

## A MAP OF

# VERMONT

Indicating the Principal Highways and the  
Railroads of the State and Routes  
Leading Thereto

A Vermont Waterfall

States, and it is famous for its high-grade apples and potatoes.

Vermont ranks first in the production of marble, granite and talc, and second in the production of slate. With approximately 100 varieties, Vermont produces nearly one-half the marble quarried in the United States and supplies nearly 70 per cent of the monumental and statuary marble. This state furnishes about one-fifth of the granite quarried in the United States and approximately one-half of the monumental granite used in this country.

Otter Creek Valley and the Green Mountains

Vermont is served by some of the largest railroad systems of the United States and Canada.

Vermont welcomes the visitor and desires to extend its hospitality.

This state maintains a publicity Bureau in the Office of the Secretary of State, and is glad to furnish maps and illustrated booklets, and to answer specific inquiries for information.

Publicity Department

Montpelier, Vermont

Vermont contains good hotels, large and small, that serve the farm, dairy and maple products that have made the state famous.

There are, in this state, abundant opportunities for the location of camps and summer homes, within a day's automobile ride of the great cities of the East.

Vermont outranks every other state in per capita value of dairy products and only three states surpass Vermont in percentage of purchased cattle.

Vermont makes more than half the maple sugar produced in the United States and leads all other states in the production of maple syrup.

For many years Vermont has ranked near the head of the list in yield per acre of staple crops, largely exceeding the average yield for the United States.

A Mountain Stream in Vermont

VERMONT and VACATION are closely associated in the minds of a steadily increasing number of summer home-seekers and tourists.

Through the center of Vermont, from the northern to the southern border, extends the Green Mountain range, containing approximately one thousand peaks that equal or exceed two thousand feet in height. Vermont contains hundreds of lakes, from Champlain on its western border, more than one hundred miles in length, to pools, hidden in the hills, that reflect their charming mountain settings.

Vermont has good roads, patrolled, on which the dust is laid.

### Distances to Vermont Points.

New York to	181 miles
Bennington (via Pittsfield, Mass.)	238 miles
