State or local personnel.
- (4) By acceptance of this permit, the permittee agrees to allow representatives of the State of Vermont access to the property covered by the permit, at reasonable times, for the purpose of ascertaining compliance with Vermont environmental/health statutes and regulations, and with this permit.
- (5) The project is approved for wastewater disposal by connection to the Essex Junction municipal sewer system. No other method of wastewater disposal shall be allowed without prior review and approval by the Division of Protection, and such approval will not be granted unless the proposal conforms to the applicable laws and regulations.

(6) A professional engineer, registered in the State of Vermont, is to generally supervise the construction of the sanitary sewer line extensions and, upon completion of construction, the supervising engineer is to submit to the Protection Division a written certification stating all construction has been completed in accordance with the stamped approved Plans. The engineer's certification is to be submitted to the Division prior to the occupancy of any unit and the certification shall include, but not be limited to, the numerical results of all leakage testing performed on each segment of the sanitary sewer extension and all manholes, as described in Appendix A, of the Environmental Protection Rules.
