Vermont and Vacation

A Mountain Stream in Vermont

are closely associated in the minds of a steadily increasing number of summer home-seekers and tourists.

Through the center of Vermont, from the northern to the southern border, extends the Green Mountain range, containing approximately one thousand peaks that equal or exceed two thousand feet in height. Vermont contains hundreds of lakes, from Champlain on its western border, more than one hundred miles in length, to pools, hidden in the hills, that reflect their charming mountain settings.

Vermont contains good hotels, large and small, that serve the farm, dairy and maple products that have made the state famous. There are, in this state, abundant opportunities for the location of camps and summer homes, within a day's automobile ride of the great cities of the East.

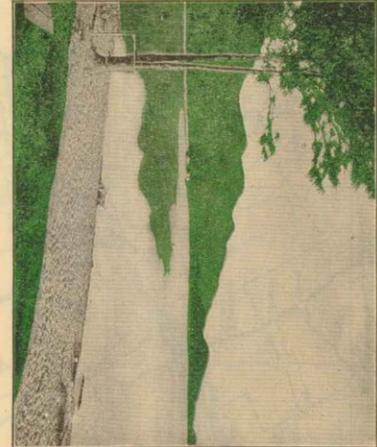

Vermont outranks every other state in per capita value of dairy products and only three states surpass

A Vermont Cascade

Vermont in percentage of purchased cattle. Vermont makes more than half the maple sugar produced in the United States and leads all other states in the production of maple syrup.

For many years Vermont has ranked near the head of the list in yield per acre of staple crops, largely exceeding the average yield for the United States, and it is famous for its high-grade apples and potatoes. Vermont ranks first in the production of marble and monumental granite, and second in the production of slate and talc. With approximately 100 varieties, Vermont produces nearly one-half the marble quarried in the United States and supplies nearly 70 percent of the monumental and statuary marble. This state furnishes approximately one-half of the monumental granite used in this country.

Vermont is served by some of the largest railroad systems of the United States and Canada. A network of bus lines traverses the State.

Information Bureaus are maintained by the State and by local civic and commercial organizations. The former gladly supplies maps and illustrated booklets on request, and all are prepared to answer specific inquiries for information.
