SYNOPSIS OF MOTOR VEHICLE LAWS 1949

Subject to Changes by Legislature

RECIPROCITY ON REGISTRATION AND OPERATOR'S LICENSES . . . Vermont grants to non-residents the same reciprocity as granted by the state of the non-resident on pleasure cars, buses and trucks (except all motor trucks doing intra-state operation must register at once). The same reciprocity applies to operator's licenses.

SPEED LIMITS . . . The speed limit for pleasure cars is fifty miles per hour; for all other motor venicles, forty-five miles per hour. Cities and incorporated villages have authority to make special regulations relative to speed of motor vehicles provided such limit is fixed at not less than twenty miles per hour.

CARELESS OR NEGLIGENT OPERATORS . . . The laws of Vermont provide that a motor vehicle shall not be operated on a public highway in a careless or negligent manner, nor in a manner to endanger the safety, life, or property of any person.

It is contrary to law for more than three persons to ride in the driving compartment of any motor vehicle.

All drivers are requested to observe the following precautions in the interests of safety on the highways:

When meeting another motor vehicle at night, depress headlights to the low beam.
Watch out for pedestrians, particularly children.
Slow down at schools, crosswalks, and dangerous intersections.
Stop before passing a stationary school bus.
Signal the driver of the car behind when intending to change course.
Keep the car under control at all times.
Keep in line when nearing the top of a hill or a curve.
Have car inspected regularly and maintain it properly.
Never drive after drinking intoxicating liquor.

ACCIDENTS—DUTIES OF OPERATOR . . . The operator of any motor vehicle involved in an accident must stop immediately and give his name, residence, license number and the name of the owner of the motor vehicle then under his control, to the party whose person or property is injured.

The operator is further required to report the accident, within thirty-six hours, to the Commissioner of Motor Vehicles at Montpelier, Vermont, if there are any personal injuries or if property damages exceed $35. Forms for making such reports can be obtained from any State Police trooper, any State Police headquarters or any local police department.

VERMONT STATE POLICE . . . The Vermont State Police, a Division within the Department of Public Safety, are charged with the control of traffic and the enforcement of the motor vehicle laws. To promote safety on the highways, the Department requests that all operators maintain their vehicles in proper mechanical condition, show due consideration for the rights of others, and exercise good judgment at all times.

The State Police are concerned not only with traffic control and enforcement of the laws of the road but they are always ready to give any information desired to visitors to the State and to assist in case of any emergency.

For any information relative to the motor vehicle laws address the Department of Motor Vehicles, Montpelier, Vermont or the Department of Public Safety, Montpelier, Vermont.

Never hesitate to call upon the Vermont State Police if you need advice or assistance. They are for your service, aid and protection and should always be contacted in case of an emergency.

HEALTH CONDITIONS IN VERMONT

All places offering lodging and meals must pass inspection by State Department of Public Health.

Vermont is justly known as a healthy state, and for years has maintained its position as a leader in the control of communicable diseases. Typhoid fever is almost unknown in this state, a result which has been accomplished by close supervision of the State Department of Public Health over all public water supplies, sewage disposal and other possible means of infection. Boys' and girls' camps are visited frequently by an experienced sanitary engineer, and camp owners make constant use of the facilities of the department whenever sanitary or disease problems arise.

Besides the sanitary engineering division, the department maintains active divisions of laboratory, communicable diseases, tuberculosis, infantile paralysis and public health nursing, all of which are at the service of tourists, campers and visitors, receiving attention either directly at the headquarters at Burlington, or through local health officers in the cities or towns.

VISIT THE LONG TRAIL

From one end of Vermont to the other the Long Trail follows the skyline of a two hundred mile mountain range, dipping into valleys, climbing over summits, passing through forests, sometimes skirting lakes and ponds. Approach trails lead up to the Long Trail from nearby highways, and in addition there are highways which cross the Trail itself.

You can visit the Long Trail or one of the beautiful summits in a single day's trip from various convenient points. A detailed guide book is sold by the Green Mountain Club, Rutland, Vermont.

WINTER SPORTS

The many large and small ski developments located in the Green Mountains from Massachusetts to the Canadian border attract thousands of enthusiasts throughout the winter months. All of these developments are readily accessible by highway. Daily snow reports from the larger centers are carried by the press and radio. For detailed information on skiing facilities and accommodations write the Publicity Director, Vermont Development Commission, Montpelier, Vermont.

GREEN MOUNTAIN HORSE ASSOCIATION BRIDLE PATHS

The roads used for these so-called bridle paths are the dirt roads which run throughout the entire state, generally higher in the hills than the main highways. They are soft surfaced, shady, always beautiful and very seldom used by motor cars. At present there are many miles of them marked, with stops arranged every ten to twenty miles for the riders' convenience for luncheon or over night.

One can generally count on the bridle paths being in good condition from May 1st to November 1st, and in some places for a longer season. Flies that make riding almost impossible in some sections of the country, are seldom seen in Vermont, so a riding trip is a pleasant experience any time during the above months.

The Green Mountain Horse Association invites all who are interested in trail riding to become members of the Association. The dues are $3.00 a year which includes a subscription to their quarterly magazine. Anyone contemplating a riding trip to Vermont can obtain all necessary information as to routes, expenses, rental stables, etc. by addressing the Green Mountain Horse Association, Rutland, Vermont.

State Highways

Vermont's state highway system of 1,804 miles, shown in red on this map, is maintained by the state's Department of Highways. Three-quarters of these roads are paved, with more pavements being added each year. The remainder are gravel surfaced and under continuous maintenance.

All state highways (except for a short section in Smugglers Notch on Route 108) are kept plowed and sanded throughout the winter. Except during a storm or when it is raining and freezing, good winter driving conditions will be found. Always carry tire chains and a shovel for emergencies.

For information about Vermont highways write the Department of Highways, Montpelier, Vermont.

Information Service

The Vermont Development Commission desires to be of help to all persons interested in the state, and will gladly give information regarding hotels, boarding places, locations for summer homes, tours, recreational attractions and opportunities for hunting, fishing and winter sports.

The following publications will be furnished: Vermont Hunting & Fishing; Vermont Tours; Directory of Hotels, Tourist Homes & Cabins; Vermont Summer Homes for Sale; Cottages, Camps & Furnished Homes for Rent with a list of boys' and girls' camps; Unspoiled Vermont folder; Vermont Winter Sports folder.

Special requests for information not contained in the foregoing are welcomed and will be answered as fully as possible. Address:
